FOR ORDERS.

The rate of promotions in the Madras Establishment as in all other Provincial Establishments, is so slow — compared with that in the Military Works Department that it is not surprising that officers of Captain Ellis' standing should wish to join the latter.

2. Captain Ellis has 10½ years' service from date of first commission and is still 18th on the list of Assistant Engineers. I was a third grade Executive Engineer at the same period.

3. If employment can be found for him in the

it is possible that his
actual transfer may
