17TH MARCH 1892, No. 883 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper :—

From Colonel J. G. FORBES, R.E., Secretary to the Government of India, Public Works Department (Account Establishment), to the Secretary to the Government of Madras, Public Works Department, dated Calcutta, 10th March 1892, No. 70 A.E.

I am directed to acknowledge the receipt of your letter No. 66 W. of the 7th January 1892, submitting, for sanction, proposals for the revision and re-organization of the subordinate accounts establishment employed in Madras.

2. In reply, I am to say that the Government of India sanctions the employment of the additional accountant required for the recently established division at Salem.

3. With this division there will be apparently 29 executive divisions in the Madras Presidency, and, allowing one accountant for each division and one spare accountant of the lowest grade for seven of the divisions to help the accountant and as a means of providing trained recruits for all divisions, it would appear that the scale of 52 submitted by you provides for 16 accountants being employed in the Examiner's office. This number, I am to say, appears to the Government of India much higher than necessary, it being taken into consideration that arrangements are being made otherwise for the recruitment of accountants. The Government of India considers that the divisional office is the best place for training accountants, whether their future is to be spent in an Executive Engineer's or in the Examiner's office. It should also be borne in mind that accountants should not be employed in the Examiner's office otherwise than on a check of the work of clerks trained to perform the primary duties of audit and book-keeping. Taking these points into consideration, it is thought that a scale providing some ten or twelve accountants for the Examiner's office should amply suffice.

4. The great advantage that will be derived from the posting of accountants of higher grades to the offices of Executive Engineers is fully recognized, as men of experience and reliability are far more necessary for the compilation of accounts, the interpretation of rules and direct connection with the actual disbursement of money than for the primary audit or booking of accounts and bills under careful supervision in an Examiner's office.

5. As regards the abolition of incremental salaries and the revision of grades of accountants, I am to say that the proposal put forward in para. 7 of your letter meets with the approval of the Government of India, it being understood that the revision is not to entail any additional cost, and I am to request that detailed proposals, showing the redistribution proposed, may, subject to the above remarks, be submitted for the sanction of the Government of India.

6. In submitting this proposal, I am to request that the establishment required for the Examiner's office may be shown quite distinct from that required for divisional offices and that the Examiner may be instructed to discuss the requirements of his own office with the Accountant-General, Public Works Department, prior to submission of a proposed scale to the Government of Madras.

17TH MARCH 1892, No. 883 W., PUBLIC WORKS.

ORDER—dated 17th March 1892, No. 883 W., Public Works.

Communicated to the Examiner, Public Works Accounts, with reference to G.O., No. 65 W., dated 7th January 1892.

2. Revised proposals for the re-organization of the subordinate accounts establishment should be framed in accordance with the orders of the Government of India, the scale for the Examiner's office being previously discussed with the Accountant-General, Public Works Department.

Calcutta, the 10th March, 1892

Sir,

I am directed to acknowledge the receipt of your letter no. 66 W. of the 7th January 1892, submitting for sanction proposals for the revision and reorganization of the subordinate accounts establishment employed in Madras -

2. In reply, I am to say, that the Govern-
ment of India sanctions the employment of the additional accountant required for the recently established Division at Solapur.

3. With this Division there will be, apparently, 29 executive Divisions in the Madras Presidency, and allowing one accountant for each Division and one spare accountant of the lowest grade for seven of the Divisions, to help the accountant and as a means of providing trained recruits for all divisions, it would appear that the scale

of 52 submitted by you provides for 16 accountants being employed in the Examiners' office. This number, I am to say, appears to the Government of India much higher than necessary, it being taken into consideration that arrangements are being made otherwise for the recruitment of accountants. The Government of India considers that the divisional office is the best place for training accountants, whether their future is to be spent in an Executive Engineer's or in the Examiners' office. It should also be borne in mind that accountants should not be employed in the Examiners' office otherwise than on a check of the work of clerks trained to perform the primary duties of audit and book-keeping. Taking these points into consideration, it is thought that a scale providing some ten or twelve accountants for the Examiners' office should amply suffice.

4. The great advantage that will be derived from the posting of accountants of higher grades to the offices of Executive Engineers is fully recognized, as men of experience and reliability are far more necessary for the compilation

of accounts, the interpretation of rules and direct connection with the actual disbursement of money than for the primary audit or booking of accounts and bills, under careful supervision, in an Examiner's office.

5. As regards the abolition of incremental salaries and the revision of grades of accountants, I am to say, that the proposal put forward in para. 7 of your letter meets with the approval of the Government of India, it being understood, that the revision is not to entail any additional cost, and I am to request that detailed proposals shewing the redistribution proposed may, subject to the above remarks, be submitted for the sanction of the Government of India.

6. In submitting this proposal, I am to request, that the establishment required for the Examiner's office may be shown quite distinct from that required for Divisional offices, and that the Examiner may be instructed to discuss the requirements of his own office with the Accountant General, Public Works Department, prior to submission of a proposed scale to the Government of Madras.

I have the honor to be,
Sir,
Your most obedient servant,
Wm. L. Coe, Jr.

AS Secretary to the Govt of India
