G.O., dated 6th May 1891, No. 877, Judicial.

Read—the following paper :—

From the Inspector-General of Jails, dated 21st April 1891, No. 135.

ABSTRACT.—Reporting the suicide at the Cannanore Central Jail of a convict from fracture of his skull by throwing himself down a well, 81 feet deep.

Order—dated 6th May 1891, No. 877, Judicial.

Recorded.

2. Rule 620 of the Jail Code does not say that wells should be covered, but only that they should be protected.

3. The Government considers that wells of this kind should have iron gratings fitted to them, with a trap door, to be locked when well is not in use, to admit of the passage of the bucket.

(True Extract.)

(Signed) J. F. PRICE,
Chief Secretary.

Read—also the following paper :—

From the Inspector-General of Jails, dated 26th September 1892, No. 4384.

In G.O., dated 6th May 1891, No. 877, para. 3, the Government directed that jail wells should have iron gratings fitted to them, with a trap door, in order to prevent risk of suicide.

2. On the 15th June last, I called for estimates for thus covering the wells at the Guntur District Jail, but the Executive Engineer has requested that the previous sanction of Government to their preparation may be obtained. He quotes G.O., dated 16th May 1892, No. 1506 W., which has not been communicated to this office, but which, I presume, is to the same effect as G.O., No. 433, Public, dated 27th June 1892.

3. I have accordingly the honour to request that the Government may be pleased to sanction the preparation by the Public Works Department of plans and estimates for the work in question.

Order—dated 8th October 1892, No. 1897, Judicial.

The construction of the iron gratings referred to has already been approved of by Government in this department in G.O., dated 6th May 1891, No. 877, Judicial, copy of which will be communicated to the Public Works Department. No special order authorizing the preparation of plans and estimates is therefore necessary.

ORDER—dated 20th October 1892, No. 2908 W., Public Works.

Communicated to Superintending Engineers for information and guidance.

2. The Superintending Engineer, II Circle, will furnish the Inspector-General of Jails with an estimate for fitting the wells at the Guntūr District Jail with iron gratings.
