Civil Works.

READ—the following paper:—

From the Superintending Engineer, VI Circle, to the President, District Board,  
Tanjore, dated 29th September 1890, No. 1296 T.J.

With reference to your letter No. 1542 of the 23rd instant regarding the grant required for raising road No. 51 along the right bank of the Harichandranadi river, in the Negapatam division, I have the honor to inform you that the sum of Rs. 1,770 shown in the statement printed in G.O., No. 2075 W. of the 31st July 1890, is exclusive of the prescribed centage for establishment and tools and plant, which amounts to Rs. 434, while the sum of Rs. 2,204 applied for in my No. 216 T.J. of 1st May 1890 includes the above centage.

2. As the work proposed is special repair, it is considered necessary that the prescribed centage for establishment, &c., should be contributed by the Local Fund Board, but it is not understood why the same has been omitted in the Government Order above quoted, although it was included in the statement of incomplete works submitted from this office.

No. 1297 T.J.

Copy forwarded to the Chief Engineer, Public Works Department, with a request that he will be good enough to inform the Superintending Engineer whether in the case of special repairs, similar to the one above mentioned, the prescribed centage for establishment, &c., is to be contributed or not by the Local Funds. G.Os., No. 2330 W., dated 8th October 1885, No. 2743 W., dated 16th November 1885, and No. 374 W., dated 4th February 1890, appear to apply to upkeep or maintenance of roads.

 at present was  
 made to the Finance
