FOR ORDERS.

The case seems one in which a prosecution is desirable.

S. W. 11.2

Of whom 1 of the 1st note. This seems to be a case for prosecuting the Delta Supt. for prosecuting the 2nd note. There appears to be a considerable body of reputable testimony to the truth of the charge. The S.E. should send the papers to the District Magr & if that officer sees fit to take cognizance of the case should place the Delta Supt. under suspension until it is disposed of.

Read the following

From the Supdg Engineer II Circle A.C. No 2612 dated 4 February 1892

Note by the Chief Engineer for consideration A.C. No 466 dated 9 February 1892.

The Superintending Engineer should send the papers to the District Magistrate, and if that officer sees fit to take cognisance of the case, should place the Delta Superintendent under suspension until it is disposed of. So far as can be judged from the information submitted, it is the Delta Superintendent and not the hydrographic who

who should be
prosecuted.
