READ—the following papers:—

From A. M. FOORD, Esq., Executive Engineer, Chingleput division, to the
Superintending Engineer, V Circle, dated 11th August 1892, No. 1999.

I have the honour to bring to your notice that, in the Consulting Architect's
division, there are always many buildings under repair and that there are many
trained men always in employment on those repairs. I would, therefore, propose that
a reference be made whether Government House, Guindy, and the Saidápet College
might not be included in the works under his charge. He is always on the spot and
the Executive Engineer may be miles away in camp when any urgent repairs are
required.
