GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers:—

From J. A. JONES, Esq., MEM. INST. C.E., F.R.S.E., Sanitary Engineer to Government, to the Chief Secretary to Government, Judicial Department, dated 9th December 1891, No. 1930.

I have the honour, in compliance with G.O., dated 16th November 1891, No. 2355, Judicial, to forward an estimate amounting to Rs. 6,250 for deepening the Main Gate Well of the Coimbatore jail by 50 feet and for providing steining to prevent the entry of any water above a depth of 83 feet below ground all as shown on the accompanying drawing.

R. No. 1295.

Approved and transferred to the Public Works Department.

(By Order.)

(Signed) N. S. BRODIE,
Ag. Under-Secretary.

21st December 1891.

Endt. by the Secretary to Government, Public Works Department, 16th Jan. 1892, No. 248 C.

From Lieutenant-Colonel R. R. E. DRAKE-BROCKMAN, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated Coimbatore, 11th February 1892, No. 73 W.

In returning the plan and estimate for deepening the Main Gate Well of the Central Jail at Coimbatore, received for scrutiny and approval, with your endorsement No. 248 C. of 16th ultimo, I have the honour to state that a few corrections have been made in the quantities. The plan shows the upper steining wall as 2 feet thick, but the estimate only provides $1\frac{1}{2}$ feet. The rates allowed are very high; with convict labour half the amount would be sufficient.

2. With regard to para. 2 of the endorsement under reference, I beg to report that only preliminary arrangements, such as preparation of bricks, conveyance of pumps and boilers, &c., from Madras can be made in this official year, for which Rs. 2,000 is considered sufficient.

ORDER—dated 20th February 1892, No. 562 W., Public Works.

The estimate, amounting to Rs. 6,250, for deepening the Main Gate Well of the Central Jail at Coimbatore, has been reduced by the Superintending Engineer, IV Circle, to Rs. 5,650. The estimate, as thus revised, is sanctioned for execution when funds are available.

20TH FEBRUARY 1892, No. 562 W., PUBLIC WORKS.

2. If it is intended to carry out the work by convict labour, para. 937 of the Public Works Code should have been attended to.
3. This sanction has been registered as Provincial No. 116 W. of 1891-92 and classified as Civil Buildings, Original Works.

(True Extract.)

Major, R.E.,
Under-Secy. to Govt., P.W.D.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read again 20th May 1891 N. 8807. ^{also} READ the following papers:—

From the Sanitary Engineer to Government, d
18th September 1891 N. 1288.

From the Inspector General of Jails, d 26 October
1891 N. 396.

Order, 15th November 1891 N. 2355.

The Government approves the
Sanitary Engineer's proposal to deepen the
Coimbatore Jail main gate Well by 50 feet
and the necessary estimate will be prepared
and submitted for sanction accordingly at
a very early date. Pending the completion of
this experiment the scheme for forming a collecting
area should be deferred.

7.1.82

Dec. — A copy of the Jail - So. has been
furnished, but it does not show
which Dept. is to carry out the work.
As the work is connected with the
Criminology Jail, & the estimate is trans-
ferred to M.O., it seems probable that
the work is intended to be carried out
by this Dept. from Provincial funds.

TECHNICAL NOTE

Deepening the Drain Gate well
of the Central Jail at Cimbabura
Amount of estimate Rs 6,250

In letter No. 1930 dated 9th Decr. 1891 from the Sanitary Engineer to Govt., it is stated that the above estimate was furnished with reference to F.O. No. 2355 dated 16th Mch. 1891. (not communicated). The estimate provides for deepening the existing well by 50 feet, vide plan, and for lining the well to a depth of 83 feet below ground surface.

The deepening of the well will be undertaken by blasting rock to a diameter of 11 feet for the first 30 feet in depth and 8 ft. in dia. for the lower 20 feet in depth.

The steining for the first 30 feet below the bottom of the caisson will be of table mounted brick in cement & above this level of table mounted brick in cement. The whole of the brickwork will be pointed with cement.

The estimate is not correctly framed, the thickness of steining, 53 feet below ground level is shown as 2 feet in the plan whereas the estimate provides for 1'6", moreover the circumference is not carefully taken out. The estimate will be altered if ordered.

Many of the rates cannot be checked & those that can be checked are fair.

A sum of Rs 2000. is provided for Pumping charges & Contingency is calculated at 15%.

The estimate & plans are not countersigned by the Joint authorities nor recommended by the Super Supt. Civil Engineer in the Judicial Dept.

For orders whether the question may be asked, or whether the estimate can be forwarded to S.S. for sanction & approval prior to sanction.

The S.S. should also be asked whether the work can be completed this financial year or if not, funds will not be available next year.

TECHNICAL NOTE.

562/11

Deepening the main gate well
in the Central Jail at Coimbatore
Amount of Estimate Rs. 5650

In Memo No. 248 C dated 16th Jan 1892, this estimate was for:
forwarded to the Supg. Engg. 1st Circle
for scrutiny & approval and to as-
port whether the work could be
completed before the close of the
financial year. The Supg. Engg.
returns the plan estimate after
making a few corrections & states
that the rates allowed in the
estimate are very high and
with careful labor, he con-
siders that half the amount would be
sufficient. He also reports that
only preliminary arrangements
could be made, such as
be-

The estimate is approved in the Judicial Dept. but it is not countersigned by the Jail authorities, neither does it bear the signature of the Super Engineer of his approval.
