OFFICE OF THE SUPERINTENDING ENGINEER,
6TH CIRCLE.

Trichinopoly 27 September 1890
29/-

No. *127978*

2749

From *Lt Col: Schmidt RE*
The Superintending Engineer,

6th Circle.

To

The *Chief Engineer*
S.P.W.

Sir,

ENCLOSURES.

With reference to your reminder dated 24th instant to G.O. no 1994W of the 22nd July /90, communicating for attention the Examiner's note on the further explanation of the Executive Engineer Department Division, to the remarks in the summary of the inspection, I have the honor to state that I did not consider that the G.O. required any further report or that it contained any requisition, but on the contrary I concluded that it was finally disposed of the

the several points.

2. The only point, on which the Executive Engineer's explanation was not definite, was about guard books not being carried about in Camp - Vide Item 17 in Summary and para 3 of Examiner's note recorded in the G.D.; but as the Examiner's note was communicated for attention, it was concluded that his remark on this point was only intended to be attended to. The Executive Engineer has been strictly ordered to paste all Estimates and Deviation Statements into Guard books as soon as they are sanctioned as required in the Examiner's Circular No 35 of 1889, and not to keep them in bundles.

3. There is no other item in the Examiner's note that requires

any report.

2749

I have the honor to be
Sir

Your most obedient servant

Albion D. Collier

Superintending Engineer
of the Circle
