READ—the following paper :—

Proceedings of the Board of Revenue (Land Revenue), dated 17th September 1892, Mis. No. 5951.

Read—the following letter from J. W. F. DUMERGUE, Esq., C.S., Acting Collector of Cuddapah, to the Secretary to the Commissioners of Land Revenue, dated Cuddapah, 31st August 1892, Reference on No. C. 5652/Acct.

I have the honour to send a plan and estimate for the construction of a tiled shed for boiling glue for the use of the Press office and another for the storage of stationery and other articles of stores received from time to time.

2. The shed for the use of the Press office is absolutely needed, as the glue is now boiled in the open air for want of a shed.

3. The shed for the storage of stationery and other stores is also urgently needed, as the room now used for the storage of stationery is so small that it cannot fully accommodate the supply of stationery annually received from Madras. In consequence the bulk of it is now secured in other rooms, small portions of it being removed from time to time as occasion requires. All other articles of store, such as remittance boxes, both old and new, deal-wood and jungle teak-wood boxes received from time to time, broken and useless furniture, skins of wild animals and some other articles, &c., are now stored in a shed leaky and full of white-ants, constructed by the Public Works Department at the time of the construction of the new Collector's office, but still left without being dismantled. It is very unsafe to keep any articles in this latter room, as they cannot be secured from the ravages of white-ants and leakage. The shed in question was once repaired at a cost of Rs. 25 by retiling, but with all that it is not free from leakage, as most of the rafters are too old, the shed having been constructed by the Public Works Department for temporary purpose at the time of the construction of the office.

4. I have, therefore, obtained the estimate and plan for construction of tiled building for the storage of stationery and stores and another shed for boiling glue from the Superintending Engineer, III Circle, and submit the same with my countersignature and request that the Board will be pleased to forward them on for the sanction of Government with their approval.

Resolution—dated 17th September 1892, Mis. No. 5951.

The plans and estimates for Rs. 2,710 for constructing two tiled sheds in the compound of the Collector's office, one for the storage of stationery and other articles, and another for boiling glue for the use of the Press office, are submitted for the sanction of Government and the provision of funds in the Public Works budget.

2. The necessity for the buildings has been fully explained by the Collector.

(True Extract.)

(Signed) W. S. MEYER,
Acting Secretary.

No. 4572, Revenue.

The plans and estimates are approved and transferred to the Public Works Department.

OOTACAMUND,
20th October 1892.

(Signed) R. H. CAMPBELL,
Acting Under-Secretary.

ORDER—dated 10th November 1892, No. 3093 W., Public Works.

The estimate, amounting to Rs. 2,710, for constructing two tiled-sheds in the compound of the Collector's office at Caddapah, is sanctioned.

2. Provision will be made for the work in the Provincial Civil works budget of the Public Works Department for 1893-94.

3. This sanction has been registered as Provincial No. 75 W. of 1892-93 and classified as Civil buildings, original works.

To

The Secretary to the Commissioners
of Land Revenue Madras

Sir

I have the honor to send plans and estimate
for the construction of a tiled shed for
boiling glue for the use of the Press office
and another for the storage of stationery
and other articles of stores received from
time to time.

2. The shed for the use of the Press office is
absolutely needed as the glue is now boiled
in the open air for want of a shed.

3. The shed for the storage of stationery
and other stores is also urgently needed
as the room now used for the storage
of stationery is so small that it cannot
fully accommodate the supply of
stationery annually received from
Madras. In consequence the bulk
of it is now secured in other rooms, small
portions of it being removed from time
to time as occasion requires. All other

articles

articles of store such as Remittance boxes
old and new, deal wood and jungle
teak wood boxes received from time to
time, broken and useless furniture,
skins of wild animals and some other
articles etc are now stored in a shed
leaky and full of white ants, constructed
by the Public Works Department at the
time of the construction of the new
Collector's office, but still left without
being dismantled. It is very unsafe to
keep any articles in this latter room as
they cannot be secured from the ravages
of white ants and leakage. The shed in
question was once repaired at a cost of
Rs 25 by retilling, but with all that, it is
not free from leakage as most of the
rafters are too old, the shed having
been constructed by the P.W. Dept
for temporary purpose at the time of
the construction of the office.

4. I have therefore obtained the
estimate and plan for construction
of tiled building for the storage of
stationery and stores and another
shed for keeping glue from the
Superintending Engineer 3rd Circle and
submit the same with my Counter-
Signature and request that the Board

will be pleased to forward them on
for the sanction of Government
with their approval.

I have the honor to be
Sir
