GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

From W. P. AUSTIN, Esq., C.S., Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 11th July 1892, No. 1134.

I have the honour to submit the annual report on the working of the Stationery Office for the official year 1891–92, with the usual statements from A to E.

2. The subjoined is an abstract of the results of the year under review compared with those of 1890–91 :—

	1890–91.	1891–92.
	RS.	RS.
Value of stock at the beginning of the year ..	4,51,428	4,40,706
Do. of receipts during the year	4,38,024	3,32,807
Total ..	8,89,452	7,73,513
Value of issues during the year	4,48,746	4,44,114
Balance at the end of the year	4,40,706	3,29,399

3. The receipts are detailed below :—

	1890–91.	1891–92.
	RS.	RS.
(1) Value of stores received from the Secretary of State for India	1,48,239	1,26,413
(2) Value of stores received from Messrs. Baker and Co., London	2,670	565
(3) Value of Europe articles purchased locally ..	1,482	661
(4) Value of stores obtained from other Presidencies	140	40
(5) Value of country articles purchased locally ..	2,49,619	1,74,034
(6) Value of articles obtained from the Gun Carriage Factory	499	1,571
(7) Value of articles obtained from other departments	4,264	4,925
(8) Value of articles returned by officers	17,072	7,754
(9) Value of receipts adjusted in books on account of errors, &c.	3,206	685
(10) Value of receipts adjusted on account of variation of rates	10,833	16,159
Total ..	4,38,024	3,32,807

4. *Item No.* (1)—*Stores from the Secretary of State for India.*—Rs. 41,528 and Rs. 46,570, being the value of stores due on the indents of 1889–90 and 1890–91, respectively, but received in the succeeding years, are included under this head. If they are deducted, the regular receipts for the year 1890–91 would be Rupees 1,06,711 and for 1891–92 Rs. 79,843. The decrease in 1891–92 is partly due to the reduction in the indent in consideration of the fall in the issue of stationery to public departments in the last few years and partly to the increase of the official rate of exchange from 1*s.* 5*d.* per rupee in 1890–91 to 1*s.* 6½*d.* in 1891–92.

	1890–91.	1891–92.
	RS.	RS.
Drawing and mathematical instruments	3,639	6,557
Stationery	42,931	73,286
Total ..	46,570	79,843

5. *Item No.* (2)—*Stores from Messrs. Baker and Co.*—Rs. 565 is the value of books and maps for Army schools indented on Messrs. Baker and Co., London, for the year 1890–91, but received at the beginning of 1891–92. Prior to 1891–92, it was usual to indent on Messrs. Baker and Co. for books and maps, as well as stationery articles required for Army schools, but under G.O., dated 11th September 1890, No. 5732, Military Department, indents are being sent for books and maps only to Messrs. Baker and Co., and stationery articles are included in the annual indent on the Secretary of State. The indent on Messrs. Baker and Co. for 1891–92 was complied with at the end of March last, and the receipts will, therefore, appear in the accounts of 1892–93.

6. *Items Nos.* (3) *and* (4)—*Europe Articles purchased locally.*—The following are the European articles purchased locally during the year, and the value in each case has not exceeded Rs 100, agreeably to G.O., dated 28th June 1883, No. 1344, Financial :—

		Rs.	A.	P.
(1)	3½ reams blotting paper	38	8	0
(2)	418 yards unbleached longcloth	51	9	0
(3)	170 gross steel pens	99	6	0
(4)	1 jar blue-black copying ink	1	9	0
(5)	2 rolls tracing cloth	54	0	0
(6)	1 T square, 54 inches	12	0	0
(7)	1 lb. violet ink, printing	2	2	0
(8)	2 quarts printing varnish	5	12	0
(9)	52 boxes prepared chalk	51	8	0
(10)	20 Roman Catholic Bibles	40	0	0
(11)	21 do. Prayer Books	17	10	2
(12)	48 Church Catechisms	2	12	0
(13)	7 Chambers' Etymological Dictionary	21	14	0
(14)	10 Forbes' Hindustani Manual	22	10	5
(15)	3 do. do. Dictionary	81	11	11
(16)	8 Philips' Atlas	5	0	0
(17)	19 wall maps (of different Continents purchased on two occasions)	153	6	0
(18)	6 compasses, watch pattern	39	8	0
	Total	700	14	4

7. Of the 3½ reams blotting paper, 1½ reams, valued Rs. 16–8–0, were purchased for the Engineer-in-Chief, East Coast Railway, who has paid the value, and the remaining 2 reams to meet certain urgent demands, when there was no stock on hand. The Superintendent, Madras Survey, was required by the Board to print the village and desam maps in future on cloth; 418 yards of unbleached longcloth were urgently required for this purpose. As this is not usually kept in stock, it had to be purchased. This article is, however, included in my indent on the Secretary of State for 1893–94. Under G.O., dated 10th March 1891, No. 178, Financial, the expenditure of quills having been reduced with a proportionate increase under steel pens, the latter ran out of stock, and 170 gross had to be purchased to meet the demands of 1891–92. Items 4, 5 and 6 were purchased for supply to Mr. Edward Cousins, C.E., on special duty under G.O., dated 6th November 1891, No. 734, Financial, as similar articles available in stock being of different sizes did not suit his purpose. Violet ink and printing varnish not usually kept in stock had to be purchased in the market to comply with the indent of the Commissioner of Coorg, sanctioned in G.O., dated 24th February 1891, No. 146, Financial. Bibles and Prayer Books were, as usual, purchased for the use of drummers and musicians of the Military Department. The non-receipt in time of the books, &c., indented for on Messrs. Baker and Co. necessitated the local purchase of Items 12 to 17 to comply with the requisitions of the regimental schools. Their cost, as well as that of the prepared chalk, the supply of which was also not received in time from the Director-General of Stores, were met out of the Military budget. Compasses, magnetic, were obtained from the Mathematical Instrument Office, Calcutta, and supplied to the District Staff Officers of the Military Department, owing to the non-receipt of the same in time from England.

8. *Item No.* (5)—*Country Articles purchased locally.*—Rs. 1,74,034 shown under this head includes value of blank books and envelopes, for which paper valued at Rs. 2,390 (Rs. 2,101 and Rs. 289, respectively) was issued from the stock of this

office. The cost of country articles purchased during the year is, therefore, Rupees 1,71,644 against Rs. 2,37,992 of the previous year. The decrease is chiefly due to the minimised provision made for the year according to the falling demands, and partly to the inability of the Bally Paper Mills Co., Calcutta, to comply within the official year with my demands for printing paper. Paper and blue-black ink, valued at Rs. 10,751, ordered for 1891–92, were delivered late in March and April last. It is also observed that the value of paper issued for blank books during this year was Rs. 2,390 against Rs. 11,627 in the previous year, and the decrease is due to effect having been given to G.O., dated 4th December 1890, No. 908, Financial, limiting the use of large size books and using printing instead of writing paper as heretofore. The prices of the books have, in consequence, been much reduced, as shown in the margin. The details of the purchases are as under :—

9. *Item No.* (6)—*Receipts from Gun Carriage Factory.*—Wooden articles, such as inkstands, rulers, paper-weights, &c., valued at Rs. 1,571, were obtained from the Gun Carriage Factory during the year against Rs. 499 in the previous year. Having experienced some practical difficulty, especially during times of war, in getting the wooden articles from time to time from the Gun Carriage Factory, arrangements had to be made with local contractors in 1890–91 for their supply, and to avoid this, provision was made for a stock of one year to remain always on hand, and hence the increase in 1891–92. To the Superintendent of the Penitentiary, Madras, who offered to supply these articles, a small trial order for Rs. 208 was given in 1891–92. This officer executed the order speedily and supplied at the same price as the Gun Carriage Factory articles quite as good. I therefore propose giving all future orders for wooden articles to this department.

10. *Item No.* (7)—*Articles obtained from other Departments.*—Of Rs. 4,925 shown under this head, Rs. 1,542 and Rs. 3,372 represent the value of drawing and mathematical instruments transferred to this office from the Public Works Stores and other offices of the Public Works Department under Government orders quoted in the margin; and the remaining 11 rupees is the value of tracing paper issued from this office to the photo-zincographic branch of the Revenue Survey Office to be ruled into sections and received back into store for supply to the Executive Engineer, Kistna Eastern Division.

Dated 22nd June 1889, No. 547, Public Department.
Dated 19th December 1890, No. 3379, Public Works.

11. *Item No.* (8)—*Articles returned by Officers.*—This is composed of the following details :—

	Rs.	A.	P.
(1) Articles returned as being surplus stock	3,777	9	10
(2) Articles returned owing to the abolition of certain corps ..	21	13	0
(3) Paper received by the Superintendent, Government Press, as loan on account of census work and returned	2,563	2	0
(4) Articles returned by officers to be exchanged for others ..	1,391	0	4
Total ..	7,753	9	2

12. The several officers who transmitted their dead stock are shown below. Of these, Rs. 2,132 (the highest value) represent the price of nearly 70 reams of water-marked paper transmitted to this office from the stock of the Stamp Office. This paper was formerly provided for bills of exchange, which has since been superseded by hundi paper received from England direct, and which, therefore, became unserviceable, and was returned to this office to be utilised for ordinary printing purposes under the Proceedings of the Board (Land Revenue), dated 22nd July 1891, No. 5164, Miscellaneous. Rs. 178–9–6 represent the value of 5 quires antiquarian paper supplied to Mr. Edward Cousins, C.E., on special duty, but returned immediately, as it did not suit his purpose. The Collector of Anantapur returned during the year 336 lb. of glue valued Rs. 131–4–0, and the Sub-Judge, Cocanada, 9 reams writing demy machine-made valued Rs. 174–15–0, as being their dead stock. The Collector of Tanjore also returned articles valued Rs. 637 as shown in the margin. The other items are below Rs. 100 and call for no special notice. From this it is obvious that some officers provide unnecessarily for their stock and allow articles to remain as dead stock and deteriorate and then retransmit to this office, notwithstanding the stringent rules now in force as to the observance of economy in the provision and expenditure of stationery.

13. Articles valued to the extent of Rs. 1,391–0–4 were returned to this office to be exchanged for others, and the subjoined list gives the particulars of this item, compared with the value of the articles issued in lieu thereof :—

14. The Superintendent, Government Press, received as loan from this office paper valued Rs. 970 during 1891–92 to meet the printing work of the census establishment. This paper, together with the balance due from him for 1890–91 costing Rs. 1,593, was returned to this office. This explains the item (3) in paragraph 11.

15. Consignments sent to the officers mentioned in the margin in January and March 1891 were returned to this office, as the detachments were disbanded. Articles valued Rs. 21–13–0 were, therefore, credited to accounts.

16. *Item No.* (9)—*Adjustments in Books on account of Errors, &c.*—Of Rs. 685 shown under this head, Rs. 178 represent the value of articles less acknowledged by indenting officers and errors in books adjusted under receipts during the year. The value of excess quantities found in the annual stock-taking, viz., Rs. 318, and adjusted under G.O., dated 14th September 1891, No. 886, Financial, is also shown under this head. Certain officers having indented for spare instruments to complete the component parts of their drawing and mathematical instrument boxes, this was complied with by taking out those instruments from the boxes in store, and in such cases the spare instruments valued Rs. 56 were shown under receipts to correspond with the issues. Each of the marginally-noted articles being shown by mistake in two different heads in the ledger, they were transferred to the correct heading, and hence the adjustment of Rs. 133 counterbalanced by corresponding adjustments under issues. Thus the transaction of Rs. 685 under receipts is only nominal.

17. *Item No.* (10)—*Adjustments on account of Variation of Rates.*—In the year under review the difference arising from fluctuations of prices adjusted under receipts amounts to Rs. 16,159 against Rs. 10,833 in the previous year. The increase is chiefly due to the increase of exchange in the case of Europe articles and to the use of printing instead of writing paper for blank books, as already observed, which makes their prices very much lower than the previous year's. The details of the variations under the several classes of articles are shown below, but this figure is also nominal :—

18. *Substitution of Country for Europe Articles.*—The statement marked F appended shows the different articles of Indian manufacture obtained locally during the year in substitution of those formerly obtained from England, the net saving effected thereby being estimated at Rs. 3,458 against Rs. 14,845 for 1890–91. The quantities of the several articles obtained during the year are less than those of the previous year. A loss of 12,101 rupees is observed under printing paper alone in this year against Rs. 3,651 of 1890–91, although the quantity in the former case is less by 12,562 reams than in the latter, while the Indian and English rates of articles remained unchanged in the two years. The loss is therefore chiefly accountable to the increased rate of exchange in 1891–92, at which the estimated English prices of the articles have been converted into Indian currency for comparison with the actual charge incurred in India. This shows the English price cheaper than in the previous year's, and hence the high rate of the country articles when compared with the English values.

19. *Issues.*—In the year under review, 598 annual and 403 supplemental indents, or in all 1,001 indents, were received against 992 in the previous year. The former includes 63 indents for special stores. Of the above 598 annual indents, 90 appertained to 1891–92 and 508 to 1892–93. Again, issues were also made on other indents of the kind specified in the margin. The subjoined statement details the several indents of all kinds received during the year:—

20. The value of the total issues amounted to Rs. 4,44,114 against Rs. 4,48,746 of the previous year as shown in the margin. A detailed statement of the value of stationery issued to several individual officers compared with those of the two previous years has been furnished to Government separately with reference to G.O., dated 4th August 1890, No. 526, Financial. The statement in Form E, appended to this review, is prepared as required by Government in its orders, dated 23rd November 1888 and 21st January 1889, Nos. 875 and 27 (Financial), respectively. The following is a comparative table showing the issues to the several departments:—

21. The issues under Imperial were to the departments noted below:—

	1890–91.	1891–92.
	RS.	RS.
(1) Postal Department	6,243	2,163
(2) Telegraph Department	824	1,311

(5) Regiments of other Presidencies in Upper Burma.	64	21
(6) Secretary, Board of Examiners	..	46
(7) Officer in charge, Mathematical Instrument Office, Calcutta	..	6,370
Total ..	11,661	12,152

22. In the Postal Department, owing to the amalgamation of the Mysore Post offices (about 400 in number), a large quantity of various other forms had to be printed in 1890–91, and consequently there was a large supply of paper required for this purpose in that year. This also was the case for the purposes of census operations, as a very large number of the enumeration forms, &c., had to be printed in that year; hence the decrease under the above heads. This office does not generally scrutinize the indents of these officers, as the charges come under Imperial, and their indents are checked and sanctioned by the controlling authorities at Calcutta.

23. Rs. 6,870 under Item No. 7, paragraph 21, represent the value of drawing and mathematical instruments issued on requisition from the Mathematical Instrument Office, Calcutta, out of a surplus stock of this office made up by the receipts from several officers—*vide* paragraph 10. Of this amount, a sum of Rs. 3,172–6–0 has been adjusted in the books to the credit of "Stationery and Printing."

24. The variations in the issues to the departments entered under Provincial as compared with those of the year 1890–91 will now be explained.

25. *Land Revenue.*—The charges under this head amounted to Rs. 1,39,832, as now detailed, showing a net decrease of Rs. 21,629 :—

	1890–91.	1891–92.

26. Rs. 15,797 under Item No. 1 includes Rs. 7,154, being the value of the balance due on the indents of 1891–92. Owing to an increase in the establishment of the Party No. II, a supplemental indent valued Rs. 203 was complied with in the year under Board's Proceedings, dated 5th and 23rd September 1891, Mis. Nos. 4871 and 5303, respectively.

27. *Collectorates.*—The cost of supplies to Collectors is Rs. 1,04,073 against Rs. 1,22,857 in the previous year, showing a reduction of Rs. 18,784. In the year under review two supplemental indents from the Board * were complied with for paper valued at Rs. 800 for printing in the Government Press vernacular irrigation and income-tax forms. This was debited to the districts concerned. Supplemental indents received from Collectors exceeding Rs. 100 are shown in the margin. The extra demands owing to the operations for famine relief amounted to Rs. 1,789 (Rs. 616 in Bellary, Rs. 136 in Chingleput, and Rs. 1,037 in Kurnool). The Collector of Malabar submitted seven supplemental indents during the year; one for Rs. 213 was for paper required for forms in connection with the Marriage Law Commission, three indents for Rs. 2,182 were for paper required for printing escheat register forms (*vide* G.O., dated 6th April 1886, No. 264, Revenue Department), and one indent for

28. *Salt*—(*Increase, Rs.* 10,282).—The issues to the Salt Department in 1891–92 amounted to Rs. 21,782, which is nearly twice as much as in the previous year, notwithstanding that the annual indent for 1892–93 of the Commissioner, Separate Revenue, was not received within the official year 1891–92. Of this amount, Rs. 15,793 represent the cost of stationery supplied to the Board, which includes Rs. 1,001, being the value of two supplemental indents; but the whole supply appertains to the year 1891–92. The increase is also partly due to the formation of the new circles and sub-divisions in the department.

29. *Forest*—(*Increase, Rs.* 2,126).—The increase is nearly a fourth of the supply of the previous year, and is chiefly due to a supplemental indent for mathematical instruments valued at Rs. 1,358 from the Conservator, Northern Circle, and to one from the Examiner for paper valued at Rs. 699 for printing forest permit forms, and, lastly, to the supply, valued at Rs. 428, to the newly-constituted Central Circle.

30. *Registration.*—In this department there is a decrease of nearly Rs. 5,000, and this is chiefly attributable to the introduction of a cheaper description of paper in the past year.

31. *General Administration.*—Under this head, the increase is Rs. 4,465, and is due to the increased demand of the Commissioner, Land Revenue, who obtained stationery valued Rs. 7,840 for 1892–93 against Rs. 4,337 for 1891–92. Of the latter, Rs. 3,288 represent the value of the balances and supplemental indents supplied during 1891–92. It may be noticed here that the annual indents for 1891–92 of the departments noted in the margin were received in this instead of in the previous year, Nos. (1), (3), (4) and (5) and the Telugu Translator to Government failed also to submit their indents of 1892–93 in this year.

(1) Secretariat, Revenue Department.
(2) Do. Military do.
(3) Accountant-General.
(4) Paper Currency Department.
(5) Malayalam Translator to Government
(6) Canarese do. do.

32. *Law and Justice.*—A decrease of Rs. 5,308 appears under this item, and it is chiefly due to the reduced demands in this year in the High Court, Appellate Side, and the District Courts in general. The savings would have been still greater had it not been for the additional District Munsifs' Courts newly organized in the Presidency during the year which entailed a charge of Rs. 1,141 under stationery as shown in the margin. Of the remaining supplemental indents, two were from the Court of Small Causes, Madras, valued at Rs. 252; two from the District Court, South Arcot, valued Rs. 118; one from the District Court, Madura, valued Rs. 198; one from the District Court, Tinnevelly, for Rs. 136, and four from the District Court of Vizagapatam for Rs. 216. Paper valued at Rs. 1,983 was also supplied to the Press

33. *Law and Justice—Jails.*—The value of issues to this department was Rs. 1,326 against Rs. 1,964 in the previous year. The accounts of this office for the year 1890–91 were prepared by consolidating the quantities received by the several District Jails, the aggregate value only being shown. To which particular offices the savings are to be attributed cannot, therefore, be easily stated. The value of issues to the several jails did not exceed Rs. 50, except in the case of those noted below:—

	RS.

34. *Police.*—The charges against this department in 1891–92 shows an increase of Rs. 2,375 over those of the previous year. The issues shown for 1891–92 included the value of those appertaining to that year amounting to Rs. 2,932. If, however, the necessary deductions are made in the present figures of the values of the supplies of the years, which should not, properly speaking, have been included in them, the result will be Rs. 15,900 for 1891–92 and Rs. 13,942 for 1892–93, thus showing a decrease of Rs. 958. The supply to the Police Department is made to the Inspector-General upon a consolidated indent, and I am, therefore, unable to explain any differences in the subordinate departments.

35. *Education.*—The value of issues to the Education Department is more than twice as much as that of the previous year. Rs. 4,770 shown against this department includes Rs. 1,754 appertaining to 1891–92, so that the actual issues for 1892–93 should be Rs. 3,016 against Rs. 3,485 of the previous year. The details of the issues during 1891–92 are shown below:—

	RS.

(2) Commissioner for the Uncovenanted Civil Service Examinations.	671
(3) Registrar of Books	48

36. *Medical.*—The increase in this department in the year under review is Rs. 429. This is due to the supplemental indents received from the officers noted in the margin. The increase of establishment in the office of the Sanitary Engineer to Government is stated to have necessitated the supplemental indents.

37. *Scientific and other minor Departments.*—Here there is an increase of Rs. 975. The officers classed under this head are shown in the margin. Of these, the Meteorological Reporter obtained, on three supplemental indents, paper valued at Rs. 124 on account of forms and books newly introduced in connection with the rainfall, and the Government Botanist and Director of Gardens on two indents valued at Rs. 212. It may be mentioned here that all indents complied with during the year were priced separately; the advantage of this will be explained in the concluding part of this report. The total quantities entered in the ledger were, as usual, independently priced. In so doing there was a difference of Rs. 506, and it is shown under this head.

(1) Government Astronomer.
(2) Meteorological Reporter to the Government of Madras.
(3) Archæological Surveyor to the Government of Madras.
(4) Epigraphist to the Government of Madras.
(5) Government Botanist and Director of Government Gardens and Park.

38. *Stationery and Printing.*—The supply to the Government Press in this year exceeds that of the previous year by Rs. 2,856. If, however, Rs. 1,851 which appertain to the year 1891–92 are deducted, the issues will be Rs. 31,208 for the year 1891–92, and Rs. 31,705 for 1892–93, showing an increase of Rs. 497.

39. *Civil Works.*—Under this department the supply has increased by Rs. 7,151. The Examiner of Public Works Accounts forwarded his annual indents both for 1891–92 and 1892–93 in the year under review, and the total value of issues to his department alone amounted to Rs. 11,666, of which Rs. 7,501 appertain to 1891–92 and Rs. 4,165 to 1892–93. This explains the large increase noticed above. 138 supplemental indents valued at Rs. 7,096 were received from this department during the year; 69 of them were for drawing and mathematical instruments valued at Rs. 3,180, 9 for cyclostyle paper, &c., valued at Rs. 249, and the remaining 60 for stationery articles valued Rs. 3,667. The details are given in Statement G appended to this report. The sub-divisions at Anantapur, Kalastri and Salem were newly formed during the year, and entailed a cost of Rs. 1,026, Rs. 838 and Rs. 462, respectively. The operations of the famine relief works in the divisions of Kurnool, Anantapur, Chingleput and Bellary increased the demands in the year by Rs. 284, Rupees 101, Rs. 119 and Rs. 147, respectively. The Consulting Engineer for Railways received stationery valued at Rs. 257 on nine supplemental indents during the year, and the necessity for the same has been accounted for by the increase of establishment consequent upon the extension of railways. Mr. Edward Cousins, C.E., on special duty, received a supply from this office on nine indents valued at Rs. 214. The details of the issues are shown below:—

40. *Army and Military Department.*—There was a saving of Rs. 2,006 under this head in the year. There was a smaller supply to almost all branches of

this department, except to the account offices, the garrison instruction and the regimental schools, where the issues in 1891–92 were as in the margin, showing an increase of Rs. 2,331. Paper valued at Rs. 116 was supplied on two supplemental indents to the Controller of Military Accounts, Accounts Branch, for printing cheque forms. Four supplemental indents from the Pay Examiner for Rs. 311 were complied with on the ground that the establishment and work increased during the year. The Superintendent of Family Payments and Pensions obtained paper valued at Rs. 195 on a supplemental indent for printing pension tickets. The Circle Paymaster, Rangoon, submitted his annual indents for 1891–92 and 1892–93 in the past year, which gives an increase of Rs. 271. These account for the increase in the account offices. In the revised allotment sanctioned in G.O., dated 13th November 1889, No. 7894, Military, for the classes of non-commissioned officers and men for instruction in field-sketching and reconnaissance, drawing paper, cartridge, which was not supplied in previous years, is included. The value of this paper alone supplied to this department during the year amounted to Rs. 1,822. This accounts for the increase in the garrison instruction. Almost all indents of the Army schools for the year 1891–92 were received in this office either too late in the year 1890–91 or at the beginning of 1891–92, and they, as well as those for 1892–93, were complied with in the year under review; thus, of Rs. 3,420 under this head, Rs. 1,834, which includes Rs 378, being the value of supplemental indents from the officers noted in the margin, appertained to the year 1891–92, and Rs. 1,586 to 1892–93. I may also mention here that there were extra demands to the extent of Rs. 308 in this year owing to the Manipur expedition and to the Chin-Lushai operations. The Inspector-General of Ordnance received paper valued at Rs. 376 on three supplemental indents for printing certain forms recently introduced in his department, and the Superintendent, Gun Carriage Factory, received drawing and mathematical instruments valued at Rs. 107 for some extra establishment entertained by him. The Superintendent, Government Press, was supplied with paper valued at Rs. 524 during the year for printing forms formerly supplied by the Adjutant-General to Divisional officers, Barrack Department and Corps (*vide* G.O., dated 2nd July 1884, No. 3159, Military), and this is charged in the accounts against the Military Department. The details of the issues to the Military Department are shown below :—

41. The total charges under Provincial are thus Rs. 3,78,939 against Rupees 3,80,288 of the previous year, showing a net saving of Rs. 1,349. Although the saving effected in this year is apparently small, yet, considering the unavoidable extra demands upon this department during the year, owing to the operations of the famine relief works, opening of additional Munsifs' Courts in the Judicial Department, formation of new circles and sub-divisions in the Salt, the Forest and the Public Works Departments, the Manipur expedition and the Chin-Lushai operations in the Military Department, the increase of establishments in some, and other circumstances explained in the foregoing paragraphs ; taking into account that this department has been required by G.Os., dated 11th and 22nd June 1889, No. 3566, Revenue Department, and No. 547, Public Department, to supply cyclostyle and trypograph apparatus, with their appurtenances to the Revenue and other departments, and drawing and mathematical instruments to the Public Works and other departments, the demands under which have been growing year after year, and considering also the concentrated attempts in the way of reducing and minimising expenditure in the past few years, the saving in this year, although small, does not suggest indifference on the part of indenting officers generally or laxity in the check and scrutiny of indents on the part of this office during the year under report.

42. *Sales.*—The issues under sales have been greater in this year than in the past, and the increase (Rs. 1,552) is chiefly due to the increased demands from Collectors for the purpose of Special Fund Establishments. The demands also from the Court of Wards for the Etaiyápuram Estate in the Tinnevelly district have increased the sales by Rs. 1,215. The details of the sales effected in this year are as follow :—

43. There were other issues during the year not properly debitable either to Imperial or Provincial charges. Issues of this kind amounted to Rs. 19,695 against Rs. 25,021 in the previous year. Of this, Rs. 2,629, as per details in the margin, represent value of paper issued for blank books, covers, printed forms, &c., but received again into the stock and shown again under regular issues as blank books, covers, &c. Under G.O., dated 13th September 1890, No. 2452-W., Public Works, this office being required to keep in stock only drawing and mathematical instruments, exclusive of levelling and survey instruments, the latter, valued at Rs. 9,767, were transferred to the stock of the General Superintendent, Public Works Stores, and this item is also shown under this head. A nominal value of Rs. 5,718 had to be adjusted under Issues, owing to the fluctuations in the prices of articles; and the decrease under this, as compared with the previous, year, viz., Rs. 8,063,

44. *Supplemental Indents.*—Form G appended to this report gives the details of the several indents complied with during the year, each being admitted upon explanation as to its necessity. Out of the 403 indents received in all, 28 appertain to the cyclostyle paper, machine, &c., and 119 to drawing and mathematical instruments which were indented for on several occasions during the year according to the need for them. If these are excluded, the number of indents for stationery alone would be 256 against 247 of the previous year. The total value of supplemental indents amounted to Rs. 37,167, and of this Rs. 587 represent the value of cyclostyles, &c., and Rs. 7,479 that of drawing and mathematical instruments, the value of stationery alone being Rs. 29,101. The extra demands of the departments noted in the margin are noticeable, and they are explained in the foregoing paragraphs relating to issues. These supplemental indents can still be further curtailed and reduced almost to a minimum if the indenting officers would only use more discretion in scrutinizing their annual indents and economizing the expenditure by enjoining on their establishments a stricter attention to rules. It should also be noticed here that the drawing and mathematical instruments are of a more permanent nature than the stationery articles, and any supplemental indent for these, as well as for cyclostyles, &c., is altogether unwarranted, especially as they have only to be indented for once for all, and are not renewed until fairly worn out or damaged. The number of supplemental indents exclusively for drawing and mathematical instruments from the offices mentioned in the margin is noticeable, and of these, those from the General Superintendent, Public Works Workshops, who submitted no less than 14 extra indents during the year, are striking. The details of the supplemental indents complied with during the year under the several heads of departments were as follows :—

45. The value of stock at the close of the year was Rs. 3,29,399 against Rs. 4,40,706 of the previous year, but, excluding the stock of drawing and mathematical instruments, the figures would be Rs. 3,20,341 and Rs. 4,16,125, respectively. The decrease in the balance is chiefly due to the provision of limited stock necessary to meet the demands of the year, avoiding, as far as possible, any surplus quantity which may become dead stock, and is partly due also to the non-receipt within the official year of stock valued at Rs. 10,751 ordered for 1891–92 from the Bally Paper Mills Company and Banerjee, Calcutta, as mentioned in paragraph 8, *supra*.

46. *Rubber Stamps.*—The details relating to rubber stamps, ink, pads, &c., supplied to the several departments during the year under G.O., dated 15th March 1890, No. 218, Financial, are embodied in the statement marked H accompanying this report. Messrs. Addison and Company continued as contractors for this supply.

47. There were in all 339 indents received from all departments. 469 stamps and 2,580 ounces of ink with pads were called for; all, costing Rs. 4,877, were supplied to the departments specified in the subjoined comparative table. The expenditure under this head, however, was slightly below that (Rs. 5,064) of the previous year :—

48. On account of the departments under the five heads noted below, the charges amounted to Rs. 4,177, which is 89·5 per cent. of the whole expenditure :—

49. *Land Revenue.*—49 indents were received from departments under this head—one was from the Commissioner of Revenue Settlement, Land Records and Agriculture, for 10 ounces of ink valued at Rs. 3-2-0, and two from the Inam Commissioner for 3 stamps and 12 ounces of ink for Rs. 66-6-6, the remaining 46 were received from Collectors for 129 stamps and 744 ounces of ink with pads, all costing Rs. 1,249-11-11. The districts that made such frequent applications or received a proportionately greater share of the above articles are noted below :—

50. *General Administration.*—On 25 indents received, 31 stamps and 173 ounces of ink were supplied at a cost of Rs. 239. The Commissioner of Land Revenue received a supply on six indents of 6 stamps and 70 ounces of ink for Rs. 55, and the Accountant-General 9 stamps and 33 ounces of ink on four indents for Rs. 77, Government Secretariat in the Public Department 4 stamps and 28 ounces of ink on five indents for Rs. 15, and in the Revenue Department 1 stamp and 8 ounces of ink on three indents. The Commissioner of Coorg was supplied with 8 stamps and 14 ounces of ink on two indents for Rs. 54. Paper Currency Department sent in three indents and received a supply of 2 stamps and 18 ounces of ink for Rs. 24.

51. *Law and Justice (A).*—Although the total charge against this head amounted to Rs. 505, yet the cost for each Court has not exceeded Rs. 50, except in the District Courts of Godávari, Kistna and Nellore, the values of stamps supplied to these being Rs. 74, Rs. 54 and Rs. 56, respectively. In all, 52 indents for 45 stamps and 488 ounces of ink were complied with in the year.

52. *Civil Works.*—The highest charge incurred in this department was for the Examiner of Public Works Accounts, from whom eight indents were received for 6 stamps and 27 ounces of ink valued at Rs. 143. Executive Engineer, Tinnevelly Division, indented for 6 stamps and 2 ounces of ink costing Rs. 54; the Executive Engineer, Bellary Division, and the Superintendent of Works, No. I, Periyar Project, were supplied with 5 stamps and 24 ounces of ink and 6 stamps and 18 ounces of ink, respectively, the cost being Rs. 47 in each case. The charges against other officers are trifling. Under this head there were altogether 53 indents for 43 stamps and 262 ounces of ink.

53. *Army and Military.*—The Controller of Military Accounts sent three applications during the year for 24 stamps valued at Rs. 501 for the use of the Pay Branch of his Department. The Assistant Commissary-General, Rangoon, indented for 6 stamps and 6 ounces of ink valued at Rs. 102, and the Chief Commissariat Officer, Mandalay, for 5 stamps and 56 ounces of ink at Rs. 120. Of others, the officers mentioned below indented for stamps and ink valued at more than Rs. 40, and in the remaining cases the charges are trifling and call for no special notice :—

54. It is observed from what is explained above that, as in the case of drawing instruments, the officers have been sending several indents during the year for rubber stamps and ink. There is no reason why they should not foresee the full requirements for the year and send in a single indent for them through their respective controlling heads of departments in the same manner as their annual indents for stationery are submitted. This course, if adopted, will, I submit, not only greatly facilitate the checking and scrutinising of indents by this office, but will also result in a saving.

55. The subjoined is an abstract of the cash receipts and charges for the year 1891–92 compared with those of 1890–91 :—

57. *Item* 6.—The sale-proceeds of waste paper in this year were Rs. 808 against Rs. 1,521 of the previous year, and the decrease is chiefly due to the reduction in the contract rate tendered for in 1891–92, under the arrangement made to remove the wastes from the various offices of the Presidency town, instead of from this office alone, as in previous years (*vide* G.O., dated 10th January 1891, No. 32, Financial).

58. *Item* 9.—The increase under railway and postage charges recovered from officers to whom articles were sold, is due to the increase of sale indents from the East Coast Railway during 1891–92, the number of indents complied with during the year being 79 against 39 of the previous year.

59. *Disbursements—Item 1.*—The difference between the amount entered in the above table, namely, Rs. 1,78,959, and the value of stores shown as purchased locally under Items 3, 4, 5 and 6 in paragraph 3, namely, Rs. 1,76,306 (Rs. 661 + Rs. 40 + Rs. 1,571) is explained below :—

Difference ..		1,78,959

60. *Item* 4.—The decrease in the freight charges paid in India on stores received from the Secretary of State is due to the reduced supply from England as already explained in paragraph 4.

61. *Item* 5.—A larger number of consignments was despatched in this than in the last year, and hence the increase under railway charges, &c.

62. *Items* 6 *and* 7.—In 1890–91, the stores of this office were kept in the old Town Police Court when the office buildings were under repair, and thus additional charges were incurred in that year in removing stores to and fro, and the occupation of the Police Court buildings increased the assessment taxes to the Municipality. This, as well as the reduction in the contract rates in the purchase of packing cases in 1891–92, accounts for the decreases under miscellaneous charges and rates and taxes in this year. Other items call for no remarks.

63. *Service Books.*—The service registers of the employés in the Stationery Office have been duly written up with reference to G.O., dated 22nd February 1886, No. 396, Public Department.

64. *Consumption.*—The usual statements showing the consumption of articles of stationery in the several departments noted in the margin during the year 1890–91 compared with that of the preceding year are annexed. These show the actual quantity consumed under each class of stationery. The figures were taken from the indents of officers for 1892–93. The several descriptions of paper consumed are grouped as writing, printing, and country and cartridge papers. Europe and country red sealing-wax are shown under one head; white and red tapes, both Europe and country, under one; country and Europe twines under one; and the rest of the articles, namely, black-ink powder, fuchsine, and wax-cloth are shown separately. Statement 11 is an abstract of those from 1 to 10.

68. *Printed Forms.*—In pursuance of the orders of Government noted in the margin on the subject of economy in the supply of printed forms from the Government Press through this department, indents were called for, as a preliminary measure, from six Tamil districts, viz., Chingleput, South Arcot, Tanjore, Trichinopoly, Tinnevelly and Madura, for the forms required by them for use in 1892-93. Except the Collector of South Arcot, who it would appear had a sufficient stock on hand, the others sent in their indents in November, December and January last, and subsequently supplemental indents. The number of several descriptions of forms included in the indents was 1,882 in all as shown in the margin. Of these, 1,555 forms have been checked and scrutinized up to date and made over to the Superintendent, Government Press, to be printed and supplied direct to the respective Collectors. The forms of other districts will be called for and similarly attended to as soon as the remaining forms on hand are completed. At this stage, I am unable to show any savings in this direction since the forms have only commenced to be supplied in the current year. I may, however, state that in checking the indents, all possible care is being taken to scrutinize them with reference to their average annual consumption and the quality and quantity of paper which may be best adopted, with a view to secure uniformity and economy. I may also mention that this work involves much difficulty and labour, one clerk from the establishment being completely engaged under the immediate supervision of the Storekeeper, who visited the several districts. I fear that this difficulty will increase when the forms from all other districts are taken up, and that it will then become impracticable, without strengthening the present establishment, to do this work efficiently and speedily so that all forms may be printed and supplied to the several officers in time. This all has, it must be borne in mind, to be done without allowing the ordinary routine work of the office, which has lately much increased, to fall into arrears. I shall address Government separately on this subject.

G.O., dated 4th Dec. 1890, No. 908 F.
,, ,, 28th July 1891, ,, 653 F.

69. In the year under review, stationery articles supplied to each officer have been priced as will be seen from Form E. This enables me to review the actual state of expenditure in the several offices, and to see which of the offices uses a more expensive article than the others, and to guard against the undue demands of any particular officer. In the previous years, the supplies to the several departments were collectively priced, the total quantities supplied to all Collectors were taken together and

priced, and this was also done in the case of District Courts and other departments under their major heads. The present method of keeping accounts facilitates the comparison of issues under the several minor departments as well. This will enable me to check any increase of expenditure in every department.

70. In conclusion, I may state that in the year under review, as in previous years, every endeavour was made in the way of providing stores in a limited quantity, just enough to meet the necessary demands from public departments, and no pains were spared in checking and scrutinizing the indents from officers and in complying with them with the least possible delay, due attention being paid to the instructions contained in G.O., dated 4th December 1890, No. 908, Financial Department.

ORDER—dated 24th August 1892, No. 859, Financial.

The Superintendent of Stationery submits the annual report of the administration of the department in 1891–92.

2. The value of the receipts fell from 4·38 to 3·32 lakhs. The principal difference was under the items "Value of country articles purchased locally" and "Value of stores received from the Secretary of State for India."

In the case of the former the decrease amounted to ·76 or ·66, according as the nominal entries on account of paper issued from the stores for binding into blank books and for making envelopes, and recredited as stock on return from the contractor, are included or excluded, and the decline is chiefly to be ascribed to the failure of the Bally Mills Company to comply with indents within the year.

In the case of the latter item the decrease amounted to ·22, the diminished supply of stationery and a change in the official rate of exchange together accounting for the saving.

3. The value of the issues to public offices, after deducting the cost of mathematical and drawing instruments, stood, so far as they were Provincial, well below that in 1890–91, *i.e.*, 359·4 against 370·5 lakhs.

4. The new system for distributing forms had been introduced before the end of the year under review, but, as the supply of the forms did not begin until April 1892, no savings on that account can as yet be shown.

5. The number of supplementary indents rose to 403. The Government directs the Superintendent to refuse in future to comply on his own responsibility and at his discretion with any supplementary indents on account of rubber stamps, cyclostyles, or drawing and mathematical instruments for Madras civil offices. The exercise of ordinary care will almost invariably obviate the necessity for such indents. The Superintendent was given ample authority in paragraph 5 of G.O., No. 789, 22nd August 1891, to decline compliance with demands which could have been foreseen, and it is not apparent why he should not have used those powers in the case, at any rate, of some of the indents for cyclostyles. It is obvious that there can rarely, if ever, be urgent necessity for obtaining such articles during the course of an official year.

6. While the Government agrees with the Superintendent in considering that indifference on the part of indenting officers in general is by no means indicated in the report and statistics under review, the statements given in, or appended to, the Superintendent's letter show that there is still in some quarters laxity of management, extravagance and neglect on the part of heads of offices to endeavour to curtail needless consumption of stationery. The attention of the Board of Revenue and all heads of departments will therefore be once more expressly invited to the subject.

7. A code of rules which is now issuing will, it is hoped, assist officers in introducing uniformity of system.

8. Credit continues to be due to Mr. Austin and his subordinates for efficient and economical administration of the department.
