From the Executive Engineer, Kistna
Western Division, to the Suptg Engineer,
2nd Circle No 555 D of 20 October 1921

In his No 1193 D of 14.10.21, the
Dy. Sakhaidar, Inali, requested me
to frame an estimate for the repair of his
office, which is a government building.
The repair of the building has I am told
been postponed as an estimate was sub-
mitted for constructing a new Deputy
Sakhaidar's office at Inali. This estimate
was twice cancelled & another is now
being framed for constructing a Sakhaidar's
office at the same place.

I inspected the existing building
on the 18th. It consists of one main
room quite open on the front side,
at the South end there is a small
enclosed record room and at the
North end there are two wards form-
ing the subsidiary jail.

The roof of the main room is
in an absolutely dangerous state.
It consists of a Malabar truss
and

and palmyra thorny wood rafters.
Many of the rafters creepers and
some of the truss timbers have
rotted away and it is a wonder
the roof has not collapsed in place.
The walls are brick in mud and the
bottom of the foundations are 2 ft
higher than the level of two roads
East & South of the building. At the
South West corner, the earth has been
washed away & the foundations are
exposed.

I consider the main room
should be vacated at once without
delay, but the record room & the
subjail may still be used.

The Apothecary told me that
two rooms & a verandah could be
spared at the local Ind Hospital
as arrangements had not yet been
made for taking in in-patients.
The Dy Sahasildas stated that this
accommodation would suffice as a
temporary arrangement for his
office. I have therefore the honor to
suggest that the Revenue Department
should

should make arrangements at once
to carry out the above proposals.

3 1/2 / 2
It would be waste of money
to repair the roof and if patching
up were attempted it might result
in bringing the whole roof down.

If possible another Rs 2000 or 3000
should be provided to allow of my
proceeding on with the new office as
quickly as possible.

Rs. 1810 Rs dated 24th October 1902

Copy forwarded to the Chief
Engineer, Public Works Department,
with a recommendation that permission
should be given to collect at once
materials for the new building in
anticipation of the estimate being
sanctioned. If this proposal is
approved, Rs 2500 should be
granted for the work.

L. W. Martin

Suptg Engineer
2nd Circle

22/10

~~7-10-11~~

The Sup of June 6
2nd of July

The collection

of materials for the building in question may be put in hand.

2. With reference to the
Supt. Engineer's application
for funds it is observed
that there is already a
provision of \$6000 for the
work in the current year's
budget.
