1 Memorial

with

1 Letter of Endorsement

In returning the Memorial presented to His Excellency the Governor, by one J. B. Mathew of Cochin, (received with your Indorsement No. 631 of 4th November 1892) regarding the encroachment of the sea on his property, I have the honor to report that, having inspected the locality on the 21st ultimo, I am of opinion that Government is not called upon to carry out any protective works to the place in question.

2. The circumstances of the Cochin

Gochin groynes generally, will form the subject of a separate communication, so in the connection under reference, it may suffice to note that:-

1st - There is little or no erosion at the place indicated.

2^d - No general public interest being involved, Petitioner should himself carry out any protective measure he may think necessary.

3^d - South of the harbour mouth are eight groynes, usually designated by the letters A to H, from the south. The light house is situated between groynes C & D and Matthew's house and around a little further north between groynes E & F. The two latter are more favorably placed, with reference to wave action from the south west than are the two groynes flanking
