12TH SEPTEMBER 1892, No. 2540 W., PUBLIC WORKS.

2540/1

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper:—

Proceedings of the Board of Revenue (Land Revenue), dated 9th July 1892, Mis. No. 4203.

MR. E. GIBSON.

Read—the following paper:—

From W. H. WELSH, Esq., Collector of Trichinopoly, to the Secretary to the Commissioners of Land Revenue, dated 10th June 1892, No. 284-4.

With reference to Board's Proceedings, No. 6205, dated 26th September 1890, I have the honour to forward an estimate, amounting to Rs. 33,100, with site-plan, for constructing a first-class taluk cutcherry at Musiri and request that the Board will be pleased to obtain the sanction of Government at an early date.

2. The collection of materials was put in hand last year and is being proceeded with. An allotment of Rs. 6,000 has been provided for the work in current year's budget.

Resolution—dated 9th July 1892, Mis. No. 4203.

The site-plan and estimate for constructing a first-class taluk cutcherry at Musiri at a cost of Rs. 33,100 is submitted for the early sanction of Government.

2. The Board observes that the estimate includes a provision of Rs. 2,430 (for record-racks Rs. 1,224, cook-room Rs 396, latrine Rs. 550 and well Rs. 260) which has not been provided for in the standard design for the taluk offices approved in G.O., dated 11th November 1891, No. 3023 W. Excluding this amount, the balance is Rs. 30,670, which is in excess of the estimate according to the standard design by Rs. 1,760. The excess is due chiefly to increases in the rates for the several descriptions of wood-work and for certain other items noted below:—

—	Rate as in the standard estimate.			Rate as per estimate of Musiri taluk cutcherry.			—
	RS.	A.	P.	RS.	A.	P.	
(1) Teak wood wrought and put up	3	8	0	4	0	0	Per cubic foot.
(2) ,, panel and venetian door, &c.	1	1	0	1	12	0	Per square ,,
(3) ,, ,, door, &c.	0	14	0	1	8	0	,, ,,
(4) ,, strong battened door, &c.	1	1	0	1	8	0	,, ,,
(5) Venetian windows with glazed shutters inside frames ..	1	13	0	1	14	0	,, ,,
(6) Battened windows, &c.	1	6	0	1	12	0	,, ,,
(7) Venetian windows with glazed top frames, &c. ..	1	12	0	2	0	0	,, ,,
(8) Flooring with 8-inch square bricks, &c.	7	3	0	12	0	0	Per 100 square feet.
(9) ,, asphalte	17	5	0	21	0	0	,, ,,
(10) Cuddapah slabs for cornice	24	8	0	26	8	0	,, ,,

Of these only No. 10 has been explained. The Executive Engineer says that the increase of Rs. 2 under this item is provided to cover the train charge from Madras to Kulitalai station and conveyance charge from the latter to the work spot. If explanation for the remaining items is deemed necessary, the Board suggests that it be called for in the Public Works Department.

3. The Board further observes that in the estimate provision is made for fencing the greater portion of the compound with aloes. As aloes harbour snakes and are not a sufficient protection against cattle, it is suggested that a barbed wire fence may be provided instead.

(A true Copy and Extract.)

(Signed) W. S. MEYER,
Acting Secretary.

No. 3555, Revenue.

The site-plan and estimate for the construction of a taluk cutcherry at Musiri are approved and will be transferred to the Public Works Department.

2. The Board's suggestion in paras. 2 and 3 will be considered in the Public Works Department.

OOTACAMUND,
9th August 1892.

(Signed) R. H. CAMPBELL,
Acting Under-Secretary.

ORDER—dated 12th September 1892, No. 2540 W., Public Works.

The estimate, amounting to Rs. 33,100, for constructing a first-class taluk office at Musiri in the Trichinopoly district, is sanctioned.

2. A sum of Rs. 6,000 has been provided for the work in the current year's budget and no additional allotment can be made at present.

3. With reference to para. 2 of the Revenue Board's Resolution, attention is invited to G.O., No. 2274 W., dated 17th August 1892.

4. The Superintending Engineer, VI Circle, will submit a supplemental estimate providing for a barbed wire fence in lieu of the aloe hedge.

5. The sanction accorded in para. 1 of these Proceedings has been registered as Provincial No. 58 W. of 1892–93 and classified as Civil Buildings, Original Works.

TECHNICAL NOTE.

Constructing a Taluq office at Musiri in the Trichinopoly District
Amount of estimate Rs 33,1

This estimate is pr
constructing a First c
office at Musiri in Tr
District in accordance
Type design, circulated in
No. 3023 W dated 11th November 1891
for terraced roofs and the out-houses, as per designs approved in G.O. No. 1409 W dated 28th May 1889.

The amount of the estimate is made up as follows:-

Main building	Rs 30,403
Record racks	1,224
Cook room	396
Public latrine	550
Compound wall with gate	227
Sinking a well	260
Compensation for land	40
Total Rs	33,100

Particulars of construction

The compound wall is shown as per Type design in lieu of ordinary [illegible] & ground at the said cost of [illegible]

been provide

[illegible] work at an average depth of 3 feet below ground surface.

The foundations are to be sunk 4 feet deep, the lower 2 feet to be of concrete and the upper 2 feet of brick in chunam; the basement is to be raised 2 feet high and the superstructure walls raised 20 feet for the main rooms & 12 feet for the Police guard, jail wards, record rooms &c. and built of brick in chunam with flat & circular arches over doors & windows. interior faces of walls are to tered with 2 coats of chunam exterior faces pointed asphalte. The floor main rooms & verandahs of 8" square bricks laid over a bed of concrete 6" thick, those of the jail wards, record rooms &c. of 3/4" asphalte on 6" of concrete. The roof throughout is to be terraced with brick on edge &c. and supported by teak beams & joists. The doors & windows are to be of teakwood & of the description noted in the estimate.

Provision is made for fitting the main building with lightning conductors at a cost of Rs 300 & for 24 teak wood record racks each 6 x 2½ x 9½ at Rs 51 each as per Type design.

The subsidiary buildings are to be built as per approved Type design except that the dimensions of the latrines are

smaller

Since found correct vide remarks
[illegible]

4

smaller. The dimensions noted in the estimate are for jail latrines & not for Public Latrines vide printed estimate herewith, the estimate provided for the exact dimensions but altered apparently in the Sub's office to suit the size of a jail latrine.

The rates as far as can be checked are fair except for terracing, a rate of Rs 25 is provided against the schedule rate of Rs 22 but data are furnished for this item. The rates for doors & windows cannot be fairly checked as the description noted in the estimate are not to be found in the rate list. Teakwood is charged at Rs 4 per Cft but the schedule rate is Rs 3-8-0 per Cft for wrought & fixed. This rate of Rs 3-8-0 appears absurd when compared with the items under "raw materials" a rate of Rs 3-8-0 is provided for woodwork sawn in scantlings but not wrought & fixed. If raw material can be charged at Rs 3-8-0 then wrought & fixed must at least cost Rs 3-12-0 and 4-0-0 per Cft hence the rate of Rs 4-0-0 may be passed.

The scantlings [illegible] timber are correct as per [illegible] estimate.

The site proposed is attached to the Govt. land, a sum of Rs 40 is provided

provided under compensation for
a private hut & compound wall
& to remove the materials
& give up the land. This sum is
settled & the price in consultation
with the village karnam.

Provision is also made for
sinking a well 7 feet in diameter at a cost of Rs 250 & for
a compound wall of 15 feet on
each side with a gateway; the
remaining length being fenced
in with an aloe hedge & ditch.

The Board of Revenue in submitting the estimate for the sanction of Govt. suggest that the
proposed aloe hedge around the
compound is unsuited for the
work, as it [illegible]
is not of sufficient protection
against cattle & recommend
barbed wire fence instead. The
Board further comment on the
difference of rates for doors &
windows &c. between the printed
estimate & the one now submitted
for sanction & suggest that an
explanation be called for from
this dept. This will now be disposed of by G.O. No. 2274 W dated
19th August 1892 vide this note regarding the discrepancy of rates
in the printed estimate
& [illegible] estimate now submitted
for sanction.

The estimate has been considered & signed by the Collector & approved
in the Revenue Dept with the

2540/5

We remark that the suggestion
of the Revenue Board be considered in this dept.

First-class Taluk Office at Musiri

Estimate of Rs. 33,100 for constructing a — in the Trichinopoly district, sanctioned with remarks.

Proceedings of the Board of Revenue

(Land Revenue),

Dated 9. July 1892.

No. 4203 Mis.

2540/W

Mr. E. Gibson

18

READ the following letter from F. H. Welch Esq. Collector of Trichinopoly, dated 10. June 1892, No: 284/4 :-

With reference to Board's Proceedings No: 6205/26.9.90, I have the honor to forward an estimate amounting to Rs 33100 with site plan for constructing a First Class Taluk Cutcherry at Musiri and request that the Board will be pleased to obtain the sanction of Government at an early date.

2. The Collection of materials was put in hand last year and is being proceeded with. An allotment of Rs 6000 has been provided for

the

the work in Current year's Budget.

Resolution Dt 9th July 1892, Mis No 4203-Rev

The site plan and estimate for Constructing a 1st Class Taluk Cutcherry at Musiri at a Cost of Rs 33100 is submitted for the early sanction of Government.

2. The Board observes that the estimate includes a provision of Rs 2430, (for Record racks Rs 1224, Cook room Rs 396, Latrine Rs 550 and well Rs 260) which has not been provided for in the standard design for the taluk offices approved in G. O., 11 November 1891, No. 3023 W excluding this amount, the balance is Rs 30670 which is in excess of the estimate according to the standard design by Rs 1760. The excess is due Chiefly to increases in the rates for the several discriptions of wood work and for certain other items noted below:—

1. Teak-wood

	Rate as in the Standard estimate.			Rate as per estimate of Musiri Taluq Cutcherry			
	Rs	As	P	Rs	A	P	
1 Teak wood wrought and put up	3	8	0	4	0	0	per c. ft.
2 Teak panel & Venetian door &c	1	1	0	1	12	0	per. s. ft
3 Teak panel door &c	0	14	0	1	8	0	Do.
4 Teak strong battened door &c	1	1	0	1	8	0	Do.
5 Venetian windows with glazed shutters inside framed	1	13	0	1	14	0	Do.
6 Battened windows &c	1	6	0	1	12	0	Do.
7 Venetian windows with glazed top, frames &c	1	12	0	2	0	0	Do.
8 Flooring with 8" Sq. brick &c	7	3	0	12	0	0	per 100 S. ft.
9 Do. with asphalt	17	5	0	21	0	0	Do.
10 Cuddapah slabs for Cornice	24	8	0	26	8	0	Do.

Of these, only No: 10 has been explained. The executive Engineer says that the increase of Rs 2 under this item is provided to Cover the train Charge from Madras to Kulitalai station and Conveyance Charge from the latter to the work spot. If explanation for the remaining items is deemed necessary the Board suggests that it be called for in the P. W. Department.

3. The Board further observes that in the estimate, provision is made for fencing the greater portion of the Compound with aloes. As aloes harbour snakes and

are

are not a sufficient protection against Cattle it is suggested that a barbed wire fence may be provided instead.
