H. No. 1554

Public Works Department,
Municipal Office,

Madras, 11. March 1892

R. E. ELMS, Esq., Assoc. Mem., Inst., C.E.

Vice-President, Public Works Department.

The Superintendent of Puccas 97/1
For the Town of Madras.

With reference to your letter of 14th of
the 29th ultimo, I have the honor to inform
you that, the pipes and taps in this
Pucca appear to be in order, the
branch pipe however, which starts from
our main at the Hospital bridge and
supplies your Cistern and pipes in the
water, appears to be choked by in-
crustation. I believe you have an ex-
timate from one of our plumbers to
substitute this branch by one of a
larger size and I fear that, until
that is done, or the present branch
is removed, cleaned and relaid, we

By 1792
cannot help you to a better supply. 7.3.92

The hot weather will soon be on us,
when the draught on our pipes will be

greater, and your supply still

worse. I would therefore advise

early steps being taken to have the

work in connection with your supply

pipe carried out

I have the honor to be

Sir

Your most obedt. Servt

R. E. Ellis

Vice President

P.W.D.

To

The Honble J. F. Nicoll

CHIEF SECRETARY TO GOVERNMENT

Fort St. George.

SIR,

3 Enclosures

2 Estimates
1 Letter No. 1532
6.3.92
from Mr. Ellis.

I have the honor to submit for the
very early sanction of Government
an estimate amounting to Rs. 1417-2-1
for repairs to the main pipe of the
water supply system of H. M. Prison, Madras.

2 In August last it was found
that the supply of water received in the
Prison was much smaller than
formerly and was daily decreasing.
The Vice President, P. W. D., of the
Municipality was consulted, and
advised that this was due to incrustation
of the main pipe, which was laid down
15 or more years ago, and the present
estimate was then prepared. en

Subm

Submitted to me for sanction, but without the foregoing information as to the necessity for the work. The amount of the estimate placed it beyond my powers of sanction, and I called on the Superintendent for further details, but in the meantime rain fell, the pressure in the pipes increased, and it was not found necessary to do anything.

3 With the re-approach of the hot weather, however, the difficulty has re-appeared. The Penitentiary is now receiving only 5,000 gallons of water, instead of 12,000 gallons daily, and in a letter, No 1554, dated 4th March 1892 (which I enclose in original to be kindly returned) the Vice President of the Municipality reports that matters are likely to get worse instead of better, until the pipe is repaired. Some of the taps in the blocks have already ceased to give any water, and it is feared that the supply may altogether cease to be received.

4 The work is, therefore, of an urgent character. In my letter of this date, No 86 I have pointed out that, if the proposal therein made is approved, a sum of £2,000 which has been allotted to the Department for expenditure during 1892-93, will be set free, and I would suggest that, unless the amount of the estimate can be met by a fresh grant, that sum be transferred to the Penitentiary to meet the expenditure now proposed.

I have the honor to be,
Sir,

Yours most obed^t Serv^t.

A. J. Carden

Off. Insp^r Genl of Jail.

The first item, a length of 688 ft
or 228 1/3 ft of 4" Cast iron
piping from the main line apparent
by line on the Municipal road
to out of jail limits, hence the
laying of this length of pipe is
charged to Municipal works.

The second length of 545 ft
or 181 2/3 ft of 3" Cast iron piping
apparently lies within jail
limits and this length is included
under "particulars" together with
the value of the materials for
both the lengths and for the work
of laying up of the existing 2 1/2" piping
for the 2nd length 354 5 feet of 2 1/2"

The licensed plumber being
a Municipal servant is also
permitted to undertake contracts
in laying pipes to private houses
other than Municipal work, it
when the line does not intersect
with Municipal roads.
In the present case the plumber
appears to have based his es-
timate on the understanding
that he will undertake the
work for Rs. 1417-2-1 of which
he credits the Municipality
with Rs. 253-1-3 for work to be
executed on Municipal roads.

DW

The work is a renewal
& should apparently come
under Provincial Minor
Original works.

The work will come
into the accounts of the
C.A. Division, but it will
be carried out by the
Municipality, as is usual
in all cases of water supply
to public buildings at
Madras.

The estimate can
be forwarded to the
C.A. for sanction &
execution by Municipal
Agency - If the Hon.
Agent, an allotment
to cover the cost of
the work can be made.

Dated 17th March 1892

From the Judicial Dept.

TECHNICAL NOTE.

Renewing the main pipe of the
water supply to the Penitentiary
at Madras.

Amount of Estimate Rs. 1417.2.1

The existing 2 1/2" main pipe to
the Penitentiary, which takes off from
the Municipal main pipe near
the Hospital bridge is stated to
be choked by incrustation. It is
therefore proposed to remove the
pipe and substitute the line
by pipes of larger diameter as
to discharge a larger supply
to the jail.

The estimate provides for
cast iron pipes 4" in diam. from
the Municipal main for a
length of 685 feet & from this
point to a further distance of
545 feet with 3" cast iron pipes
with the necessary reductions.

Coupling, adding, various for the
Provision is made in the estimate
for a sum of Rs 259-10-3 under
Municipal charge. This sum
is in provision for labor charges
employed in removing the existing
2 1/2" main & relaying the line
with a 4" main only on the
Municipal road from the hos-
pital bridge to the Jail limits.

The rates being special, can-
not be checked by the schedule of
rates of the C.A. Div.

The estimate is counter-
signed by the Sup. Genl. of Jails
& approved in the Judicial
Dept.
