Letter No 104 dated 16th February 1892
from the Exe: Engineer Anantapur
Division to the Supty: Engr: III Circle.

654

With reference to para 2 of Chief Engrs
Circular No 311C dated 19th ultimo received
from Bellary Division with No 2931
of 23rd idem ordering that "if any work under
Provincial Civil Buildings is emergently
necessary that it should be begun at once
a special report should be made," I have
the honor to inform you that an estimate
for about Rs 600 will be submitted in a
day or two for modifications to my
residence here, providing:-

(1) An Office room. The available
accommodation in the P.W. Compound
being barely sufficient for my
Accountant and Clerks even after reducing
Sub Division Office to one room and
turning out Sub Overseer in charge Ananta-
pur town and Taluq who will have
to

18
to remove his Office to his own house.

(2) Additional stabling. This Division requires 3 horses to work it properly. There is only stabling for one.

(3) Servants quarters. At present there is absolutely none.

The building is a Government building lately occupied by the Asst. Surgeon, and is close to the P.W. Buildings (Exec. Engineers & Sub Division Offices, Stores &c.).

(True copy)

J. W. Martin Esq.
Suptg. Engineer, III Circle.

No. 3326

Superintending Engineer's Office,

3RD CIRCLE.

Bellary 22 February 1892.

FROM

J. W. Martin Esq.
SUPERINTENDING ENGINEER,
IIIrd CIRCLE.

TO

THE Chief Engineer.
D. S. W.

Madras.

Sir,

Enclosures. /

In forwarding copy of letter No. 104 dated 16th February 1892 from the Executive Engineer Anantapur Divn. regarding additions he proposes to make to the house &c. he is now living in his estimate being Rs 600, I have the honor to explain that he is occupying the building built for a residence for the Asst. Surgeon. At present the Asst. Surgeon is a native gentleman and is not anxious to live in the house and consequently Mr. Watson has been able to get it.

2. I believe however that the Anantapur Division is merely a temporary one in the sense that it will be abolished as soon as the necessity for carrying out

relief work ceases. In these circumstances
I feel that I should not sanction the
estimate Mr. Watson ^{has} proposed to forward
without your special sanction. I
think however he might be allowed to
construct a temporary hut or building
for his servants to occupy and he might
be permitted to erect a temporary stable.

I have the honor to be

Sir

Your most Obedient Servant

W. H. C. M.
Suptg: Engineer, III Circle.

P. W. DEPARTMENT.

Read the following:—

Letter from the S.E. III Circle No. 3326 of 22. II. 92

654/4

FOR ORDERS.

The construction of
an office room appears
to be necessary on
public grounds; that
of the stable is for the
convenience of the
occupant and it is
doubtful whether it
should be sanctioned,
on the whole however
I think it will be
advisable to allow it.

2. The Division will
probably be abolished
as soon as the necessity
for special farming
work is over, but in
the meantime some
temporary office

accommodation would
be necessary, and this
would probably cost
at least as much as
the work now proposed,
which will have the
advantage of permanently
increasing the value
of the building.

3. The estimate
will be within the
Suptg Engineer's powers
of sanction.

Very well. But the advantage
is doubtful as we must
get no advantage out of the
cost of the
cost of the
cost of the
