Proceedings of the Board of Revenue
(Settlement, Land Records and Agriculture).

Dated 24th February 1892.

No. 1955 Kiv

Mr. Clogston

READ the following letter from O. Wolfe Murray, Esquire,
Acting Collector of Cuddalore, dated 22nd
February 1892. Reference No. $\frac{2180}{2180}$:—

With reference to G.O. dated 12th
September 1891. 1869 Revenue, I have

the honor to say that no orders or accounts
have issued to the D. P. W. regarding the
necessity of estimating for the drainage
channel proposed by Mr. Jones
in clause (3) of his Recommendations to
be found at the end of his report
published in the above G.O.

2. This is a most important
work; if it is ever to be carried out, never
probably

probably within the life of most of us
ill a more favorable opportunity occurs
than this year. I trust the Board
will get the D.P.W moved to prepare the
estimate at once. It may become a
necessity soon to execute this as a
 famine work. The canal supply to the
Patla Cuddapah tank agent is
stopped and the canal has no water
now near its terminus. Thus all the
labor, such a water supply would have
given employment to, is standing idle.

3. The Executive Engineer here informs
me the only orders he has received in
connection with the above G.O. are to go
on the repairs to the Dargalehemon
tank. I trust that Mr. Jones's
Recommendation (4) may become
unnecessary as the project of supply
direct

direct from the canal is, though more
expensive, far more to be depended on.

4. I am very anxious to see this drainage
channel completed and I trust the
D.P.W may be ordered to carry it out.
It is a peculiar fact by the way that
this year, when the Dargalehemon has
had no supply, the town has been
far more free from fever than usual.

Resolution.

394 W 8 2 192 2nd February 1892, No 115 Revenue, from
which he will observe that his re-
commendations in reference to Mr. Jones
projects have been referred to the
P.W.D for consideration.

2. Should the collector see reason
to believe that it will be necessary to

give employment to a large number
of laborers in the neighbourhood of
Cuddapah and should no other more
suitable work than the one in question
be available, it is open to him to call
upon the Executive Engineer to prepare
the necessary estimates for its execution
as a famine work.
