From

W. R. de Winter Esq^{rs}
Superintendent of Works
V. L. Pereira Division
Pereira

To

The Chief Engineer
Public Works Department
Lisboa

Sir,

With reference to J. R. N. 211 of
dated 11th February 1892. I have the honor to
request that you will be good enough to obtain
the sanction of Government to the submission of
tools and plant returns from this Division
annually instead of half yearly. the date of
submission to be examined being 1st May.

My reason for asking this is that with the
extensive operations on this Project it is practically
impossible

impossible to count tools during the working season without greatly upsetting work, and unless this count can be taken the Submission of the return is a farce.

There is annually a great cessation of work on or about April 1st owing to the departure of a large proportion of the labour to the plains when the numerous petty Contractors return their tools to Stores. This is therefore an excellent opportunity, the only one in fact during the year, for counting tools without prejudice to the progress of the work, and according to para 3 of Office note from Examiner Public Works Accounts No. 181 S.A. dated 2nd February 1902, printed with the above G.O. the Government of India appears to require only an annual count. It is hoped that the above arrangement may be sanctioned for this Division.

I have the honor to be,

Sir,

your most obedient servant

W. S. Chittur

Superintendent of Works

No. 1886 C.B. d/1.12.92

To W.

The impracticability of counting tools more than once a year - which is all that is required - is no reason why the statement should not be submitted half yearly. The submission of the statement half yearly with count made once a year will not prejudice the progress of works more than the submission of the statement once a year with count. The only extra labour involved would be office work in preparing the statement in which count is not made, & this would possibly result in a saving in the long run and assist stock verification, by bringing to notice errors in accounting at a much earlier date than would be the case if the return were submitted only once a year.
