With reference to
the Am. Museum's query
below the draft order
on Current No 13238,
attention is invited to
para 20 of the inspection
notes, in which the
Ex. Engr's explanation
for heavy expenditure
at the end of the Office
year is given -

The reason is that
the season between
November & March
is more favourable for
work than in other
months of the year.

It has been
pointed out again
and again
that in the
natural course
of events the

expenditure in March
must in the majority
of divisions be higher
than in any other
month and the
periods with which
Officers of the Account
should notice this
as "making expenditure
at the end of the
year" as if it were
an irregularity to
be condemned, requires
correction -
