GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following paper :—

From H. B. GRIGG, Esq., M.A., C.I.E., Director of Public Instruction, to the Chief Secretary to Government, dated Madras, 4th February 1892, No. 1327.

With reference to paragraph 2 of G.O., Educational, No. 876, dated 16th November 1891, I have the honour to state that the Surgeon-General with the Government of Madras, whom I have consulted in regard to the fees that may be charged by commissioned officers and lower medical subordinates for granting sanitary certificates, recommends the following scale of fees as fair and reasonable. I beg therefore to request that, if these proposals are approved by Government, the accompanying draft notification may be published in the *Fort St. George Gazette* :—

	RS.
(1) Commissioned Medical Officer	15
(2) Assistant Surgeon in independent charge of a district or civil station.	10
(3) Apothecaries in independent medical charge	5
(4) Hospital Assistants	2

ORDER—dated 3rd March 1892, No. 179, Educational.

The Government considers that certificates by professional officers, Engineering and Sanitary, need only be required when a school is first recognized, and that when accommodation and latrine provisions have once been certified as sufficient and suitable, renewal of recognition may be accorded on the report of the Educational inspecting officers, who are capable of seeing that the buildings are kept in fair repair and in condition of general cleanliness. But the Educational rules make no provision for the renewal or continuance of recognition, and this seems a defect; it should be made annual on the report of the inspecting officers. The rules provide for the plan being approved by the Director; and for the preparation of such plan with superficial and cubic space certified thereon by competent professional persons, managers should be made to pay. When accommodation is added to, plans similar to those of the original building and similarly certified should be filed. It should be the duty of Sanitary officers to visit schools during their tours and report on their sanitary condition to the Director or Inspector, but they will not be allowed to charge fees except for a first inspection with a view to recognition or where additions or extensions of buildings are required to be certified. Plans certified by Public Works Department or Local Fund Engineering officers of the rank of overseer or upwards might be accepted, and a scale of fees which such officers should be permitted to accept should be drawn up by the Director of Public Instruction in communication with the Chief Engineer. The Government considers the scale of fees proposed by the Surgeon-General for medical officers too high. The rates should be reduced to Rs. 10, 5, 3 and 2.

A full set of rules should be drawn up by the Director of Public Instruction, and amendment to the Educational rules to provide for renewal of recognition should also be drafted.

As amended, Article 17 of Section II (ii) of the Educational Rules, second clause, might run: "It shall be subject to inspection by the Educational inspecting officer and such officers of the Medical, Sanitary and Engineering Departments as the Government directs." The article will then make provision for inspection by Medical officers subordinate to the District Surgeon, and by Engineers, whose duty will be to certify to the dimensions of the building and such-like matters. Managers of schools will have to make their own arrangements with the Health Officer of the Madras Municipality.

(True Extract.)

J. F. PRICE,
Chief Secretary.

To the Director of Public Instruction.
