Para 4. At the Salem and Berhampur jails, estimates have been prepared by the Public Works Department for covering the wells with iron gratings, but as the amounts involved are Rs 810 and Rs 440 respectively, the Superintending Engineers state that they cannot undertake the work without the special sanction of Government being accorded to their doing so under Rule 131b of the Public Works Code. The work, however, is of a nature specially requiring professional supervision, and I have the honor to request that in these two cases the Public Works Department may be authorised to carry out the estimates. It would save further reference if Government would accord a general sanction to the Public Works Department, carrying out any estimate prepared with reference to paragraph 2 of G.O. of 6 May 1891, No. 877.

Order

Order 2nd August 1892 No: 1393

2. The Public Works Department will be directed to undertake the covering of the wells at Salem and Berhampur as requested by the Inspector General but the Government does not consider it advisable to issue general orders on the subject to the Public Works Department; the Jail Superintendents should as a rule be able to get the work done.
