Your most Obedient Servant

L. W. Martin
Suptg. Engineer, III Circle

W

Please see the Collector's letter No 50 d/17 Janr 92. He says - "For the next two months or so, the number (of labourers) will probably be very small, but after that date it will increase gradually according to the state of the season". The S.E. says "it is probable they will not come at all, for there are often heavy showers in April & May".

Yth he does not withdraw his current estimate for tools. He probably thinks it safer to have the tools on hand.

L.S.
4.11.92

I think it will be better to ask him for explanation of this in connection with the estimate for other purposes which he mentions.

copying estimates

Referring to your Memorandum
No 618C dated 6th Instant regarding
estimates submitted for tools &c.
I have the honor to explain in reference
to the estimate amounting to Rs 2707.
that the items marked with a red
cross have already been bought, but
the other items have not yet been
purchased.

2. The items marked with a red cross
were purchased in anticipation of
sanction for they were urgently
required for the works selected
and ordered to be put in hand by
the Collector, Bellary District.

The

The items not marked with a red cross are required, or will be required, and, I think, permission to buy them should be given.

3. Regarding estimate amounting to Rs 750 this merely provides for the cost of carriage of the tools sent from Madras and other places and for arranging and repairing them on arrival.

4. In regard to my endorsement no. 3051 dated 29th ultimo referred to 618CD 6.2.92 in your memorandum under reply, I beg to explain that it was sent by mistake in continuation of this office letter dated 28th ultimo no 3039 instead of no 3034 dated 28th January 1892 reporting that I thought there were enough tools in the Bellary District for at least some time. My object in sending a copy of the letter from Collector

collector of Anantapur was merely to let you know that it was not likely there would be a large demand for tools for that district, and that probably it would not be necessary to send any tools from Bellary to Anantapur.
