Civil Works.

READ—the following paper :—

G.O., dated 18th December 1891, No. 1044, Public.

Read—the following paper :—

From the Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated 30th November 1891, No. 687.

I have the honour to forward, herewith, the plans and estimates for the new store-rooms at the General Hospital. I also forward a letter from the Senior Medical Officer, General Hospital, with plan, in which he recommends that two of the old wards which are unsuited to be used as such be converted into store-rooms and that the accommodation for the sick thus lost be made up by completing the new storey towards the eastern end. I fully concur with the senior medical officer in all his remarks, which show clearly the advantages to be gained at a really small additional expenditure. If this plan is sanctioned, the Europeans in the present second storey can be transferred to the upper storey and the ward thus vacated used for native patients.

Order—dated 18th December 1891, No. 1044, Public.

The Government approves the alternative proposal to convert the Hobart and Argyle wards at the General Hospital into store-rooms and godowns and to construct on the roof of the building at the place indicated by the senior medical officer accommodation for 32 beds in lieu of the 28 now in the wards to be done away with.

2. It is understood that the new wards will be called the Hobart and Argyle.

3. There seems no necessity for the provision of a separate store-room for firewood.

4. The Public Works Department will be requested to furnish the necessary detailed plans and estimates at an early date.

(True Extract.)

Proceedings in the Public Department approving of proposal to convert the Hobart and Argyle wards at the — into store-rooms and godowns and to construct new wards on the roof of the second storey, communicated to the Consulting Architect for preparation of the necessary plans and estimates.

No. 1082

GENERAL HOSPITAL,
STEWARD'S DEPARTMENT,
Madras, 27 November 1891.

OFFICE OF SURGEON GENERAL
27 NOV. 91
WITH GOVT. OF MADRAS.

4/2

From

THE SENIOR MEDICAL OFFICER,
GENERAL HOSPITAL, MADRAS,

To *The Secretary to the Surgeon General with the Government of Madras.*

Enclosures.
1. Large plan of building and roof.
2. Plans of Store room & godown.
3. Alternative Estimate.
4. Letter.

SIR,

With reference to your Memo. No. 6668 dated 25th November 1891, I have the honor to forward herewith letter No. 3190 dated 24th instant, from the Consulting architect to Government with its 5 enclosures and one large plan.

2. This gives plans and approximate Estimate of the proposed new Store-room to be built separately in the compound to the South-East of the main block, and of the wood-godowns at the Extreme East of the compound.

3. It also gives a tracing and approximate Estimate of the new wards proposed as an alternative plan, to be built on the roof.

4. This alternative plan is to give up the Hobart and Argyle Wards for store-rooms and godowns and removing the beds in them to the new wards to be built on the roof.

5. The object is to

are, I stand chiefly, the further crowding up of the already overcrowded compound (For this very reason His Excellency the Governor and Members of Council after an official inspection of the spot refused to permit the erection of quarters for Native Gentlemen in the compound, as proposed, and insisted on its being put on the roof.); 2nd, that the Stores and Godown are placed far from the Kitchen, from each other, and cannot be kept under constant supervision and control.

6. The advantages of the alternative plan are, 1st, the compound is not further overcrowded, 2nd, the two worst wards on the hospital (so bad that they can only be utilized, even for Natives, in the hot weather by the constant use of punkahs) with only 28 beds, are replaced by two of the very best with 32 beds; 3rd, the Stores are brought near the Kitchen; 4th, the business of the Steward's Department is concentrated; 5th, a magnificent Store-room, of considerably greater capacity than the proposed new one, is provided; 6th, serviceable and unserviceable furniture and other articles requiring storing, for which there is no proper place at present, will all find a suitable location here.

As to the firewood godown, I see the necessity of removing it outside. Nothing more combustable than large billets of wood will be stored in it, and this does not seem to me more risky than the ordinary storage of coal in cellars at home.

OFFICE OF SURGEON GENERAL,
21 NOV. 8?
WITH GOVT: OF MADRAS.

4/3

8. The old "Lunatic Cell", which is a portion that has been cut off from the Argyle Ward, will just suit without any alteration for a wood godown.

9. The only alterations that will be required in the Wards to change them into Store-rooms are, the addition of shelves, bars to windows and an iron grating to separate the distributing room and office from the main stores. These, the Superintendent says, could be done at a cost of Rs. 518.

10. The approximate cost of the two schemes is given below

1st Scheme	Rs	2nd Scheme	Rs
New Store-room	7,186	Two New Wards (32 beds)	18794
Wood godown	1476	Alteration to present Wards	518
Total	8,662	Total	19,312

11. So that for an extra expenditure of Rs. 10,650 two magnificent wards with 4 extra beds and well and useful store-rooms are

12. It is proposed (as on plan) to locate these new

between the Matron's quarters and the end of the wards at present being built on the roof. These proposed wards must be built some day if it be for no better reason than to do away with the lop sided look of the present arrangement.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 11th January 1892, No. 21 :—

MR. CLOGSTOUN.

Read—the following letter from C. KOUGH, Esq., Collector of Kurnool, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Kurnool, 11th December 1891, No. 6188 :—

With reference to Board's Proceedings, Nos. 507 and 621, dated 10th August 1891 and 1st October 1891, respectively, I have the honour to submit a supplemental list of famine relief works for 1891–92.

2. The total cost of works to afford employment to 5 per cent. of the population * of the whole district at 2 annas per head amounts to Rs. 18,65,012, whereas this statement and the previous one provide for works amounting to Rs. 20,53,528.

* 817,528 as per census of 1891.

3. The prescribed percentage has not been reached in the taluks of Ramallakót and Nandyál, and the Divisional officers concerned have been called upon to propose further works, on receipt of which another supplemental list will follow.

Resolution—dated 11th January 1892, No. 21.

The supplemental list of famine relief works for 1891–92, received from the Collector of Kurnool, will be submitted to Government with reference to G.O., No. 5085, Mis., dated 25th September last, and in continuation of Board's Proceedings, dated 10th August 1891, No. 507. The following abstract gives particulars for each taluk under the several heads and includes both the original and supplemental proposals :—

Taluks.	Proposed by the Collector.		Proposed by President, District Board.		Proposed by the Municipalities.		Total.	Amount for which estimates are ready.
	Works costing		Works costing		Works costing			
	Rs. 5,000 or more.	Less than Rs. 5,000.	Rs. 5,000 or more.	Less than Rs. 5,000	Rs. 5,000 or more.	Less than Rs. 5,000.		
	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.
1. Pattikonda	92,000	65,767	80,000	81,670	..	..	3,19,437	9,918
2. Rámallakót	42,815	24,615	..	86,151	..	8,271	1,61,852	19,484
3. Nandikotkur	10,000	26,039	78,000	88,034	..	..	2,02,073	11,389
4. Nandyál	30,513	46,853	..	49,009	..	..	1,26,375	51,616
5. Koilkuntla	30,000	41,403	86,000	50,950	..	..	2,08,353	7,723
6. Sirvél	6,000	41,599	63,500	37,638	..	..	1,48,737	31,528
7. Cumbum	41,266	42,196	3,89,823	10,028	..	..	4,83,313	1,29,436
8. Markapur	85,000	24,633	2,33,254	60,500	..	..	4,03,387	39,712
Total ..	3,37,594	3,13,105	9,30,577	4,63,980	..	8,271	2,053,527	3,00,806
Deduct for Dhekanayacheruvu in Koilkuntla twice estimated ..							10,000	
							20,45,527	

2. It will be seen that works to cost Rs. 20,43,527 have been provided for in case of emergency—a sum sufficient to give employment to 5·5 per cent. of the total population of the district, which was reckoned at 817,811 at the recent census. In the taluks of Rámallakót and Nandiyál the provision made is inadequate to employ the prescribed percentage of the population in them, but the Collector has promised to submit supplemental lists as soon as they are received from the Divisional officers.

3. Detailed estimates are only ready for works to cost Rs. 3,00,806 out of the total provision. The preparation of the estimates for the other works as early as possible should be pushed on in view of the present threatening situation, especially those for the minor irrigation works. The Commissioner fears that many of those entered in the Collector's list have been so entered without sufficient consideration and will prove on inquiry to be works on which expenditure would be entirely thrown away. The Collector should obtain from the District Engineer and forward a list of all Imperial irrigation works on which any expenditure can be profitably incurred.

4. The lists include provision for several large projects, but it is not reported whether the Public Works officers have examined and approved of these works. The opinion of the District Engineer on these projects should be reported, in view to the Public Works Department being moved at once to investigate any likely project situated in an affected tract where there is a reasonable certainty that Government must find employment for a large amount of labour.

5. Pending the submission of a revised list of works for the district, the Collector is requested to submit, at an early date, a selection of the works in each taluk which he will recommend to be first put in hand in the event of its being necessary to commence new or additional relief works in any taluk. Preference should be given to the repairs of useful irrigation works, major and minor, and, secondly, suitable spots should be selected for the employment of labour in breaking and stacking metal or collecting and stacking gravel on existing roads. There is no special demand for an extension of roads in any taluk save, perhaps, Márkapur, and the Local Boards are not in a position to undertake the upkeep of more roads than already exist.

22ND JANUARY 1892, No. 69, REVENUE.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 11th January 1892, No. 19 :—

MR. CLOGSTOUN.

Read—the following letter from W. G. UNDERWOOD, Fsq., Collector of Anantapur, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Anantapur, 20th December 1891, B. R. No. 107 :—

Referring to the latter part of paragraph 2 of Board's Proceedings, No. 621, dated 1st October 1891, I have the honour to forward herewith a list of famine relief works prepared with reference to the instructions contained in paragraphs 4 and 5 of G.O., No. 140, dated 24th February 1891, printed in Board's Proceedings, No. 148, dated 18th March 1891.

2. The list has been revised agreeably to paragraph 2 of Board's Proceedings, Mis. No. 2598, dated 9th June 1891, and the abstract prescribed in Board's Proceedings, No. 640, dated 8th October 1891, accompanies.

3. The list now sent is a considerable improvement on the one originally prepared in 1888 and printed in G.O., Revenue Department, No. 860, dated 21st October 1889, communicated with Board's Proceedings, No. 4424, dated 7th November 1889. There are, however, some works for which estimates are not yet ready and these have been called for. As regards certain Local Fund roads, the estimates received from Tahsildars, mostly prepared by the respective Local Fund overseers, have been forwarded to the President, District Board, for check by the Engineering establishment, as directed in paragraph 2 of Board's Proceedings, No. 197, dated 6th April 1891.

4. The following abstract shows talukwar the cost of relief works proposed, the population as per recent census, and the percentage for which civil works can provide employment :—

STATEMENT showing the talukwar percentage of population, civil agency works proposed for 1891-92 would provide for 1 year.

Taluks.	Amount of works proposed.	Number of persons works would provide for 1 year at 2 annas a head per diem.	Population according to recent census.	Percentage of columns 3 to 4.
1	2	3	4	5
	RS.			
1. Gooty	2,76,030	6,046	141,873	4·26
2. Tadpatri	3,62,820	7,947	112,689	7·03
3. Anantapur	93,900	2,057	104,335	1·97
4. Dharmavaram	2,78,900	6,109	118,686	5·15
5. Penukonda	1,90,450	4,171	80,214	5·20
6. Hindupur	1,84,580	4,043	81,747	4 95
7. Madakasira	1,58,920	3,481	68,011	5·12
Whole District ..	15,45,600	33,854	707,555	4·78

5. It will be seen from the above that sufficient provision has been made for all the taluks except Anantapur, the head-quarters of the district, for which supplemental lists will be called.

Resolution—dated 11th January 1892, No. 19.

The revised lists of famine relief works for 1891–92, received from the Collector of Anantapur, will be submitted to Government. The following abstract gives the particulars for each taluk under the several heads :—

Taluks.	Proposed by the Revenue Department.		Proposed by Local Boards.		Proposed by Municipalities.		Total.	Amounts for which estimates are ready.
	Rs. 5,000 and above.	Below Rs. 5,000.	Rs. 5,000 and above.	Below Rs. 5,000.	Rs. 5,000 and above.	Below Rs. 5,000.		
	RS.	RS.	RS.	RS.	RS.	RS.	RS.	RS.
1. Gooty	1,56,000	10,780	77,200	32,050	..	..	2,76,030	53,980
2. Tadpatri	1,15,000	2,000	2,05,600	40,220	..	..	3,62,820	1,48,690
3. Anantapur	5,700	5,500	43,200	35,500	..	4,000	93,900	51,800
4. Dharmavaram	..	800	2,55,930	22,170	..	..	2,78,900	81,780
5. Penukonda	..	13,530	1,54,420	22,500	..	..	1,90,450	60,450
6. Hindupur	..	10,240	1,53,240	21,100	..	..	1,84,580	1,75,980
7. Madakasira	..	..	1,29,420	29,500	..	..	1,58,920	60,780
Total ..	2,76,700	42,850	10,19,010	2,03,040	..	4,000	15,45,600	6,33,460

2. The list has been carefully revised with reference to the instructions recently issued on the subject. It provides for works to cost Rs. 15,45,600, a sum sufficient to provide work to 4·78 per cent. of the total population of the district (707,555) according to the last census. Of the sum provided for, detailed estimates are ready for works to cost Rs. 6,33,460. The Collector has issued instructions for the preparation of estimates for the remaining works also as soon as possible. The provision made for the Anantapur taluk is inadequate and sufficient to afford work for only 1·97 per cent. of the population of the taluk, but the Collector has promised to send supplemental lists to make up the prescribed limit of 5 per cent. In the Gooty and Tadpatri taluks very large sums are provided for fencing and digging forest reserves. The opinion of the Conservator on the value of these works should be obtained. Estimates for all minor irrigation works not yet sanctioned should be submitted to the Board for sanction at once through the Chief Engineer for Irrigation. A list of all major irrigation works in each taluk on which any expenditure can be incurred with advantage should at once be prepared and forwarded.

NOTES.

REFERENCE TO MADRAS P. W. D. CODE, EDITION OF 1886.

PARAS. 25 & 26.

1. The column headed "present scale" should invariably show the *sanctioned scale for the time being* and not the strength of the actual (whether above or below sanctioned) establishment as it happens to stand at the time. The "present scale" should be verified by the examiner before the proposal is submitted to government for sanction (paras 25 and 26).

2. In the column "average or fixed pay," financial value, not mean value, should be given.

3. The financial value should in the case of progressive appointments be calculated as follows:—

(1) If the period of rise from minimum to maximum is 5 years, the average will be the minimum *plus* two-thirds, or if the appointment is a ministerial one, *plus* three-fourths, of the difference between the minimum and maximum (C. S. R., Art. 164).

(2) If the period of growth exceeds five years (as in the case of accountants) the $\frac{3}{4}$th fraction should be decreased by $\frac{1}{60}$th of the difference for every year by which the period exceeds five; the fraction for periods in excess of five years will therefore be as follows:—

6 years = $\frac{3}{4} - \frac{1}{60} = \frac{44}{60}$
7 years = $\frac{3}{4} - \frac{2}{60} = \frac{43}{60}$
8 years = $\frac{3}{4} - \frac{3}{60} = \frac{42}{60}$

and so on; so that when the period of growth is 20 years the financial value will be the exact mean.

Regd: 1-2-92

G.O., 26th January 1892, No. 99.

JANUARY.

Season, Nellore.

Approving the works selected in the three taluks of Atmakúr, Udayagiri and Kávali as being required for the relief of distress.

are those which are already sanctioned or for which estimates are known to be ready. I may have more of this class of works to propose hereafter. The village sanitation and water-supply works are intended to be started in convenient localities at the discretion of the Taluk Board. The road works have been selected in consultation with the Local Fund Engineer and are all such as it is believed will be useful. The most important of all is the Duttulur-Pamur road, which is a much-needed through line of communication, connecting with the Kanigiri-Pamur road which is proposed to be specially repaired in Kanigiri taluk—see list B submitted with my letter quoted at the head of this letter.

7. I request that, as has been already done in the case of the works proposed for the Sub-Collector's division (paragraph 4 of Board's Proceedings, No. 6, dated 4th January 1892), the Board will be so good as to ask that Government in the Public Works Department be requested to issue orders for the prompt execution of the Public Works Department works in statement B.

8. The total sum now asked for in aid of the funds of the Atmakur Taluk Board is Rs. 55,700. The Rs. 10,000, the grant of which was recommended by the Board in paragraph 2 of the Proceedings already referred to, will form a portion of this amount. I trust that Government may be pleased to make an early grant of a substantial sum in aid of both the Ongole and Atmakur Taluk Boards.

9. The President of the Nellore Taluk Board asks for a grant of Rs. 3,000 to provide works in the western portion of the taluk until the harvest. I am not convinced of the necessity for such a grant. There is evidently a demand for work at present in and around Nellore, evidenced by the presence of some 500 coolies on a special repair work recently sanctioned by the District Board near Nellore; but a larger number of the coolies there employed are such as ordinarily find employment on tanks and similar works and they can probably find such work on the Buckingham canal or elsewhere. In a recent letter I have asked the Board to sanction the immediate repair of minor irrigation works approved for 1892–93 in the Nellore, Gúdúr and Rápúr taluks; if this is sanctioned and the District Board or Taluk Board provides some other ordinary works near Nellore, probably nothing more will be needed for Nellore taluk.

10. The President of the Nayudupet Taluk Board similarly asks for a grant of Rs. 1,500 in aid of the funds of his Board for expenditure in Rápúr taluk until the harvest. If the Board of Revenue will sanction the minor irrigation works in Rápúr taluk referred to in the last paragraph, probably nothing more will be required. I do not therefore support his request:—

A.—Forecast of outlay on works proposed to be executed up to June 1892 in the Head Assistant Collector's Division of the Nellore District.

Taluk.	Population as per 1891 Census.	Average number of persons who will probably require work up to June 1892.	Cost of providing work for the persons in column 3 at 2 as. per head per diem for 6 months.	Heads under which work is proposed to be provided and cost under each head.

Read—the following telegram from the Acting Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 13th January 1892 :—

Board's Proceedings 6 of January 4. Please urge Government to make grants early to Atmakur and Ongole Boards. Demand for work increases daily. 3,500 coolies now on Udayagiri-Sitharampuram road. Boards' funds exhausted.

Read—the following telegram from the Acting Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 18th January 1892.

Your telegram, 14th January, received yesterday at Sitharampuram. Road work was Local Fund work under amani. Tasks not exacted. Wages—man 2 annas, woman one and half anna, child one anna. Number ran over 4,000, some from 10 miles. Have now stopped work for want funds. Ready to begin with 75 per cent. tasks and correct organization as soon as funds allotted. Am satisfied demand for work urgent.

Resolution—dated 19th January 1892, No. 41.

The list of works selected in the Atmakúr, Udayagiri and Kaváli taluks of Nellore as being required for the relief of distress will be submitted for the approval of Government in continuation of Board's Proceedings, dated 4th January 1892, No. 6. The total cost of these works is put down at Rs. 82,370, viz. :—

	Rs.
Major irrigation, Public Works Department	12,000
Minor irrigation	14,670
Local fund	55,700

and these are estimated as capable of affording employment for 3,500 persons for six months, but in view of the fact that already 3,500 persons are reported to have resorted to one of the works which has been opened by the Local Fund Board in Udayagiri, the total number allowed for would appear to have been underestimated. It may be and probably was the case, that the large increase in numbers was due to the omission to exact a proper task, and that when a proper task is exacted the numbers will decrease. The Board must look to the Collector and his Divisional officers to see that a task to the extent of their ability is exacted from all resorting to relief works.

2. The Commissioner requests that a grant of Rs. 12,000 may be made for expenditure by the Public Works Department and a sum of Rs. 14,670 for expenditure on minor irrigation works, and that a grant in aid of Local Funds may be made amounting to Rs. 55,700, including the sum recommended in Board's Proceedings, dated 4th January 1892, No. 6.

3. The Commissioner requests that the Public Works Department may be directed to put the works mentioned in the list, viz. :—

Taluk.	Work.	Cost.
		Rs.
Udayagiri	Repair, Bhímavaram tank	3,000
Atmakúr	Do. Kaluvoy tank ...	3,000
	Do. Atmakúr tank supply channels.	6,000
Kávali	Do. Kaligiri tank	1,000

in hand at the earliest possible date.

4. Allotments will be made by the Board for the repair of the minor irrigation works mentioned on receipt of estimates.

Regarding the Local Fund works the selection of road repairs seems to be judicious and may be accepted, but they should not be taken up unless it is found impossible to employ those needing relief on the irrigation works alluded to. The expenditure of funds on village sanitation and water-supply should only be incurred after careful selection of the works by the Divisional officer and in cases where they are of proved necessity.

5. The major irrigation works should, in the Commissioner's opinion, be carried out departmentally and by task work at the wages prescribed in the Famine Code, the object being not so much the early completion of the work as the affording of

employment to the needy at a wage sufficient to keep them in health. A similar course should be followed in regard to the larger minor irrigation works. The smaller minor irrigation works should be carried out under the control of the village officers. The orders of Government are requested on the mode on which the work on the major irrigation works is to be carried out.

6. The Commissioner considers that in view to the probable necessity of opening further works in the taluks of the district situated to the north of the Pennér, an officer of the Public Works Department should be deputed to the district to serve under the orders of the Collector in carrying out Civil Agency works. It is necessary that the Collector should have reliable professional assistance to aid him in the supervision of these works and in the determination and enforcement of suitable tasks.

7. The Collector also alludes to the probable necessity for some works being started in the Nellore, Gúdúr and Rápúr taluks, but the Board has already approved of the course proposed by him being adopted, sanction for the execution of the minor irrigation works having been granted under the provisions of G.O., dated 24th September 1891, No. 963, Financial, communicated with Board's Proceedings, dated 13th October 1891, No. 649.

ORDER—dated 26th January 1892, No. 99, Revenue.

Miscellaneous.

The works selected in the three taluks of Atmakúr, Udayagiri and Kávali, as being required for the relief of distress, are approved. As observed by the Board of Revenue, the Collector and his Divisional officers should see that a proper task is exacted from all labourers.

2. The Government concurs in the Commissioner's remarks in paragraph 5 of his Proceedings and the works referred to therein should be carried out as suggested. The instructions contained in paragraph 4 are approved.

3. Paragraph 2 will be considered in the Financial Department and paragraphs 3 and 6 in the Department of Public Works.

JANUARY.

Season, Nellore.

Approving the works selected in the three taluks of Atmakúr, Udayagiri and Kávali as being required for the relief of distress.

Read—the following telegram from the Acting Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 18th January 1892.

Your telegram, 14th January, received yesterday at Sitharampuram. Road work was Local Fund work under amani. Tasks not exacted. Wages—man 2 annas, woman one and half anna, child one anna. Number ran over 4,000, some from 10 miles. Have now stopped work for want funds. Ready to begin with 75 per cent. tasks and correct organization as soon as funds allotted. Am satisfied demand for work urgent.

Resolution—dated 19th January 1892, No. 41.

The list of works selected in the Atmakúr, Udayagiri and Kaváli taluks of Nellore as being required for the relief of distress will be submitted for the approval of Government in continuation of Board's Proceedings, dated 4th January 1892, No. 6. The total cost of these works is put down at Rs. 82,370, viz. :—

	Rs.
Major irrigation, Public Works Department	12,000
Minor irrigation	14,670
Local fund	55,700

and these are estimated as capable of affording employment for 3,500 persons for six months, but in view of the fact that already 3,500 persons are reported to have resorted to one of the works which has been opened by the Local Fund Board in Udayagiri, the total number allowed for would appear to have been underestimated. It may be and probably was the case, that the large increase in numbers was due to the omission to exact a proper task, and that when a proper task is exacted the numbers will decrease. The Board must look to the Collector and his Divisional officers to see that a task to the extent of their ability is exacted from all resorting to relief works.

2. The Commissioner requests that a grant of Rs. 12,000 may be made for expenditure by the Public Works Department and a sum of Rs. 14,670 for expenditure on minor irrigation works, and that a grant in aid of Local Funds may be made amounting to Rs. 55,700, including the sum recommended in Board's Proceedings, dated 4th January 1892, No. 6.

3. The Commissioner requests that the Public Works Department may be directed to put the works mentioned in the list, viz. :—

Taluk.	Work.	Cost.
		Rs.
Udayagiri	Repair, Bhímavaram tank	3,000
Atmakúr	Do. Kaluvoy tank	3,000
	Do. Atmakúr tank supply channels.	6,000
Kávali	Do. Kaligiri tank	1,000

in hand at the earliest possible date.

4. Allotments will be made by the Board for the repair of the minor irrigation works mentioned on receipt of estimates.

Regarding the Local Fund works the selection of road repairs seems to be judicious and may be accepted, but they should not be taken up unless it is found impossible to employ those needing relief on the irrigation works alluded to. The expenditure of funds on village sanitation and water-supply should only be incurred after careful selection of the works by the Divisional officer and in cases where they are of proved necessity.

5. The major irrigation works should, in the Commissioner's opinion, be carried out departmentally and by task work at the wages prescribed in the Famine Code, the object being not so much the early completion of the work as the affording of

P. W. CURRENT No.

employment to the needy at a wage sufficient to keep them in health. A similar course should be followed in regard to the larger minor irrigation works. The smaller minor irrigation works should be carried out under the control of the village officers. The orders of Government are requested on the mode on which the work on the major irrigation works is to be carried out.

6. The Commissioner considers that in view to the probable necessity of opening further works in the taluks of the district situated to the north of the Pennér, an officer of the Public Works Department should be deputed to the district to serve under the orders of the Collector in carrying out Civil Agency works. It is necessary that the Collector should have reliable professional assistance to aid him in the supervision of these works and in the determination and enforcement of suitable tasks.

7. The Collector also alludes to the probable necessity for some works being started in the Nellore, Gúdúr and Rápúr taluks, but the Board has already approved of the course proposed by him being adopted, sanction for the execution of the minor irrigation works having been granted under the provisions of G.O., dated 24th September 1891, No. 963, Financial, communicated with Board's Proceedings, dated 13th October 1891, No. 649.

(True Copies and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department.
" Collector of Nellore.
Copy to the Government of India, Revenue and Agricultural Department.

ORDER—dated 26th January 1892, No. 99, Revenue.

Miscellaneous.

The works selected in the three taluks of Atmakúr, Udayagiri and Kávali, as being required for the relief of distress, are approved. As observed by the Board of Revenue, the Collector and his Divisional officers should see that a proper task is exacted from all labourers.

2. The Government concurs in the Commissioner's remarks in paragraph 5 of his Proceedings and the works referred to therein should be carried out as suggested. The instructions contained in paragraph 4 are approved.

3. Paragraph 2 will be considered in the Financial Department and paragraphs 3 and 6 in the Department of Public Works.

Ag. Collector.

Read—the following telegram from the Acting Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 13th January 1892 :—

Board's Proceedings 6 of January 4. Please urge Government to make grants early to Atmakur and Ongole Boards. Demand for work increases daily. 3,500 coolies now on Udayagiri-Sitharampuram road. Boards' funds exhausted.

are those which are already sanctioned or for which estimates are known to be ready. I may have more of this class of works to propose hereafter. The village sanitation and water-supply works are intended to be started in convenient localities at the discretion of the Taluk Board. The road works have been selected in consultation with the Local Fund Engineer and are all such as it is believed will be useful. The most important of all is the Duttulur-Pamur road, which is a much-needed through line of communication, connecting with the Kanigiri-Pamur road which is proposed to be specially repaired in Kanigiri taluk—see list B submitted with my letter quoted at the head of this letter.

7. I request that, as has been already done in the case of the works proposed for the Sub-Collector's division (paragraph 4 of Board's Proceedings, No. 6, dated 4th January 1892), the Board will be so good as to ask that Government in the Public Works Department be requested to issue orders for the prompt execution of the Public Works Department works in statement B.

8. The total sum now asked for in aid of the funds of the Atmakur Taluk Board is Rs. 55,700. The Rs. 10,000, the grant of which was recommended by the Board in paragraph 2 of the Proceedings already referred to, will form a portion of this amount. I trust that Government may be pleased to make an early grant of a substantial sum in aid of both the Ongole and Atmakur Taluk Boards.

9. The President of the Nellore Taluk Board asks for a grant of Rs. 3,000 to provide works in the western portion of the taluk until the harvest. I am not convinced of the necessity for such a grant. There is evidently a demand for work at present in and around Nellore, evidenced by the presence of some 500 coolies on a special repair work recently sanctioned by the District Board near Nellore; but a larger number of the coolies there employed are such as ordinarily find employment on tanks and similar works and they can probably find such work on the Buckingham canal or elsewhere. In a recent letter I have asked the Board to sanction the immediate repair of minor irrigation works approved for 1892–93 in the Nellore, Gúdúr and Rápúr taluks; if this is sanctioned and the District Board or Taluk Board provides some other ordinary works near Nellore, probably nothing more will be needed for Nellore taluk.

10. The President of the Nayudupet Taluk Board similarly asks for a grant of Rs. 1,500 in aid of the funds of his Board for expenditure in Rápúr taluk until the harvest. If the Board of Revenue will sanction the minor irrigation works in Rápúr taluk referred to in the last paragraph, probably nothing more will be required. I do not therefore support his request:—

A.—Forecast of outlay on works proposed to be executed up to June 1892 in the Head Assistant Collector's Division of the Nellore District.

Taluk.	Population as per 1891 Census.	Average number of persons who will probably require work up to June 1892.	Cost of providing work for the persons in column 3 at 2 as. per head per diem for 6 months.	Heads under which work is proposed to be provided and cost under each head.					
				Public Works Department.	Minor irrigation works already sanctioned.	Local Funds.			Grand Total.
						Repair and construction of roads.	Village sanitation and water-supply.	Total.	
1	2	3	4	5					6
			RS.	RS.	RS.	RS.	RS.	RS.	RS.
Udayagiri ..	100,208	2,000	45,000	* 3,000	3,400	40,300	1,600	41,900	48,300
Atmakúr ..	101,184	1,000	22,500	8,000	6,800	6,800	1,000	7,800	22,600
Kávali	82,975	500	11,250	1,000	4,470	5,000	1,000	6,000	11,470
Total ..	284,367	3,500	78,750	12,000	14,670	52,100	3,600	55,700	82,370

* It is doubtful whether the Public Works Department will be prepared to undertake the work proposed.

B.—List of works referred to in sub-heads of column 5 of table A.

Taluk.	Name and cost of work proposed to be executed (see programme submitted with Nellore Collector's letter No. 3381, dated 21st November 1891).			Remarks.
	Name of work.	Amount of estimate.	Estimated expenditure up to June 1892.	
1	2	3	4	5
		RS.	RS.	
Udayagiri taluk ..	Public Works Department works—			
	Repair of Bhimavaram tank	3,000	3,000	Not in the programme. Estimate believed to be ready, but it is doubtful whether the Public Works Department is prepared to undertake the work.
	Total ..	..	3,000	
	Minor irrigation works already sanctioned—			
	Nayanigunta Pedda tank	900	900	
	Timmayapalem tank	900	900	
	Nandavaram Ramanayadupalli tank ..	600	600	
	Padamatinayanipalli Nerellagunta tank.	500	500	
	Padamatinayanipalli Mallem Kondraju tank.	500	500	
	Total ..	..	3,400	
	Local Funds-Roads—			
	Special repairs of Duttalur-Pamur road (*a*)	40,000	15,000	(*a*) A very important through line of communication, partly anew work, appears in the programme as Bhata to Pamur road.
	Do. Bhata to Duttaloor road (*b*).		8,000	(*b*) Estimate not ready, but can be prepared without delay.
	Do. Udayagiri-Sitarampuram road.	3,500	2,500	The estimate is for Rs. 3,500, but Rs. 1,000 has been already allotted by the Taluk Board.
	Do. Udyagiri-Kaligiri road ..	6,700	6,700	
	Do. Nandavaram-Dornal road (*c*).	..	5,000	(*c*) Not in the programme, but estimate will be ready very shortly.
	Do. Nandavaram-Udayagiri road.	3,100	3,100	
	Total ..	..	40,300	
	Village sanitation and water-supply—			
	Improving and digging drinking-water ponds and wells and removing prickly-pear.	1,600	1,600	
	Total ..	..	1,600	
	Total, Udayagiri taluk ..	..	48,300	
Atmakúr taluk ..	Public Works Department works—			
	Repair of Kaluvoy tank	3,000	3,000	
	Do. of supply channel of Atmakur tank.	6,000	5,000	Estimate will be ready shortly; a very useful work.
	Total ..	..	8,000	
	Minor irrigation works—			
	(*a*) Newly sanctioned—			
	Raising the calingula of Gunuperlapad tank.	210	210	
	Navoor east tank	820	820	
	Patapad small tank	700	700	
	Prabhagiripatnam Nallareddy tank.	200	200	
	Battulapalli tank	300	300	
	Kávali Mustafapuram tank ..	1,220	1,220	
	Mamundur Ketineni tank	350	350
