Note by Sir Henry Stokes on Judicial
Q.O. 1239 of 5 July 1892, of 30 June.

The work I think may be
accepted as a desirable thing, and detailed estimates
may be ordered. The work will however have
to wait until our finances are more
prosperous.

TECHNICAL NOTE. 16. 8. 92

Constructing a boundary wall around the Lunatic Asylum, Madras
Amount of Estimate Rs 15820

This estimate is framed with reference to G.O. No. 1986 w dated 11th July 1892. It provides for erecting a boundary wall for a length of 3500 feet to connect the existing enclosures.

The wall is to be built on a foundation 6 feet deep, owing to the nature of soil, & raised 8 feet high above ground level to top of coping. The foundation is to be built of brick in chumam on a concrete bed 18 inches deep. The superstructure wall built of partly of brick in chumam & 15 inches above ground level to the remaining height of brick in clay & plastered with 2 coats of chumam.

The rates are fair.
The cost per running foot of boundary

22. 8. 92

Boundary wall with 12.8.93

The plan herewith has been
counter-signed by the Surgeon Genl.
& approved in the Judicial
Dept.

12. VIII. 92

The wind pressure allowed
for, 20 lbs per sq. foot
is rather much - a
cyclone has been known
to exert a pressure of 100
lbs per sq. foot - but this is
not the case - 20 lbs per sq. foot
