2ND DECEMBER 1892, No. 3305 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers :—

From A. S. RUSSELL, Esq., Executive Engineer, Buckingham Canal, to the General Superintendent, Public Works Workshops, dated Madras, 29th October 1892, No. 1541.

With reference to para. 2 of my letter, No. 1540 of 29th October 1892, I have the honour to request that an indent for 9,000 square feet of copper sheeting, 1/32 inch thick, with nails of necessary size, may be sent to England, with intimation that the copper sheeting is required early in January next. I have indented for 9,000 square feet, as I understand that the 7,000 square feet originally obtained for the 10 gates that have recently been copper sheathed proved insufficient.

2. Early in January 1893, I will send 10 gates to be repaired and sheathed in the same manner as you have done this year.

From W. HUGHES, Esq., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, through the Examiner, Public Works Accounts, dated Chepāk, 15th November 1892, No. 481 W.

I have the honour to forward a special indent on the Director-General of Stores in England for 9,000 square feet of copper sheet, 1/32 inch thick, with necessary nails, required in January 1893 for sheathing wooden lock gates of the Buckingham Canal.

From the Examiner, Public Works Accounts, dated 29th November 1892, No. 1856 C.

ORDER—dated 2nd December 1892, No. 3305 W., Public Works.

Ordered that the indent be forwarded to the Director-General of Stores for compliance.
