TECHNICAL NOTE.

23.1.92
Erecting Store Sheds at the Lunatic
Asylum at Madras.
Amount of Estimate Rs 8060

In the report accompanying the
estimate it is stated that the
estimate was prepared in ac-
cordance with G.O. No. 402 dated
22 May 1891 (no communication)
and at the request of the
Medical officer in charge of the
Asylum.

The estimate provides for erect-
ing 2 store sheds, as per
plans, one for the storage of
rice, grain &c. and the other
for fuel. The sheds are in-
tended to accommodate sup-
plies for 6 months.

The General store room is to
be fitted with 240 Sfts. of shelves
This room is intended for sundry
goods. The other large room
for the storage of rice & other in
sacks.

backs the centre room as an issue room for daily use.

The wood shed is slated to be large enough to stack about 125,000 lbs of wood or a six months supply.

The foundations of the stone shed are proposed to be carried to a depth of 5 feet, the bottom 2 ft. being built of concrete, the base: masonry & superstructure walls to be built of brick in chambers & their faces plastered with cement. The floor to be of 4" of concrete & plastered with cement, roof of Mangalore tiles on brick rafters & rafters supported on trusses & purlins. The roof of the wood shed to be of curved corrugated iron, bolted to the walls by anchor bolts, doors & windows to be battens & painted 3 coats.

No detail estimate is submitted to check the scantling of roof timbers but from the dimensions noted in the plan the scantlings appear to be not in accordance with the standard specification.

The rates are fair.

The plaster area & cost per Sq ft of the sheds are as follows:-

	area	cost
Stone shed	3021 Sq. ft.	2.2-3
Wood shed	1112 "	1.7-0

The plans & abstract estimate have been countersigned by the Surgeon General with the Govt. & approved in the Judicial Dept.
