From Lieut.-Colonel D. McNEIL CAMPBELL, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department (through the Examiner, Public Works Accounts), dated Chepák, 13th February 1892, No. 88 W.

I have the honour to forward a special indent on the Director-General of Stores in England for stores required by the Superintendent of Works, No. I Periyár division, as per his original indent No. 103, dated 29th January 1892.

From L. L. WICKHAM, Esq., General Superintendent, Public Works Stores, to the Superintending Engineer, V Circle, dated Madras, 10th March 1892, No. 2095 S.

With reference to your No. 36 P.W.S., dated 7th March 1892, I have the honour to report that the indent was signed by Mr. Francis, Honorary Assistant Engineer, in my absence.

The wording of the original indent for these machines is " Rack boring machines " and not machine drills with cradle as entered by the Superintendent of No. I Periyár division in his indent.

The item taken for pricing is cast steel drills under the head of tunnelling machinery which was the nearest approach of the nomenclature " machine drills " and was naturally taken to be so by the Chief Storekeeper.

The indent is returned corrected.

A copy of the invoice will also be forwarded to the Superintendent of Works, Periyár, with the request that he will use the same nomenclature in his indents.
