Account.

READ—the following papers :—

Special indent No. 3 from the General Superintendent, Public Works Stores, dated 21st September 1892.

From W. HUGHES, Esq., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts), dated Chepāk, 4th October 1892, No. 440 W.

I have the honour to forward an indent on the Director-General of Stores in England for one emery grinding machine and one spare wheel with instructions, &c., urgently required in the Public Works Workshops for finishing famine tools (pickaxes and crows), which are being repaired on an estimate of Rs. 18,500 as approved in G.O., No. 1679 W., dated 3rd June 1892. Owing to want of proper grinding machines the work is being done by filing, which involves much labour and is expensive.

The cost of the grinding machine indented for can be met from the current year's grant of the workshops for "tools and plant."

ORDER—dated 27th October 1892, No. 2974 W., Public Works.

Ordered that the indent be forwarded to the Director-General of Stores for compliance.

On the last four days of the
of last week, the Examiner
did not attend office
owing, it is said, to indis-
position.

This week, till lately, the P.W. Department
appears to have been busy
with more important
papers.

After so much delay,
C's office has just been
able to ascertain C's
opinion that his Certificate
on the original of the indent
is all that is required.

Draft submitted
for approval.

in disposing of the indent.
The C's certificate is
endorsed on only one
copy of the indent. The
P.W. clerk, under my
instructions, pointed this
out to the accountant.
