Copy of letter No. 50 dated
27 January 1892 from W. G. Underwood
Esquire Collector of Anantapur to the
Superintending Engineer 3rd Circle Bellary

In reply to your letter No. 2862
dated 13th instant, I have the honor
to state that about 442 coolies are now
employed in walling the Forest Revenue
at Kalyandrug the only famine work
opened up to date. From my famine
circulars copies of which are com-
municated to you from time to time
for your information, you will be
good enough to note what further work
will be started in this district as
necessity arises. It is not possible
for me to form even an approximate
estimate of the number of labourers
likely to be employed on relief work.
For the next two months or so the
number will probably be very small
but after that date it will increase
gradually according to the state of the
season.

2. Under instructions from the Board,
only irrigation work will be taken up

at

at first and where these are not available near the distressed localities, road works will be undertaken. There is however, no likelihood of the latter class of works being started at present without the sanction of Government being obtained before hand.

No 3051

Forwarded to the Chief Engineer
P.W.D. in continuation of this office's
3039 dated 28th Jan'y/92.

x C.R. 983

Apparently there will be no great demand for tools for sometime to come for Anantapur district; indeed if the number of famine coolies will not be large for the next two months or so it is probable they will not come at all, for, there are often heavy showers in April and May.

L. W. Martin
Supt Engineer
3rd Mile
