READ—the following paper:—

From Brigadier-General E. H. EYRE, Quartermaster-General, Madras Army, to the Secretary to Government, Public Works Department, dated Ootacamund, 8th September 1892, No. 1820 M.W.

I am desired by His Excellency the Commander-in-Chief to forward, for submission to Government, the schedules of Military Works requirements of stations in this Presidency which continue to remain under the control of the Public Works Department in connection with the Imperial Military Works budget estimate of the ensuing financial year. The schedules of requirements at all other stations in this Presidency which have been placed in charge of the Military Works Department have been forwarded to the Chief Engineer, Military Works, for transmission to the Director-General of Military Works.

2. The works have been classified in the usual manner. Those enumerated in list D should be excluded from the class C list printed in the schedule circulated with the final issue of the current year's budget estimate. No additional works have been brought forward for inclusion in the class C list.

3. The two items entered in the class A list are those incomplete works for which it is understood funds will have to be provided in the budget estimate of 1893–94 to admit of their completion in that year. In accordance with the instructions contained in G.O., No. 1175 M., Local and Municipal, of 6th July 1892, a sum of Rs. 20,061 has been included in the class B list, that sum being the amount of contribution towards the initial cost of the water-supply scheme, Trichinopoly. Three other items have been included in the latter list, for all of which His Excellency hopes it will be found possible to secure allotments during the ensuing financial year, as their early execution is considered very desirable.
