In the proposition statement
submitted with my No 500 dated 2^d
February 1892 provision is made for
one paymaster on Rs 50 for Curnburn

I am of opinion that this
number is not sufficient and that
one will be required for each large
work.

The following works are or
will be in progress in this Division.

1. Markapur Sank.
2. Tamalacota Sank.
3. Curnburn Sank & its channels.
4. Ramapuram Pedda and
Shinna Mallalama Sanks.
5. Mussalimadugu Sank.
6. Yeldurty Sank.

I

I have therefore the honor to request your sanction to employ 6 Paymasters. The men will be engaged as each work is commenced.

FROM

SUPERINTENDING ENGINEER,

TO

THE Chief Engineer,
P. W. Department
Madras.

Sir,

Enclosures. 1

In forwarding copy of letter No. 503 dated 2nd Instant from the Executive Engineer Kurnool Division applying for permission to appoint six paymasters for famine relief works on Rs 50 per month each, I have the honor to recommend that permission to employ six paymasters when required should be given. According to the Famine Code coolies must be paid once every three days, but we cannot do this without employing a paymaster for every work or group of works.

2. As doubtless it will be necessary to appoint a large number of temporary hands of sorts from time to time I request to

to be informed whether the Famine
Code gives me any special powers as
regards making temporary appointments
in connection with relief works. Paragraph
145 lays down that a list of all temporary
appointments should be submitted
weekly for the approval of Government,
but I do not know what class or
classes of appointments I may make
subject to the approval of Government.

I have the honor to be

Sir

Your most Obedient Servant
