PROCEEDINGS OF THE MADRAS GOVERNMENT

READ the following paper :—

From the Presidency Port office, of 16th August 1892,
No. 1402
2899.

2. On my arrival at Negapatam, I found, on inspecting the lighthouse, that the Public Works Department had taken no steps to improve the ventilation of the lamp room, although the funds required to carry out the alterations had been placed at the disposal of the Department as far back as 17th March last. The Superintending Engineer has been communicated with on the subject, and his attention drawn to other defects of the lighthouse buildings which I noticed, as well as to the state of the jetty wall which is much in need of repairs.

Order, of 26 August 1892, No. 315

2. The attention of Public Works Department will be

be invited to the first portion of para 2.

No. 1. N.G. P.

Dated 9 July 1892

From

The General Superintendent
P.W. Workshops.

To

The Executive Engineer
Negapatam Division

Sir

I have the honor to acknowledge the receipt
of your letter No. 83 M. 928 June 1892 and its en-
-sures, and to inform you that I do not expect to
put the work in hand for three months, as there is
at present more work than the present supervision
can cope with.

2. Please let me know if this will suit you
and if not the plans and estimates will be returned
to you.

To

The General Superintendent
P.W. Workshops

Sir

In reply to your No. 1 N.G. P. dated 9 inst.,
I have the honor to inform you that the designs
seem to have been made by you and so. I have
no other alternative than to wait your convenience

in supplying the ventilators &c - indented for,
but I hope I may request you will be so good
as to inform me as to when I may expect to
receive them with a view to make other arrange-
ments for completing the work on their receipt.

I have &c.

General Supt. P.W. Workshops

To

The Suptg. Engineer's Office

Sir

With reference to your Endorsement No.
35/P.W.S. 429-8-92, I have the honor to forward
herewith copies of correspondence noted in the
margin from which you will observe that I have
distinctly informed the Executive Engineer Regapatam
Division that I do not expect to put the work in
hand for three months. In his reply has agreed
to the arrangement but I did not answer the latter
part of his letter as with the present staff of super-
-vision it is utterly impracticable to fix any date for
completing a job. It was however my idea to
con- - - - - with the Executive Engineer in re-
- - - - - to date of completion directly I am able to
fix a nearer date.

I have &c.

The Supt: Engineer

I will see that
early steps are taken
to carry out the work
in question. If it
cannot be done in
the workshops at an
early date, ^{other} arrange-
-ments should at
once be made for its
execution.

2. The grant made
for the work should
not be allowed to
lapse.
