As the building
Sept. and
these latrines
I see no objection
to their being
employed -

They have
doubtless been
improved as
since P.O. 2142
was issued -

The arrangements
at any rate now
are suitable,
and iron latrines
are not only now
in use, but are
in common use,
I recommended by

Superintending Engineer's Office,

II CIRCLE, Bay of
Dated 19th Nov. 1892.

Martin Esquire,
Superintending Engineer,
II Circle.

Chief Engineer,
Public Works Department.

I have the honor to bring
to that a latrine has been
for the use of the members
and a toilet has been engaged
to 1/2 per member from the

Union made for a toilet
in the Eastern District is
I request that the same
be referred to this office.
My proposition statement is

I have the honor to be,
Sir,
Your obedient servant
J. W. Martin
Superintending Engineer, II Circle

In Jan. 1891
 The P.O. in question
 appears to have been
 based on his
 own statement
 that he could put
 up better latrines
 at less cost - It
 has to be shown
 that he can do so -
 I doubt it -

I think that there
 can be no objection
 to the use of these
 latrines, where
 economy is an
 object.
