Sir,

Referring to our Tender herewith for a Sellers Screwing Machine, we would remark that the capacity of this machine has of late years been increased to $1\frac{1}{4}$ "

The prices included in our Tender are for the Machine as specified, i.e. to screw and tap up to 1" only, but if preferred we could supply the extra dies, machine taps and master taps for the $1\frac{1}{8}$ " and $1\frac{1}{4}$ " sizes, and the paralalled and conical Rhymers to suit for the extra price of £7.

We are, Sir, &c,
Sharp, Stewart & Co, Ltd.,
(Sd) John H. Sharp.
for Managing Director.

24th June 1892.

Sir,

With reference to the following item in Public Works indent No. 25, forwarded with your letter No. 1022 W dated 29th March 1892, vizt:

For the Second Circle, Kistna Eastern Division

Item Seller's bolt screwing and nut tapping
365. machine from $\frac{1}{4}$ " to $1\frac{1}{2}$ "

No. 1.

Estimated price in indent £40.

I have the honour to inform you that a machine, as described in the indent, has been ordered at a cost of £85.

I enclose for your information copy of a letter from the contractors, offering to supply extra dies, machine taps and master taps for an additional sum of £7 in order to increase the capacity of the machine as indicated in their letter, but as the actual cost of the machine demanded is more than double the estimated outlay quoted in the indent, I propose to take no action in regard to these extra articles, pending the receipt of a further expression of your wishes in the matter.

I have the honour to be, Sir,

Your obedient Servant,

J. Tucker

Director General of Stores.

The Secretary to Government,
Public Works Department,
Madras.

Letter from the Executive Engineer,
Kistna Eastern Division, to the Super-
intending Engineer, Second Circle, No. 2311
of 24th August 1892.

Referring to your endorsement No.
1013 Hs. dated 21st July 1892 I have
the honor to inform you that as
bolts and nuts in excess of 1" diameter
are very rarely required to be made
at Bezawada Workshops, I do not
consider it necessary that the Sellers
Screwing machine indented for shop
be provided with taps and dies for
1 ¹/₈" and 1 ¹/₄" sizes.
