Judicial Department

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Inspector General of Jails, dated 9th
September 1892, N^o 4032.

x x x x x

4. As an instance of the practical effect
of G. O. 27th June 1892 N^o 433 Public, I beg to
submit copy of correspondence as per margin between
the Superintendent of Prisons, Madras, and the
Consulting Architect. The necessity for the work
referred to by the Superintendent of Prisons is undoubted,
its object is to prevent the Male prisoners in the
Hospital overlooking the female yard; its expediency
was pointed out so long ago as January 1889 by
Doctors Walker and Littlebridge in para 4 of their
Note on the M. M. Penitentiary printed on page
6 xxxvi of the Appendix to their Report. Under
Rule 75, Chapter III of the Public Works Code,
there would be no difficulty in convincing the
Consulting Architect of the necessity of the work,
but under G. O. 27th June 1892, N^o 433 Public,
he is prohibited from preparing plans and estimates
until the matter has been sanctioned by Government.

From Supt. of Prisons,
N^o 2154 of 16th July 1892.

From Consulting Architect
N^o 1214 of 18th July 1892.

I am thus compelled to trouble the Government with a reference which would otherwise not be required, and to request that the Consulting Architect may be authorized to prepare the requisite plans and estimates. If by G. 27th June 1892, N^o 433 P.D. is maintained and observed, such references will become very frequent, and I submit that the increase of labor to Government and the delay in the disposal of business will be considerable.

Encls.

From the Superintendent of Madras Prisons, dated 16th July 1892, N^o 2154 to the Consulting Architect to Government Madras.

I have the honor to bring to your notice the urgency that exists (on account of maintaining jail discipline, in preventing or making it impossible for any male to get into the female yard) of removing the present iron railings that divide the Hospital and female yards, and raising the existing low wall, to the height of the main wall. This is provided for in the general estimate for improvements to this Prison, but which is not likely to be sanctioned for a very long time.

The iron railings to be removed can then be put on the low wall of the Hospital yard, facing the inner wall of the jail.

fail.

3.

I beg that an estimate may kindly be prepared as soon as possible.

Order 29th September 1892 N^o 1837.

The improvements referred to in paragraph 4 of the Inspector General's letter are approved and the necessary action for the preparation of plans and estimates will be taken in the Public Works Department.

The question of cancelling or modifying G. 27th June 1892 N^o 433 Public will be considered in the Public Department.
