Order—dated 16th December 1891, No. 3130 L., Local and Municipal.

The Government, having separately reviewed the reports of the several District Boards for the year 1890–91 in the Proceedings read above, now proceeds to deal with them collectively.

2. Delay in the submission of administration reports continued to be noticeable, notwithstanding the stringent orders passed in G.O., dated 29th April 1891, No. 1014 L., and in many previous Proceedings. There should no longer be any difficulty in the matter, as the Accountant-General has now arranged to revert to the date (1st June) formerly settled for closing the supplemental accounts for March, and the Presidents of Taluk Boards have been directed to adopt the preliminary accounts for March, as revised by the Engineer's figures for that month, which are generally available in April—*vide* G.O., dated 25th November 1891, No. 2939 L. Strict punctuality must, in future, be observed.

It is to be regretted that the reports and statements continued to be prepared with very insufficient accuracy and contained, as in previous years, numerous errors, omissions and discrepancies, which threw much additional work on the controlling office and entailed much delay in the preparation of this review. In many instances the errors noticed were errors of classification in the accounts, due to misconception of the rules, but by far the larger number can only be attributed to carelessness in the offices concerned. The nearest approach to absolute accuracy was obtained by the Nílgiri District Board's office, and the improvement in the work done by that of the Kistna District Board was also creditable.

I.—General.

3. *Administration.*—During the year under review, the local jurisdiction of 7 Taluk Boards—2 in North Arcot, 3 in Malabar and 2 in Tinnevelly—was slightly altered, but the total number at work underwent no change. Seven additional Unions were formed in the districts of Anantapur (1), North Arcot (1), Bellary (1), Chingleput (2), and Godávari (2), while two of the Unions previously existent in Madura were abolished and another formed in their stead. With these exceptions, the system of administration of Local Fund affairs, as described in the last General Review, continued without modification.

4. *District Boards.*—Appendix I shows the constitution of the several District Boards on the 31st March 1891 and the average attendance of the members at the meetings held by them. On the above date, there were 45 vacancies on the various Boards against 78 on the 31st March 1890, and the result of this was that the proportion of official members in Cuddapah, Madura, Nellore, Salem, Tinnevelly and Trichinopoly exceeded the maximum limit of one-fourth prescribed in the Act. These vacancies have since been filled up, but there was much delay in doing so, especially in South Arcot, Bellary, Kistna, Tanjore, Coimbatore, Ganjam, Godávari, Cuddapah, Kurnool and Salem, where, even on the 1st of May 1891, the vacancies referred to had not, for the most part, been supplied.

The proportion of nominated official members, including those *ex-officio*, to the total number of members on the several District Boards, was 23 per cent. against 25·7 per cent. in 1889–90, while that of the elected members was 44·5 per cent. against 38·6 per cent. in that year. As pointed out in paragraph 4 of the last General Review, one-half of the members on each District Board should, under the present election rules, be chosen by the subordinate Taluk Boards—a proportion which at the close of the year was attained on the District Boards of North Arcot, South Canara, Godávari and Malabar only.

On an average each Board consisted of 31 members (10 officials and 21 non-officials) against 30 (10 officials and 20 non-officials) in the preceding year, and the total number of meetings held by these bodies was 255 against 245 in 1889–90, eight other meetings as in that year being adjourned for want of a quorum. The number of meetings held in South Arcot declined considerably, and in Cuddapah, Ganjam, Godávari, Malabar, Chingleput and Vizagapatam was less than 12 each. The average attendance of the members at each of these meetings was 15 against 14 in 1889–90, but it cannot yet be regarded as satisfactory, being less than 50 per cent. of their strength. The attendance of both classes of members was fair in the Nílgiris and South Canara districts only. The official members of the Cuddapah, Malabar, Kistna and North Arcot Boards and the non-officials on those of Tanjore, Ganjam, Madura and Anantapur were particularly irregular. In reviewing the individual reports, the Government has remarked that the official members should attend the Boards' meetings as often as their other duties permit, and as regards non-official members, the attention of the Presidents of the District Boards concerned has been drawn to all the more prominent cases of neglect. It is hoped that in future the necessary action will be taken without delay for the removal of members who without sufficient excuse systematically omit to perform their duties in this respect.

5. *Taluk Boards.*—Appendix II exhibits the constitution and attendance of the 86 Taluk Boards. The number of members on 19 of these Boards at the end of the year fell below the minimum strength (12) prescribed by the Act, and in the cases noted in the margin there was a delay of more than one month in filling up the vacancies which had occurred. The Collectors concerned are requested to see that such delays do not occur in future. There was a slight increase in the uumber of meetings held, but of those convened 49 were adjourned for want of a quorum against 60 in 1889–90, the largest number being in the taluks of Hindupur (8), Kumbakónam (6), Trichinopoly (5) and Mannárgudi (4). This is not creditable to the Boards concerned. Taking the Taluk Boards of each district collectively, the largest average number of meetings held was 16 in Anantapur, 15 in North Arcot, Madura and Tinnevelly, and 14 in Cuddapah and Trichinopoly, all of which, with the exception of the last, showed an improvement on the previous year. In the remaining districts, the average number of meetings held was 13, except in Bellary, Ganjam, Kurnool, Malabar and Tanjore, where the average was 12, being the minimum number fixed under the Local Boards Act. The 10 Boards noted in the margin failed to meet once a month, notwithstanding the fact that special attention had been drawn to this matter in reviewing the reports for 1889–90. The small number of meetings held by the Malapuram and Pálghat Taluk Boards was due to the re-arrangement of the Local Fund taluks, but no satisfactory explanation has been offered in the other cases. The average attendance of the members at the meetings of Taluk Boards, though worse than in the previous year, was decidedly better than that at those of the District Boards, having been 53·2 per cent. of the total strength against 53·9 in 1889–90. The large falling off in the attendance of the official members in Chingleput and Tanjore and of the non-officials in Nellore and Salem is particularly discreditable to those concerned. The attendance of both classes of members was especially poor in Trichinopoly and Kistna, and the remarks contained in the preceding paragraph relative to District Boards should be borne in mind in this connection also.

	Vacancies.
Penukonda	2
Hindupur	2
Cuddalore	1
Tirukoilúr	1
Mangalore	1
Uppinangadi	3
Kásaragód	2
Polláchi	1

Námakal.	Pálghat.	Tiruchengód.
Mannárgudi.	Kumbakónam.	Kodavasal.
		Srívilliputur.
		Narsapatnam.
		Párvatipur.

6. *Union Panchayats.*—Appendix III furnishes statistics relative to Union Panchayats, of which there were 254 at work at the close of the year. It is observable that the Union Panchayat of Ichápur (Ganjam) alone had less than the minimum number of members (5) fixed by the Act, and the President of the District Board, in whom the nomination of members is now vested, has not explained why the vacancies were not filled up immediately. In the following cases, the number of official members continued to exceed that of the non-officials; proposals for altering the constitution of these bodies should, where this has not already been done, be submitted without further delay:—

Tadpatri.	Kamalápuram.	Gúdúr.
Penukonda.	Chennur.	Rasipur.
Bukkapatnam.	Jammalamadugu.	Dharmapuri.
Dharmavaram.	Pulivendla.	Tiruchengód.

Pólúr.	Pullampet.	Narsapatnam.
Tindivanam.	Madanapalle.	Párvatipur.
Villupuram.	Ráyachóti.	
Chengam.	Tenali.	

As appears from Appendix III, there was a considerable increase in the number of meetings held by Union Panchayats, which averaged 12·2 each against 11·4 each in the previous year; the improvement, however, was not universal, and no less than 75

of these Panchayats, excluding those newly constituted in the course of the year, failed to meet once a month, as required by section 129 of the Local Boards Act. This result was chiefly due to inefficient supervision on the part of Presidents of Taluk Boards. In such cases, a monthly return of the number of meetings held should be called for from each Panchayat, and care taken to see that any omission to hold the requisite number is fully and satisfactorily explained.

The working of these bodies was satisfactory, except in the cases noted in the margin, while in Chingleput and Godávari it is reported that they displayed much interest and discretion in the discharge of the duties entrusted to them, which continued to be of the same nature as in the previous year. The ward system of supervision in Unions, referred to in the last General Review, was extended to four more Unions in the Coimbatore district and to three in the Sivaganga taluk of the Madura district; the results of the experiment appear to have been satisfactory in the former case and have not been reported upon in the latter. The President of the Tiruvallúr Taluk Board (Chingleput) promises to give the system a trial in that taluk during the current year, and the President of the Tanjore District Board states that it has already been in force in the Tranquebar Union for the last two years. Elsewhere the subject has not been touched upon, but the system appears to be a good one, and it is hoped that it will, in the interests of village sanitation, be more extensively adopted in future.

Total Assets ..	41,57,046	44,23,034	3,72,725	89,52,805	44,36,286	45,93,629	4,29,379	94,59,294
Total Expenditure ..	33,13,210	31,57,683	3,20,410	67,91,303	35,21,131	34,15,672	3,48,747	72,85,550
Closing Balance ..	8,43,836	12,65,351	52,315	21,61,502	9,15,155	11,77,957	80,632	21,73,744

Excluding debt heads (Rs. 90,727) and contributions from the Local Boards of one district to those of another (Rs. 2,681), the actual receipts amounted to Rs. 72,04,384 against Rs. 67,54,064 in 1889–90, and the charges to Rs. 71,87,983 against Rs. 67,49,801. The year closed with a balance of Rs. 21,73,744 or 30 per cent. of the actual receipts, of which Rs. 3,01,125 appertained to endowed institutions in charge of the several Local Boards and Rs. 2,35,066 to the Railway Guarantee Fund in Tanjore. The principles upon which the receipts and charges are usually distributed amongst the several local bodies have been already described in paragraph 9 of the General Review for 1888–89 and were not contravened during the year under review. Appendix VIII shows the incidence of Local Fund taxation per head of the population in each district according to the census of 1881. The average for the Presidency was As. 2–9 excluding, and As. 3–2 including, tolls, or very nearly the same as in 1889–90, when it was As. 2–9 excluding, and As. 3–1 including, tolls. Taxation was lightest in Malabar (As. 2–2) per head including tolls, and heaviest by far in Nílgiris (As. 10–4), though less than in the previous year. Excluding the latter district, the circumstances of which are peculiar, the incidence, including tolls, was in excess of As. 4 per head in Kistna, Godávari and Bellary only.

II.—Receipts.

8. *Receipts.*—Appendices IV and IX show the total receipts of all Local Boards under the several heads compared with the actuals of 1889–90. The year opened with a balance of Rs. 21,61,502 against Rs. 21,48,677 in the previous year, the increase being most marked in Vizagapatam (Rs. 89,188), Madura (Rs. 60,859), Godávari and North Arcot. There was, however, a corresponding decrease in Nellore (Rs. 73,851), Kurnool (Rs. 54,225), Tinnevelly (38,416) and Malabar. The current receipts amounted to Rs. 72,04,384 against Rs. 67,54,064 in the previous year. The following abstract shows the receipts under the various heads compared with those of the previous year:—

—	1889–90.	1890–91.	Percentage of total receipts. 1889–90.	Percentage of total receipts. 1890–91.

9. *Land-cess.*—This tax continued to be collected at the rates specified in paragraph 13 of the General Review for 1889–90, and, as in that year, a portion of the proceeds was reserved in Tanjore for railway purposes. The current demand showed a very considerable advance, but the collections were inferior to those of the preceding year. The increase was most marked in the Kistna district, amounting to Rs. 88,917, and was principally due to the settlement during the year under review of the demand on certain zemindaries. On the other hand, the amount of the current demand declined in Anantapur, North Arcot, Chingleput, Cuddapah, Malabar and Trichinopoly, probably in consequence of the unfavorable season. The collections under this head amounted to 91 per cent. of the total demand against 92 per cent. in 1889–90. As in the preceding year, the best work in this respect was done in North Arcot, notwithstanding the adverse season, and in Madura. The improvement in Nellore and Godávari is also satisfactory. In Chingleput, the collection of a large portion of the current demand was postponed in consequence of the prevalent scarcity, but the very poor work done in Ganjam has not been satisfactorily accounted for.

Appendix X.

10. *Tolls.*—It will be seen from Appendix XI that eight additional toll-gates were opened in Kistna and Tinnevelly and ten others closed in South Arcot, Chingleput, Kurnool, Malabar and Tanjore, the net result being a decrease of two in the total number. The toll system in South Arcot has since been entirely revised and the number of gates reduced from 37 to 18, with effect from the commencement of the current year, in view to reduce the burden on local traffic referred to in paragraph 15 of the last General Review. The question of redistributing the gates in Malabar also was under the consideration of the District Board at the close of the year. In certain cases, tolls on roads under the control of the Public Works Department or of Municipalities were collected by District Boards under the arrangements referred to in the General Review for 1889–90. Tolls were, as usual, levied, in most cases, at half the maximum rates and in the rest at the maximum rates, except at the Talavalsa gate in Vizagapatam, where they were levied at one-fourth rates, and at the Sátúr bridge in Tinnevelly, where one anna was levied on each cart, laden or unladen, all animals being allowed to pass free. This latter arrangement has now, however, been discontinued.

The total Local Fund income derived from this source was Rs. 7,35,667 against Rs. 7,54,849 in the preceding year, the decline being owing principally to a large decrease in the amount contributed by Municipalities in consequence of the default of certain Municipal Councils in paying their dues. In Anantapur, North Arcot, Bellary, South Canara, Kurnool, Madura, Nílgiris, Salem and Vizagapatam, the whole of the demand from Local Fund toll-gates was realized, and this was very nearly accomplished in Tanjore also. The failure of the other District Boards to collect the full amount before the close of the year has been duly noticed in reviewing their individual reports, and will, it is hoped, not be allowed to recur. The collections in Nellore (74 per cent.) were again the worst, and they were also bad in Kistna and Tinnevelly. Excluding contributions to Provincial and Municipal Funds and charges for establishment, &c., the net income derived from tolls was, generally speaking, sufficient to defray 31 per cent. of the expenditure on Local Fund roads. In South Canara, South Arcot and Bellary, over 70 per cent. of the road outlay was met from this source.

11. *House-tax.*—Except in 71 Unions in the districts noted in the margin, funds for the extension of village sanitation were raised by local taxation during the year under review in all the Unions of the Presidency. In Cuddapah the house-tax has not yet been introduced, but the question of doing so has been referred to the District Board for consideration. One Union in Trichinopoly was, for the first time, assessed towards the close of the year under review, but the imposition

Appendices XII and XIII.

North Arcot	5	Tanjore	8

Coimbatore	12		
Cuddapah	17	Total	71
Ganjam	1		
Kistna	2		

of the tax in the Krósúr Union, in the Kistna district, had to be deferred owing to the incompetence of the Chairman.

It is to be regretted that the collections under this head continued to be far from satisfactory; they amounted to 84 per cent. of the demand against 83 per cent. in 1889–90; it is hoped that closer supervision will be exercised by Taluk Board Presidents over this matter in future. As in the previous year, the best work was done in Chingleput, but there was a regrettable falling off in Kistna and Bellary. In Kistna the poor outturn was due to the incompetence of two Panchayats, and a similar cause was in operation in Anantapur, where the collections were also bad. In Ganjam and Kurnool, the work appears to have been very inefficiently supervised.

Appendix XIII shows the incidence of the house-tax in those Unions in which it was levied as well as other particulars connected with its collection. The total number of houses assessed was 324,919 and the demand Rs. 1,79,012. Judging from the fact that, as a general rule, the number of houses assessed to the tax exceeded, according to the census of 1881, the number in the villages concerned, due care seems to have been taken, in most instances, to prevent evasion of payment. The most striking exceptions were the Unions of Pithápuram, Sámalkót and Amalápuram in Godávari, Batlagundu, Rámesvaram and Tirupatúr in Madura, Tiruchengód in Salem, Tiruturaipúndi in Tanjore, Melaviraragavapuram and Kulasekharapatnam in Tinnevelly, and Lálgudi in Trichinopoly. In all the Unions in the Vizagapatam district, excepting Narsapatnam and Yellamanchili, more than 50 per cent. of the houses concerned were unassessed. This is ascribed to their being of small value, but, as directed in the review of that report, further inquiries should be made, as it is improbable that such wholesale exemptions are warranted by the circumstances of the district. The subject should also receive attention in the other cases referred to. The average incidence per house taxed continued to be nearly the same as in the previous year, ranging between Rs. 2–13–9 in Kodaikánal in the Madura district and As. 2–4 in Pallapatti in Coimbatore. The incidence was throughout extremely low in the Unions in the Coimbatore (As. 4–3), Kistna (As. 5–2), and Nellore (As. 5–4), districts. It is satisfactory to observe that coercive processes were but little resorted to and that property was sold for the realization of the tax in only 139 cases against 163 in the preceding year.

12. *Educational.*—The receipts under this head amounted to Rs. 1,79,428 against Rs. 1,62,386 in 1889–90. The amount classed as "Income from endowments" represents, as in the previous year, the rent of the lands attached to the Ponnoor school (Kistna) and the receipts of the Moyan endowment attached to the Female Normal school at Tellicherry, together with the proceeds of a decree realized by sale from the late manager of the Tenkási school (Tinnevelly). The sum of Rs. 8,333 shown under the head "Contributions from private individuals" includes a contribution of Rs. 6,645 received from the Madura Jubilee Committee on account of the museum and library proposed to be established in that town.

13. *Medical.*—The receipts under this head amounted to Rs. 24,453 against Rs. 22,988 in 1889–90. The rent of lands attached to the dispensaries at Saidápet (Chingleput), Tiruvadani (Madura), Ponáni (Malabar) and Rayacotah (Salem) forms the income classed as derived from endowments. It is to be regretted that only Rs. 10,733 were contributed by private individuals in support of medical institutions during the year under review, against Rs. 14,318 in 1889–90.

14. *Interest.*—The investments made by Local Boards in favour of endowed institutions under their charge amounted to Rs. 14,86,696 against Rs. 14,33,491 in 1889–90, and the interest derived therefrom was Rs. 58,754, against Rs. 54,363, as shown in Appendix XIV.

15. *Miscellaneous.*—The receipts connected with choultries, markets, bungalows, &c., as detailed in Appendix IX, amounted to Rs. 6,37,116 against Rs. 6,00,457 in 1889–90. The variations under the several items are noticed below:—

(*a*) *Choultry Rents.*—The total amount included under this head shows a decline of Rs. 1,834. The most important variations occurred in Tanjore, Tinnevelly and Madura. In Tinnevelly there was a decrease of Rs. 7,884, due to non-collection of certain rents in the Shermádevi and Tuticorin taluks, owing to the unfavorable nature of the season and the consequent failure of crops. There was also a decrease of Rs. 2,071 in the Madura district, which is ascribed chiefly to a large quantity of paddy belonging to the Narikudy and Muttanandal chattrams not having been sold during the year. On the other hand, there was an increase of Rs. 8,153 in Tanjore, which has not been explained.

	Rs.
1889–90	1,91,844
1890–91	1,90,010

(*b*) *Market Rents.*—The receipts from markets under the control of Local Boards were almost the same as in 1889–90, though there was an increase in the number both of such institutions and of those in which fees were levied. Their condition was, on the whole, good, and they are reported to have been freely resorted to by the public. The transactions relating to markets are kept distinct from other Local Funds, and the necessity for expending the large balances which continue to accumulate in their favour has repeatedly been inculcated upon Local bodies without apparently producing much effect. It is to be hoped that early steps will now be taken to carry out the wishes of Government in this respect.

	Number of markets.	Number in which fees were levied.	Receipts.
			Rs.
1889–90 ..	382	342	1,09,876
1890–91 ..	403	348	1,09,150

(*c*) *Bungalow Fees.*—There were 290 bungalows under the control of Local Boards at the close of the year under review. Their condition is reported to have been satisfactory except in the following cases:—

(1) Anantapur	Rayalcheru.
(2) Arcot, North	Ponnai and Tirupati.
(3) Arcot, South	Ammapet, Ulundurpet, Chinnasalem, Merkánam and Tiruvannámalai.
(4) Chingleput	Gummudipundy.
(5) Madura	Paramakudi.
(6) Tinnevelly	Koilpati.

Steps will, it is hoped, be taken to improve these without delay. Some of those in Anantapur, South Arcot and Ganjam are stated to have been in some respects deficient in furniture, which should now be supplied.

(*d*) *Ferry Rents.*—The large increase observable under this item occurs chiefly in Godávari and was due to the credit to Local Boards of the funds appertaining to those ferries the management of which was transferred to them on the introduction of Act II of 1890.

	Rs.
1889–90	21,331
1890–91	48,677

(*e*) *Fishery Rents.*—Considerable variations in the income derived from this source occurred in the following districts:—

	Rs.
Ganjam	+ 9,659
Tanjore	+ 2,893
Coimbatore	+ 1,090
South Arcot	— 1,124
Kistna	— 1,574
Madura	— 2,897
Tinnevelly	— 3,805

In Ganjam, the increase is ascribed to the promptitude with which the arrears of previous years were realized; in Tanjore, it was due to competition at the sale of the leases and to the additional tanks leased out; while the decrease in Tinnevelly is attributed to the unfavorable state of the season and the absence of competition at

sales. The variations in other districts have not been explained. Of the total income under this head, Rs. 1,09,991 were collected by the Revenue Department, and the remainder, Rs. 3,449, by the Public Works Department.

(*f*) *Avenues.*—Appendix XV exhibits statistics of avenue trees in the several districts. 15,845 miles of roads out of 24,788 were provided with avenues. It is observed that the income from this source, Rs. 90,120, exceeded the expenditure, Rs. 82,231, on planting and maintenance. The gradual increase which has taken place in the number of trees and in the mileage of roads with avenues is, however, satisfactory, and it is hoped that the subject will continue to receive the attention of all Local Boards.

16. *Contributions from Provincial Funds.*—The amount shown under this heading differs but slightly from that credited in 1889–90. The increase, however, appears in every district except South Canara, Ganjam and Madura. The absence of any special grants to these districts, such as those referred to in paragraph 25 of the last General Review, accounts for the decline in these cases. On the other hand, a contribution of Rs. 29,763 was paid to the South Arcot District Board to be disbursed to the French Government on account of the Chunambar bridge, and a sum of Rs. 20,000 was advanced to the Chingleput District Board in order to enable it to repair certain roads near Madras. With these exceptions, the grants made differed little from those enumerated in the last Review.

	Rs.
1889–90	3,02,263
1890–91	3,07,273

17. *Contributions from Special Funds, Canal and Ferry Fund.*—The sum of Rs. 2,80,513 shown under this head represents the surplus collections at the ferries in the districts of South Canara, Kistna, Malabar, Tanjore and Trichinopoly, established under Madras Act I of 1870, which have been made over to the respective District Boards, and Rs. 36,980 placed at the Godávari District Board's disposal for the construction of an iron girder bridge over a salt creek, together with the surplus to the credit of the same fund which was handed over to that Board on the introduction of Madras Act II of 1890. The very large increase, as compared with the previous year, occurs, therefore, almost entirely in Godávari.

18. *Contributions from Municipalities*, amounting to Rs. 10,977, were received for the following purposes, against Rs. 11,088 in the preceding year, these items being included under the respective heads in Appendix IX:—

	1889–90.	1890–91.
	Rs.	Rs.
Education	1,125	2,395
Medical	3,253	2,935
Public Works	6,308	5,450
Miscellaneous	402	197
Total ..	11,088	10,977

III.—Expenditure.

19. *Grant I, Public Works.*—The total outlay on public works amounted to Rs. 35,03,778 against Rs. 32,69,754, as shown below, and amounted to 48 per cent. of the year's receipts as well as of the total expenditure:—

Appendix XVII.

	1889–90.	1890–91.
	Rs.	Rs.
By the Engineering establishments employed by Local Boards	30,58,025	33,18,301
By the Revenue Department on behalf of Local Boards	1,44,327	1,28,437
By the Public Works Department on behalf of Local Boards	67,402	57,040
Total ..	32,69,754	35,03,778

An expenditure of Rs. 30,54,884 or 91 per cent. of the allotment was incurred on roads, bridges, &c., against Rs. 29,18,899 or 88 per cent. in 1889–90. Of this sum Rs. 30,05,569 were spent by the Engineering establishments employed by the Local Boards and by the Revenue Department, and the remainder, Rs. 49,315, by the Public Works Department on the construction of the Talavassal bridge in Salem, the causeway across the Pálár between Ranipet and Arcot in North Arcot and on the construction and maintenance of roads running along tank bunds and canal and channel banks in the districts of South Arcot, Cuddapah, Ganjam, Godávari, Kistna, Madura, Nellore, Tanjore, Tinnevelly and Trichinopoly. The expenditure on the construction and repair of buildings, such as schools, hospitals and dispensaries, choultries, bungalows, &c., amounted to Rs. 2,24,844 against Rs. 1,50,309 in 1889–90. The former sum includes Rs. 6,737 spent by the Public Works Department on the construction of the Jubilee Museum building at Bezváda in Kistna. The outlay on Miscellaneous Public improvements, comprising avenues, markets, tanks, wells, &c., amounted to Rs. 2,24,050 against Rs. 2,00,546 in the previous year. Included in this amount are Rs. 988 expended by the Public Works Department in South Arcot and Godávari on petty works.

It is satisfactory to note that the proportion of the total expenditure by the Local Fund Engineering establishments on public works to the sanctioned allotments exceeded that of the preceding two years by 4 and 2 per cent., respectively. There was an improvement in the districts of Kurnool, Anantapur, Chingleput, Coimbatore, Tinnevelly, South Canara, Kistna, Nellore, Madura, Tanjore, Trichinopoly, Godávari and Salem, the increase being most marked in Salem, Nellore and Kistna, and a retrogression in 5 others (Nílgiris, South Arcot, Malabar, North Arcot and Vizagapatam). The full amount was expended in Kurnool, and continued good work (99 per cent.) was done in Ganjam. The explanations furnished for the short outlay by the Malabar and Salem District Boards have not been accepted as sufficient and that of the North Arcot Board is not altogether satisfactory. The poor work done in Vizagapatam is attributed to the inefficiency of the Local Fund Engineer, whose services should, as observed in reviewing the administration report of that district, be dispensed with if no improvement takes place; and in Godávari the causes assigned for the short expenditure have been considered to be most discreditable to the Local Fund Engineering establishment and call for the personal and immediate attention of the President of the District Board. The practice of spending small sums of money on numerous works instead of selecting a few and carrying them out to completion continues still to prevail in the last-mentioned district, notwithstanding the remarks contained in paragraph 30 of the General Review for 1888–89. As this is an extremely wasteful system of procedure, it will, it is hoped, be discontinued in future. The delay in the execution of works in Bellary is ascribed to the defaults made by contractors, but for this the Local Fund Engineer is plainly responsible as the selection of suitable men and the due enforcement of contracts rests entirely with him.

	Per cent.
1888–89	85
1889–90	83
1890–91	87

20. *Roads.*—Excluding certain portions of the main lines of communication in Nílgiris and Malabar, which were in charge of the Public Works Department, the total mileage of other roads under the control of Local Boards at the commencement of the year, the length maintained during the year and the cost of keeping them in repair are exhibited in the following statement together with the figures for 1889–90:—

Appendix XVIII.

—	Mileage of roads under Local Boards at the commencement of the year.	Mileage of roads maintained.	Cost of maintenance.	Mileage of new roads completed during the year.	Cost of new roads completed.	Mileage of roads under construction.	Cost of roads under construction.
1889–90.			Rs.		Rs.		Rs.
Village	5,007	2,157	1,48,894	76	34,874	49	9,600
Taluk	10,292	9,024	7,64,921	56	82,561	69	20,903

Total ..	24,598	20,110	22,07,030	190	2,27,125	190	26,147

* Variations between these figures and those of 1889–90 due to revised classification.

Though the total length of road actually maintained during the year was more than that of its predecessor by 294 miles, it was less than in 1888–89 by 201 miles. The variations leading to this result have not, on the whole, been satisfactorily explained, except in Nellore, where the falling off of 114 miles as compared with the previous year is ascribed to an error in the figures reported, the number of miles on which money was actually spent having been given instead of the number ordinarily maintained.

The expenditure on new roads, including those in progress but not yet completed, was large in Kistna, being more than one-third of the total outlay by all the Local Boards taken together. In the remaining districts it was less than Rs. 10,000, except in South Canara, Godávari, Madura, Nellore and Tinnevelly, where it ranged between Rs. 10,000 and Rs. 20,000.

It is to be regretted that the expenditure on village roads remained almost the same as in 1889–90, being only 8 per cent. of the total outlay on roads. The proportion continued to be largest in Bellary (31·1 per cent.), although less than in the previous year. It was also fairly good in Madura and Nellore, but showed an unsatisfactory falling off in South Canara, Chingleput, Coimbatore, Ganjam, Godávari, Kistna, Malabar, Nílgiris, Tanjore and Tinnevelly. In reviewing the individual reports, the attention of the Local Boards of these districts has been drawn to the low proportion of their expenditure under this item, and the Government trusts that increased energy will be displayed by them in future.

The average cost of maintaining each mile of road was Rs. 110 against Rs. 107 in 1889–90. It was very high in the districts of Nellore (Rs. 210), Kistna (Rs. 186), Chingleput (Rs. 170), Vizagapatam (Rs. 166), Malabar (Rs. 147), Godávari (Rs. 136) and Madura (Rs. 134); and lowest in those of South Canara (Rs. 54), Anantapur (Rs. 60), Kurnool (Rs. 63), Cuddapah (Rs. 65) and Salem (Rs. 70).

The condition of the roads is reported to have been fair in Anantapur, South Canara, Godávari, Madura, Tanjore and Trichinopoly. This was also the case in Chingleput and Tinnevelly; but owing to want of rain many necessary repairs had to be postponed in the former district, and some of the district and taluk roads in the latter are also stated to have been but indifferently attended to. In North Arcot, owing to the imperfect supervision exercised by the Local Fund Engineer, the roads, although in fair order, are reported to be worse than they should be, and the advisability of dispensing with the services of the present incumbent has been referred for the consideration of the President of the District Board. The condition of many of the roads in South Arcot is stated by the Local Fund Engineer to be inferior, although

some improvement has been effected. Portions of those in Coimbatore, Kistna and Nílgiris were also in bad order, and in Bellary, Cuddapah, Ganjam, Salem and Vizagapatam, the roads, as a whole, were in a far from satisfactory condition. The attention of the Local Boards concerned has been already drawn to this matter. The general condition of the roads in Kurnool has not been reported — an omission which should not again occur. The report received from the President of the Cuddapah District Board regarding the working of the new system of road management by contracts for maintenance, lately introduced into that district, and referred to in paragraph 32 of the General Review for 1889–90, showed that an improvement has been gradually taking place, although, as observed above, the results were still poor. The District Board's proposal to continue this system was accordingly approved and the President's report circulated to the Presidents of other District Boards for information.

21. *Establishment, &c.*—As in previous years, every District Board maintained its own Engineering establishment for the execution of public works, the cost thereof being generally met, in proportion to the outlay incurred, from the District and Taluk Funds, respectively. A few special works, such as the construction of important bridges and the maintenance of roads running along tank bunds and channel banks, were, however, entrusted to the Public Works Department. The Local Fund Engineering establishments worked directly under the control of the District Boards and their total cost including contingencies amounted to Rs. 5,59,379 or 17 per cent. of the outlay on works executed by them against Rs. 5,51,495 or 18 per cent. in the previous year, the maximum limit fixed by Government being 20 per cent. and the rate payable to the Public Works Department for carrying out Local Fund works being 23 per cent. There was a reduction in the districts of Trichinopoly, Godávari, Chingleput, Kistna, South Arcot, Madura, Coimbatore, Tanjore, Salem, Nílgiris, Ganjam, Malabar and Anantapur, the decrease being most marked in Salem, Malabar and Kistna, and is creditable to the Boards concerned. In South Canara and Vizagapatam the cost remained the same as in 1889-90, while in the remaining six districts (Kurnool, North Arcot, Bellary, Cuddapah, Tinnevelly and Nellore) it exceeded that of the previous year, the excess being very large in Kurnool. The expenditure under this head was lowest in Chingleput, Godávari and Trichinopoly, being less than 15 per cent. of the outlay on works, while it was very high in Kurnool (32 per cent.), Bellary (25 per cent.) and North Arcot (21 per cent.). In Kurnool this unsatisfactory result is attributed to the small amount available for expenditure. In the separate review of this Board's administration report, the Government has directed that every effort should be made to provide additional funds in future, and has suggested in this connection the extension of the toll system in the district. The District Board of Bellary has already been warned that, unless the Engineering staff turns out more work in the current year, a reduction in its cost will have to be insisted upon. The excess outlay in North Arcot appears to have been due to special causes and calls for no remark.

A sum of Rs. 9,600 was contributed to the Public Works Department for the execution of Local Fund works in the districts of North Arcot, South Arcot, Cuddapah, Godávari, Kistna, Madura, Nellore, Salem, Tanjore, Tinnevelly and Trichinopoly. In addition to this, Rs. 18,349 were contributed on account of the scrutiny of plans and estimates for Local Fund works, at the rate of 2½ per cent. on their value.

The total charges incurred on account of toll and ferry establishments amounted to Rs. 3,451 against Rs. 6,710, the decrease occurring chiefly in North Arcot and Malabar.

The outlay on tools and plant was Rs. 41,520, or 1·03 per cent. of the total expenditure on works, against Rs. 34,636, or 1·1 per cent. in 1889–90, the maximum limit fixed by Government being 1 per cent. for all districts except Nílgiris. The cost was very high in the districts of Godávari (2·7 per cent.), Ganjam (1·4 per cent.) and Madura (1·3 per cent.), and the attention of the Boards concerned has been drawn to the matter in the individual reviews.

22. *Contributions*, amounting to Rs. 1,22,157, were paid to Provincial, Municipal and other funds, against Rs. 1,49,033 in the previous year. Those disbursed by the South Arcot District Board on account of the Ponniár and Gadilam bridges for

1889–90 formed, as before, the principal item under this head. The payment of further contributions on this behalf has been remitted in consequence of the revision of the toll system in the district referred to in paragraph 10 *supra*.

23. *Grant II, Education.*—The lines on which the educational operations of Local Boards were conducted underwent no change during the year under review, at the end of which there were 2,345 Local Fund schools with 93,252 pupils against 2,008 schools with 83,141 pupils in 1889–90. Of these, all but 95 schools, against 88 in the previous year, belonged to the primary grade. There were a few girls' schools, and in some others girls as well as boys were admitted. The total number of girls educated by Local Boards was 11,919 against 8,360 in the previous year; but the increase is of no importance so far as Local Boards are concerned, as the furtherance of female education devolves principally on Provincial Funds. The total outlay under the head of Education, exclusive of the expenditure on school buildings (Rs. 36,960), included under Grant I, amounted to Rs. 9,41,253 against Rs. 8,05,355 in 1889–90, the increase occurring chiefly under Training schools, Board's Primary schools and Results grants. The receipts and charges connected with the several Board and Aided schools, as shown in the appendices,* do not, however, include receipts from the sale of books and contributions from Municipalities or charges connected with the purchase of books and other miscellaneous items.

Appendices XIX to XXII.

24. *Inspection.*—There was no change in the agency by which the educational operations of Local Boards were supervised. There were 164 inspecting schoolmasters against 162 in 1889–90; these visited 19,989 † villages and prepared 19,739 † schools for examination, the corresponding figures for the previous year being 19,846 and 16,607. Their work was generally satisfactory, and the charges on account of them were Rs. 78,446 against Rs. 72,671 in 1889–90.

25. *Training Schools.*—Each District Board continued to support at least one school of this description, while there were as many as 7 such schools in Malabar, of which one, maintained from the Moyan Endowment Fund, was devoted to the training of female teachers only. In all these institutions—of which there were 33 at the close of the year against 32 in that preceding—953 students were trained during the year, being 120 more than in 1889–90. The number of pupils under training on 31st March 1891 was very small in the schools noted in the margin, owing, evidently, to the date of admission having been altered from the 1st January to the 1st April. Excluding 55 students who had already passed either the Middle School or the Special Upper Primary examination, 727 pupils appeared for the latter examination, of whom 398 or 55 per cent. passed against 57 per cent. in the preceding two years. The decline in this respect is much to be regretted. Taking the schools individually, the results were extremely good in the Ráyachóti, Malapuram, Tellicherry and Calicut (Mappila) schools, and fair in the others, except those of Ranipet, Chittoor, Tiruvannámalai, Bellary, Mangalore, Berhampore, Nandiyál, Madura, Tirúr (Mappila), Tellicherry (female), Salem, Tanjore, Veeraraghavapuram and Perambalúr. The total cost of these institutions was Rs. 92,621 against Rs. 82,533 in 1889–90.

* These appendices have been compiled from Statements IX and X submitted with the District Board's Reports. The financial transactions shown therein do not agree in some cases with the Accountant-General's figures in Appendices IV and V. The figures given in paragraphs 25 to 31 have been taken from Appendices XIX—XXII.

† The statistics of 1890–91 not having been completely furnished in the case of Cuddapah, Kurnool, Salem and Vizagapatam, the figures of 1889–90 have been adopted for these districts.

Deducting, however, the grants from Provincial Funds, school fees and other miscellaneous receipts, the net cost was Rs. 56,156 or Rs. 131 for each successful student against Rs. 50,480 and Rs. 126, respectively, in the previous year. The average cost was very low in the Tellicherry (Mappila) (Rs. 57), Rajahmundry (Rs. 69), Vizagapatam (Rs. 72), Chicacole (Rs. 74), and Malapuram (Mappila) (Rs. 75) schools, but very high in those noted in the margin, owing apparently to the small number of students trained and to the low percentage of passes secured. From the information furnished by the several District Boards,* it would appear that, out of 19, 239 teachers employed in the Board and Aided schools, only 6,080 were in any way qualified. The maintenance of these institutions, except those in Madura and Tinnevelly, will, however, in future form no part of the work of Local Boards, as it has been decided, with a view to improve their efficiency, to manage them departmentally at the cost of Provincial Funds with effect from 1st January 1892.

26. *Sessional Schools.*—There were 33 schools of this description in the districts noted in the margin against 30 in 1889-90, and they were attended by 332 students against 334 in that year; their cost, however, amounted to Rs. 4,331 against Rs. 2,701. It is to be regretted that in Tanjore no Sessional school was opened during the year, owing to the inspecting schoolmaster having been employed on census duties, and that in Malabar only 5 schools were at work against 10 in the previous year. Excluding 2 schools in Coimbatore, the pupils of which do not appear to have been sent up for any examination, the results of the examination of these schools, except those of Palmanér, Sidhout, Putúr and Nángunéri, were, on the whole, satisfactory. In reviewing the individual reports, the Government has again drawn the attention of the District Boards to the advisability of extending this system.

27. *Technical Schools.*—The Training school at Madura was re-organized and amalgamated with the Municipal Industrial school, under the name of the Technico-Normal Institute, and in Kistna an industrial department was added to the Training school at Masulipatam. Both these institutions appear to have done good work. There were also a few carpentry classes attached to some Board schools; but, as stated in paragraph 43 of the General Review for 1889–90, the Government has ruled that no expenditure should be incurred from Local Funds on technical education unless adequate provision has previously been made for the extension of general education of the primary standards.

28. *Secondary Schools.*—There were 95 Secondary schools with 5,427 pupils at the end of the year, against 88 schools with 5,332 pupils in 1889-90. Of these, 12 were High schools and the remaining 83 Middle schools. From the High schools, except the one at Harpanahalli, 116 students appeared for the Matriculation examination, of whom 45 passed, the corresponding figures of the previous year being 128 and 46. The results achieved by the Chittoor High School continued to be good and those of Tiruválúr and Amalápuram fair, while the Kundapur school did extremely ill, less than 25 per cent. of the students presented having passed. These schools also sent up 232 pupils for the

Appendix XX.

*The statistics of 1890–91 not having been furnished in the case of Anantapur, the figures of 1889–90 have been adopted for this district.

Middle School examination, of whom, as in the preceding year, about 50 per cent. passed. The results were exceedingly discreditable in Harpanahalli, Ellamanchilli and Udamalpet. From the Middle schools 555 pupils were presented for the Middle School examination, of whom 244 or 44 per cent., passed, against 173 or 36 per cent. in the previous year. The results produced by the schools noted below were very bad, but, unless the members of the Local Boards concerned take due personal interest in the matter, no improvement can be expected :—

District.	Name of school.	No. presented.	No. passed.
Arcot, North	Tirutani	10	1
Ganjam	Russellkonda	18	3
Malabar	Badagara	11	1
	Kottai	6	1
Nellore	Kavali	25	4
Salem	Hosur	14	3

Taking only the Upper Secondary schools and departments, which were all maintained on the salary system, it is observed that the average net cost per pupil was Rs. 21–12–8 against Rs. 20–0–11 in the previous year. The Local Boards of Godávari and South Canara managed the schools under their control at a profit of Rs. 252 and Rs. 490, respectively, and the expenditure per pupil was not excessive in Tanjore (Rs. 19–5–2) and North Arcot (Rs. 25–5–7); on the other hand, it was exceedingly high in Trichinopoly (Rs. 67–11–5), Bellary (Rs. (55–3–2), Vizagapatam (Rs. 41–7–6) and Coimbatore (Rs. 40–14–8). The net cost of the Lower Secondary schools and departments on the salary system exceeded that in the previous year by Rs. 1–3–3 per pupil. It was satisfactorily low in Godávari (Rs. 1–3–10), Cuddapah (Rs. 3–14–11) and Salem (Rs. 4–11–6), but very high in Anantapur (Rs. 26–13–0), Ganjam (Rs. 25–5–1), Kurnool (Rs. 18–3–1) and Trichinopoly (Rs 17–1–0). The Local Boards of North Arcot, South Canara and Malabar were the only ones that worked these institutions at a profit. The Lower Secondary departments and schools on the salary-result system, which in 1889–90 were worked without loss, cost, on the other hand, Rs. 2,106, or Rs. 7–8–9 per pupil, during the year under review. In South Canara, Trichinopoly and Vizagapatam, these schools were worked at a small profit to the Boards concerned, but elsewhere the cost was rather high, ranging from Rs. 14 to Rs. 32 per pupil. Immediate steps should now be taken to carry out the directions of Government contained in the last two General Reviews regarding the abolition of such of these schools as are not self-supporting, as their retention in their present unsatisfactory condition is for the most part, a mere waste of money.

28. *Primary Schools.*— The number of Primary Board schools rose from 1,920 in 1889–90 to 2,250 during the year under review, while the attendance at them increased from 77,809 to 87,825. The increase, especially in Malabar in which a large number of schools previously aided on the combined system were taken under the direct management of the Boards, is very encouraging. Dealing with the Upper and Lower Primary departments of these schools separately, it is observed that the cost of educating each pupil in the Upper departments was either *nil* or extremely little in North Arcot, South Canara, Coimbatore, Malabar, Salem, Tanjore and Tinnevelly. On the other hand, the average cost was very high in Nílgiris (Rs. 56), Bellary (Rs. 20–0–5), and Vizagapatam (Rs. 20–0–10). The net cost of the Lower Primary classes was not excessive, except in the districts of North Arcot, Nílgiris, Kurnool and Cuddapah, where it ranged from Rs. 9 to Rs. 7 per pupil. The total number of pupils that appeared from these schools and from the Primary departments of the Secondary schools for the several standard examinations was 43,178, of whom 31,753 or 74 per cent. passed against 25,534 or 72 per cent. in 1889–90. The progress of these schools may, therefore, be considered to have been, on the whole, creditable.

30. *Aided Schools.*—There were 7,681 schools of this class attended by 202,096 pupils on the 31st March 1891, against 7,441 schools with 182,391 pupils on the corresponding date in the previous year.

Appendix XXI.

This increase, notwithstanding the fact that a large number of such schools were taken under the direct control of the Boards concerned during the year, is noted with much satisfaction, as is also the enhanced expenditure incurred under this head.

	Rs.
1889–90	1,99,565
1890–91	2,15,196

Only 4·9 per cent. of the allotments provided for this purpose remained unutilised as against 22·7 per cent. in 1889–90. The outlay exceeded the budget provision, owing mainly to payment of the arrears of previous years, in the districts of Chingleput, Coimbatore, Ganjam, Kistna, Malabar and Nílgiris, and the proportion was 95 per cent. and upwards in Ganjam, North Arcot, South Canara, Kurnool, Nellore and Trichinopoly; but in the marginally noted districts it was less satisfactory, though everywhere better than in the previous year except in Tanjore. The short outlay in Godávari is ascribed to over-estimate and to non-presentation of certain certifying memoranda for payment before the close of the year; the attention of the Director of Public Instruction has been drawn to this matter in the review of this Board's report. That in South Arcot was also due to the same causes and to the fact that some schools were obliged to forfeit their grants, either wholly or partially, on account of irregularities in the maintenance of their registers, whilst some others collapsed altogether. No satisfactory explanation has been furnished for the small percentages in the other districts.

Bellary	74·4
Godávari	81·0
Vizagapatam	82·0
Tanjore	83·2
Arcot, South	83·5

31. *General Educational Results.*—The total net expenditure on education incurred by the Local Boards was 9·0 per cent. of the current income against 8·4 per cent. in the previous year. The outlay was above the general average in all the districts except Godávari, Kistna, Madura, Nílgiris, Tanjore and Tinnevelly, the allotments in these cases, except in Nílgiris, the circumstances of which are peculiar, should be raised in the current and ensuing years. The proportion of pupils receiving instruction in the Board and Aided schools to the male population of school-going age, calculated at 7½ per cent. on the census figures of 1881, was 14·02 per cent. against 12·6 per cent. in 1889–90. There was an advance in all the districts except Tinnevelly, where, however, in spite of the slight decrease, the proportion was still greater than in any other district. It exceeded 21 per cent. in Ganjam and Bellary also—a very creditable figure for districts which are backward in higher education—and was fair in Malabar (19·1 per cent.), Kistna (16·7 per cent.), and Chingleput (16·2 per cent.). In the remaining districts, with the exception of South Canara, Godávari and Nílgiris, the percentage was less than the general average, and was unduly low in Cuddapah (7·9 per cent.), Vizagapatam (9·2 per cent.), Anantapur (9·4 per cent.), and Salem (9·6 per cent.). In Cuddapah the adoption of the suggestions made by the Director of Public Instruction in his special report referred to in paragraph 50 of the General Review for 1889–90 will, it is hoped, be attended with material improvement in future years. With regard to the other districts, it can only be said that the subject of education should have prominent attention and that every effort should be made to extend and improve it as soon as possible.

Appendix XXII.

32. *Grant III, Medical Services, Sanitation, &c.—Hospitals and Dispensaries.*—It is satisfactory to note that there was an increase of 26 in the total number of hospitals and dispensaries maintained by Local Boards. Of these, 97 were hospitals and 223 dispensaries against 93 and 201, respectively, in 1889–90. The number was still unduly small in the districts of Coimbatore, Ganjam, Godávari, Malabar, Trichinopoly and Vizagapatam, being less than one for every 100,000 of the population. Any considerable increase in the number is, however, impeded by the difficulty, which will be gradually remedied, of obtaining qualified medical subordinates. Four additional dispensaries sanctioned

Appendix XXIII.

during the year in Coimbatore and Godávari were, owing to this reason, not opened until after its close. Steps should, however, be taken to obtain sanction for opening new institutions in the districts referred to above, so that no time may be lost in providing for the wants of the population, as the number of medical subordinates available increases. It is to be regretted that no efforts were made during the year to provide accommodation for in-patients in the districts of Ganjam, Godávari, Nellore and Trichinopoly, notwithstanding the remarks made on this subject in paragraph 51 of the General Review for 1889–90. The attention of the Local Boards concerned has already been drawn to this matter in reviewing individual reports, and it is to be hoped that there will be no necessity for again noticing the matter.

It is satisfactory to observe that the number of patients treated in these institutions also exhibited an increase of 385 under in-patients and of 185,282 under out-patients, as noted in the margin, showing that their popularity continues steadily to advance and that the European mode of treatment is becoming more and more appreciated by the people. The number of beds available for in patients is 1,338 or an average of 13·8 per hospital. The total number of persons treated was, nevertheless, comparatively small, being but 6·2 per cent. of the population against 5·5 per cent. in 1889–90. Taking the districts individually, the proportion in Nílgiris and Tanjore was fair, being over 10 per cent., but was very low in Ganjam, Godávari, Malabar and Nellore, ranging from 3·8 to 3·6 per cent. Compared with the preceding year, however, there was an improvement in all the districts except Coimbatore and Nílgiris, where the number actually declined, and in Tinnevelly, where it remained almost stationary.

	In-patients.	Out-patients.
1889–90	12,593	1,526,204
1890–91	12,978	1,711,486

The total net expenditure incurred on the maintenance of hospitals and dispensaries, excluding the cost of midwives and midwifery pupils, amounted to Rs. 4,08,555 against Rs. 3,86,317 in 1889–90, but the average cost of treating each patient was only As. 3–9 against As. 4, the reduction in the latter case being apparently due to the large increase in the number of persons treated. The average cost per case was disproportionately high in Bellary, South Canara, Malabar, Nílgiris, Cuddapah and Kistna, being between As. 5 and 6, and the Local Boards concerned should make every effort to reduce it as much as possible. On the other hand, it was low in Madura, Salem, Trichinopoly and Vizagapatam, being less than As. 3.

The local committees appointed for the supervision of these institutions under the Saidápet Taluk Board are reported to have discharged their duties satisfactorily, while the Tiruvallúr and Musiri Taluk Boards state that the formation of such committees in their taluks is in contemplation, and the President of the North Arcot District Board reports that the attention of the Presidents of the Taluk Boards concerned will again be drawn to the matter. In the case of the remaining districts no information has been furnished on this subject. All Taluk Boards are therefore again invited to consider the desirability of adopting this arrangement, as suggested in paragraph 51 of the General Review for 1889–90. It is to be regretted that the experiment of employing an itinerating medical subordinate, which was tried in the district of Cuddapah, proved a failure, and that none of the District Surgeons, except those of North Arcot, Chingleput and Coimbatore, have followed to any extent the example set by Dr. King in personally distributing medicines and treating patients during tours of inspection, &c., which was commended to all other medical officers for adoption in the last two General Reviews. In Chingleput this duty appears to have been satisfactorily performed by the District Surgeon, while in North Arcot prescriptions were given in many cases to be made up at the nearest dispensary, and in Coimbatore the District Medical Officer, though carrying no medicines with him for distribution, personally attended to such deserving cases of sickness as came under his observation. The President of the Trichinopoly District Board reports that arrangements have already been made by him for giving effect to the wishes of Government in this matter; the Surgeon-General should impress upon all other District Surgeons the desirability of adopting this system.

33. *Medical Schools and Medical Pupils.*—As in previous years, the District Boards of Tanjore and Nellore maintained local medical schools for training hospital assistants. Both of these institutions continued to work well, all the 3 students from the former and 5 out of 7 presented from the latter having passed the Hospital Assistants' examination. It is, however, to be regretted that the proposal of the Nellore Board to educate female pupils also had to be abandoned for want of suitable candidates. It is observed that 2 medical pupils from Bellary and 8 from South Canara were undergoing training in the Madras Medical College at the cost of the Boards concerned in view to their eventual employment as medical subordinates in these districts.

34. *Midwives.*—These were employed by the Local Boards in all the districts except Nílgiris, the total number being 133 against 128 in 1889–90. Most of them were entertained in Madura (18), Nellore (16), and Bellary (13). On the other hand, the number was exceedingly small in Cuddapah (1), Ganjam (1), Kurnool (2), Vizagapatam (2), Anantapur (3), and Malabar (3). In Cuddapah, however, there were 8 nurses who perform the functions of midwives whenever necessary. In the other districts, no time should be lost in providing for the employment of additional women, so that every hospital and dispensary may have at least one midwife attached to it. The 8 nurses in Cuddapah attended 264 labour cases against 228 in 1889–90, while the number of cases attended by all the midwives collectively was 7,146 against 5,979 in the previous year, the average being 4·5 cases each per mensem against 3·9. This improvement is noted with satisfaction, but the results cannot yet be regarded as by any means good. The midwives in Bellary and South Canara attended on an average 7 cases each per mensem, and the midwife employed in Ganjam attended 36 cases during the four-and-a-half months she was at work. The work done by those entertained in Nellore also continued to be good, though there was a small falling off, while that of the midwives in Kurnool and Bellary showed a considerable advance on the previous year. On the other hand, the 18 midwives in Madura attended on an average only 3 cases each per mensem as in 1889–90. In reviewing the individual reports, the attention of the Local Boards concerned has been drawn to all the more prominent cases of bad work by these women and they have been urged to introduce, wherever this has not already been done, the system of granting rewards for extra work and imposing fines for failure to attend a reasonable number of cases. The Government trusts that no delay will be allowed to occur in adopting this suggestion, should there be no very special reasons in existence rendering its introduction undesirable.

35. *Medical Training of Women.*—Information regarding this subject will, as usual, be found summarized in Appendix XXIV. It will be observed that the Local Boards of South Arcot, Coimbatore, Cuddapah, Ganjam, Madura, Nellore, Salem, Tinnevelly and Vizagapatam continued to incur some expenditure on this account, while the provision made by the Malabar District Board was again left unutilized for want of a suitable candidate, and in Nílgiris provision for this purpose was considered unnecessary No steps were taken in this direction in Anantapur, Godávari and Kurnool for want of funds, and the same cause has probably operated in the remaining districts from which no information has been furnished under this head, though due attention appears in all cases to have been paid to the training of midwifery pupils.

36. *Vaccination.*—This subject has been dealt with at length in G.O., dated 2nd September 1891, No. 2117 L., reviewing the report of the Inspector of Vaccination for the year under review. There were 49 Deputy Inspectors of Vaccination and 660 vaccinators and probationers against 49 and 662, respectively, in 1889–90. The number of operations performed by the Local Fund vaccinators, as shown in Appendix XXV, differs from the figures appearing in the vaccination report above referred to, as shown below, and the Sanitary Commissioner is requested to explain these discrepancies :—

Appendix XXV.

Districts.	Number of operations by Local Fund Vaccinators.		Number of successful cases.	
	As per Appendix XXV.	As per Vaccination Report.	As per Appendix XXV.	As per Vaccination Report.
Arcot, North	..	..	42,081	42,127
Cuddapah	33,414	33,120	..	..
Kurnool	32,868	34,038	30,524	31,577
Nilgiris	..	..	1,914	1,897

It is satisfactory to observe that the total number of operations performed by the Local Fund vaccinators was 780,554 against 718,733 in the previous year; of these, 737,753, or 95 per cent., were successful, against 689,226, or 96 per cent., in that year. This outturn of work is the highest on record. The amount done in Kurnool was exceedingly creditable, each vaccinator having performed on an average 2,836 operations, while in Trichinopoly and Chingleput, which come next on the list, the work done by each vaccinator was 1,687 and 1,661 cases, respectively. On the other hand, the average outturn in Nílgiris, Anantapur, Ganjam and Godávari was decidedly poor, being less than 782. Taking all districts together, the average for each vaccinator was 1,183 operations—considerably below the numbers attained in Trichinopoly and Chingleput—which shows of what development the work is capable. The continued improvement as compared with the two preceding years in the number of successful vaccinations performed in North Arcot, South Arcot, Cuddapah, Godávari, Kistna, Kurnool, Madura, Malabar, Nellore, Nílgiris and Tinnevelly, is noted with satisfaction; but the large decline in Anantapur, Chingleput, Coimbatore and Tanjore is much to be regretted. Every effort should be made by the Boards of these districts to improve the efficiency of this branch of their administration.

The total expenditure on vaccination being Rs. 1,62,662 against Rs. 1,58,547 in 1889–90, the average cost of each successful operation performed by the Local Fund vaccinators was As. 3–6 against As. 3–8 in that year. It was satisfactorily low in South Canara, Madura, Salem, Tinnevelly and Trichinopoly, being less than As. 3 in each case, but very high in Nílgiris (As. 11–5), Anantapur (As. 6), and Cuddapah (As. 5–7). Compared with the previous year, there was a reduction in 14 districts and an increase in all the others.

It is satisfactory to note that there was an improvement in the vaccination work of the medical subordinates in charge of Local Fund hospitals and dispensaries also, the total number of operations performed by them being 36,223 against 22,872 in the previous year. The medical subordinates attached to all the dispensaries in Chingleput, where considerable attention is evidently paid to the matter, and to some of the dispensaries in North Arcot, Cuddapah, Kurncol, Madura, Tanjore, Trichinopoly and Vizagapatam, vaccinated over 240 cases each in the course of the year, and the Government sees no reason why this number at least should not be exacted from those employed in other localities. The worst offenders in this respect have been duly brought to the notice of the Surgeon-General in reviewing the individual reports, and the Government trusts that there will be no need for any unfavorable comments under this head in future.

Including the work done by the Local Fund medical subordinates, the total number of successful operations performed in Local Fund areas was 768,511 or 27·5 per mille of the population against 709,231 or 25·3 per mille in 1889–90. The best results in proportion to population were produced in Kurnool and Chingleput, being more than 40 per mille. They were also fair in Bellary, South Canara, Kistna, Nellore, Salem, Tinnevelly and Trichinopoly, being between 40 and 30 per mille. On the other hand, the proportion was extremely low in Ganjam and Malabar, being less than 20 per mille.

The progress made in infantile vaccination also showed some improvement, the total number of successful operations performed on children under one year having been 5·04 per mille of the population against 4·9 per mille in the previous year. The best results were achieved in Bellary (19·7 per mille), Chingleput (13·9 per mille) and Coimbatore (11·4 per mille), though in the first and the last districts they were not so good as in 1889–90. The results were exceedingly bad in Malabar, Godávari, Nílgiris, Ganjam, South Canara, Nellore and Kistna, where the proportion was less than 2·5 per mille of the population. The attention of the Boards concerned has been already drawn to this matter in reviewing the individual reports, and it is to be hoped that they will spare no efforts to show a satisfactory advance in the current and ensuing years.

Vaccination with animal lymph was conducted more or less in all the districts, except Anantapur, Coimbatore and Godávari. The total number of operations performed was 216,221 against 112,443 in the previous year, and of these 198,613 were successful against 104,326 in that year—a very satisfactory advance. The work done in South Canara and Kistna, however, was very inadequate; but as the Government has since directed that all vaccine operations should be conducted wherever possible by means of fresh animal lymph, a considerable advance in this direction may in future be looked for.

37. *Sanitation.*—Excluding Rs. 9,916 spent on Sanitary public works under Grant I, the outlay under this head amounted to Rs. 4,06,014 against Rs. 4,84,616 in the previous year. This decline was, however, merely nominal, being due to the inclusion in that year's accounts of Rs. 79,371 spent on famine relief works in Ganjam and temporarily debited to Local Funds. The amount so debited in the year under review was only Rs. 1,709. Excluding these sums, the expenditure on sanitation amounted to Rs. 4,04,305 against Rs. 4,05,245 in 1889–90. No sanitary works of any importance were undertaken in the rural tracts during the year under review; but many of a petty nature, such as those described in the previous years' General Reviews, were, as usual, carried out by the Local Boards and Union Panchayats, details of which appear in the appendix. The system of employing itinerating gangs for the removal of prickly-pear, &c., in villages, referred to in paragraph 63 of the last General Review, was adopted more or less in Chingleput, Cuddapah, Tinnevelly, Trichinopoly and Vizagapatam. In Chingleput the gang, under the control of the Saidápet Taluk Board, was not found to work successfully, and it is now proposed to abolish it and arrange for the performance of the work on the contract system. In Trichinopoly also, the system proved a failure and has therefore been abandoned. On the other hand, it is reported to have worked satisfactorily in portions of the Tinnevelly, Cuddapah and Vizagapatam districts. Its adoption in Nílgiris is reported to be impracticable, while in Godávari its introduction was still under consideration, and in Kistna the President of the District Board states that he has requested the Presidents of Taluk Boards to obtain the sanction of Government for trying the experiment. No information has been furnished on this subject in the remaining districts. This omission should not occur again and the subject should receive careful and speedy consideration with a view to decided action being taken for the improvement of village sites either on this plan or some other.

Appendix XXVI.

Out of a total of 42,862 minor towns and villages in the Presidency, only 818 (252 Unions and 566 other villages) were conserved during the year against 735 (246 Unions and 489 other villages) in that preceding it. There was an improvement in all the districts except Godávari, Madura and South Arcot, where the number declined, and Kistna, Tanjore and Nílgiris, where it remained the same as in the previous year; Godávari, however, heads the list notwithstanding this decrease. The number of villages conserved in the districts of Nellore, Vizagapatam, Anantapur, South Canara and Chingleput is very small and should be increased as soon as possible. The sanitary condition of the rural tracts received on the whole increased, though not

by any means adequate, attention, and the energy displayed by some of the District Medical and Sanitary officers, notably by Dr. Walker of Nellore, in this connection, is highly commendable.

It is to be regretted that, notwithstanding the repeated instructions of Government, the proportion of expenditure under the head of Sanitation to the sanctioned allotments was only 86 per cent. against 89 per cent. in the previous year. The outlay in Nílgiris exceeded the allotment by 24 per cent., but the work done was exceedingly bad in Godávari (64 per cent.), Kistna (74 per cent.), and South Canara (75 per cent.) The Government trusts that the remarks made in this connection in paragraph 13 (*f*) of G.O., dated 22nd August 1891, No. 2004 L., will be carefully attended to in future.

38. *Choultries.*—There were 453 choultries, the total charges for which were Rs. 2,13,301, maintained by the Local Boards at the close of the year, against 437 in 1889–90, costing Rs. 2,23,469, and of these 221 had endowments attached to them. In 45 of these, rations were issued to 1,354,089 travellers at a cost of Rs. 1,11,240, against 1,481,254 and Rs. 94,443 in the previous year, and in three others monthly pensions were granted to certain infirm and poor people. The remaining choultries are mere rest-houses. The number of these institutions continued to be small in Chingleput and Ganjam; but in these districts the wants of the people are stated to be provided for by numerous private charitable endowments.

39. *Contributions.*—The contributions paid to Provincial and Municipal funds and to private individuals for medical, sanitary and other purposes, amounted to Rs. 1,18,525 against Rs. 1,36,251 in 1889–90, the decrease, which occurs mainly under contributions to Municipal Councils on account of medical institutions, being due to the absence of such special payments as those referred to in paragraph 68 of the General Review for that year.

40. *Miscellaneous.*—Notwithstanding the remark made in paragraph 69 of the last General Review that full particulars should in future be supplied, complete information regarding the lighting of towns and villages has not been furnished in all the District Boards' reports. This omission should not recur. Presidents of District Boards must distinctly understand that Government insists upon a careful compliance with orders. The expenditure incurred on this account amounted to Rs. 33,122 against Rs. 27,147 in the previous year, the whole of this sum being, as usual, met from Taluk funds.

41. *Grant IV, Miscellaneous—Supervision and Office Management.*—The total charges under this head aggregated Rs. 3,41,224 against Rs. 3,21,846 in the previous year; but they formed only 4·7 per cent. of the actual receipts and charges against 4·8 per cent. in that year. There was no change in the system of supervision of the work, &c., of Local Boards and Union Panchayats, and the nature and cost of the establishments employed by them remained almost the same as in previous years.

42. *Repayment of Loans, &c.*—During the year under review, the Chingleput and Malabar District Boards paid Rs. 18,233 as instalments of principal and Rs. 6,689 as interest on account of loans previously obtained by them from Imperial Funds for the construction in the one case of the Kortaliyár bridge and the completion of the Tamráchéri and Periaghat roads in the other. The amounts still due by these Boards are Rs. 96,199 and Rs. 38,308, respectively, and the loans are expected to be repaid in 1898. In Tinnevelly Rs. 5,000 were repaid as the fourth instalment of a loan of Rs. 45,000 received by the District Board from the Taluk Endowment Fund, and Rs. 3,500 as the second instalment of a loan of Rs. 35,000 received from the Zemindar of Etaiyápuram, both for the construction of the Srívaikuntham bridge, while Rs. 3,018 were paid as interest on account of these. A sum of Rs. 1,55,796 is shown in Appendix V as invested in Government promissory notes in favour of the Railway Guarantee Fund in Tanjore; but, as it appears from Appendix IV that notes of the value of Rs. 1,03,796

were sold and credited in the accounts, the net amount actually invested during the year was only Rs. 52,000, the total investment made on this account up to its close being thus Rs. 8,02,000. Including a cash balance of Rs. 2,35,066, the total sum at the credit of this fund amounted to Rs. 10,37,066, the whole of which will be available for the construction of the Máyavaram-Mutupet Railway, which was commenced in September 1890, and the cost of which it is now proposed to meet from Provincial and Local Funds in equal shares.

IV.—Endowments, &c.

43. Appendix XXVIII exhibits the number of endowed institutions, such as schools, dispensaries, choultries, markets, &c., under the control of the Local Boards and Union Panchayats in each district, while Appendices XXIX and XXX, furnished by the Accountant-General, show their financial transactions. Excluding Rs. 87,421 appropriated from General Funds to meet excess expenditure and Rs. 3,826 allotted from chattram funds in Tanjore and Tinnevelly for other purposes, but including Rs. 6,500 paid by the Tinnevelly District Board to the Taluk Endowment funds on account of the loan referred to in the preceding paragraph, the receipts of these institutions amounted to Rs. 4,10,293 and the charges to Rs. 4,18,606, against Rs. 3,93,974 and Rs. 4,23,716, respectively, in 1889–90. As the opening balance in their favour amounted to Rs. 3,09,438, the year closed with a balance of Rs. 3,01,125. In Tanjore, however, the Chattram funds closed with a *minus* balance of Rs. 9,514; but steps have recently been taken to reduce the expenditure under this head by abolishing some of the dispensaries supported from these funds and by transferring the maintenance of some others to General Taluk Funds. It is satisfactory to note that there was some reduction in the balances in Madura and Tinnevelly; but those in other districts are still very large and early proposals should be submitted for utilizing them on the improvement of the institutions concerned.

V.—General Remarks.

44. *Local Fund Accounts.*—The arrangements for the audit and examination of these accounts continued to be the same as in the previous year. It is satisfactory to observe that the accounts of all the districts for 1889–90 were inspected during the year, and that those of 17 districts were also examined for a portion of the year under review. The results of the inspection were, on the whole, good in Anantapur, South Canara, Coimbatore, Madura, Malabar, Nellore, Nílgiris, Tanjore, Tinnevelly and Trichinopoly, while in South Arcot, North Arcot, Ganjam, Cuddapah, Godávari, Kistna and Vizagapatam, the accounts were not found in satisfactory order, though in the last four cases there was some improvement since the previous inspection.

45. *General Administration.*—Generally speaking, the administration of Local Funds during the year under review was creditable to all concerned, and the improvements effected in the preceding year continued to be sustained. An exception must, however, be made in the case of the Godávari district, the affairs of which were, notwithstanding the severe nature of the remarks made in the preceding year's review, managed with great inefficiency. The work done in Vizagapatam, Bellary and Malabar also showed a deterioration and was far from being satisfactory. An improvement might with advantage be effected in Kistna, Anantapur and Ganjam, where many branches of the administration were but indifferently attended to. There was a striking and satisfactory improvement in the work done in Nellore, and a lesser one in South Arcot, Salem, Cuddapah and Kurnool. Detailed remarks on the administration of each district have been passed in reviewing the individual reports, and will, it is hoped, result in a further improvement in the current year. The extension of Primary education, the provision of increased facilities for medical relief and vaccination and the improvement of sanitation are the matters which, as usual, call for early attention on the part of most Local Boards. The Presidents of these bodies should regard it a highly important portion of their duties to encourage the non-official members of their

Boards to take a greater individual interest in the supervision of the affairs entrusted to their charge. On the whole, the Governor in Council is satisfied with the results of the administration of Local Fund affairs in 1890–91.

Total, 1889–90 ..	..	6,01,964	43,35,269	49,37,233	45,35,833	6,821	3,94,579	92	87

* The arrear demand, as shown in this statement, differs from the closing balance of 1889–90 given in the corresponding statement for that year, the difference being due to adjustments made after the settlement of the jamabandi accounts.

† These figures include amounts collected in 1889–90 for 1890–91 and exclude advance collections for 1891–92.

‡ The difference between these figures and those appearing in Appendix IV is due to the omission by Presidents to carry out certain alterations communicated by the Accountant-General.

§ This differs from that shown in Appendix I V by Rs. 27. Explanation will be called for.

APPENDIX XI.

Statement showing the statistics of Tolls for 1890-91.

Districts.	Number of toll-gates.	Rate of tolls.	Receipts.							Expenditure.					Net income from tolls.	Number of miles of road maintained.	Cost of maintenance of roads. APPENDIX XVII—*cont.*

Statement showing the particulars of the outlay on Public Works for 1890–91—*cont.*

Districts.	Percentage of outlay to allotment by Local Fund Engineering establishment.	Cost of Engineering establishment including contingencies.			Percentage of the cost of the Local Fund Engineering establishment to outlay on works executed by them.	Cost of tools and plant.			Percentage of cost of tools and plant to outlay on works by Local Fund Engineering establishment.	Explanations given for short outlay in 1890–91.	
		Local Fund Department.	Public Works Department.	Total.		Local Fund Department.	Public Works Department.	Total.			
	20	21	22	23	24	25	26	27	28	29	
		RS.	RS.	RS.		RS.	RS.	RS.			
1. Anantapur	97	8,934	..	8,934	20	468	..	468	0·9	(*a*)	.—The decrease in expenditure is attributed to (1) delay in the execution of the Pálár causeway (2) failure of the north-east monsoon which prevented spreading of material on several roads, (3) difficulty experienced in procuring labour where the Villupuram-Guntakal State Railway work was in progress, and (4) non-payment of certain contractors' bills.
2. Arcot, North (*a*) ..	82	33,258	19	33,277	21	1,515	1	1,516	0·9		
3. Arcot, South	87	25,410	299	25,709	15	1,176	19	1,195	0·7		
4. Bellary (*b*)	76	19,432	..	19,432	25	909	..	909	1·1		
5. Canara, South ..	90	20,389	..	20,389	18	1,452	..	1,452	1·3		
6. Chingleput	96	19,947	..	19,947	14	1,058	..	1,058	0·7		
7. Coimbatore	95	28,375	..	28,375	16	938	..	938	0·5	(*b*)	.—The short expenditure is ascribed mainly to the failure of contractors in collecting materials and in pushing on with the works entrusted to them.
8. Cuddapah	87	19,507	223	19,730	20	709	16	725	0·7		
9. Ganjam	99	22,579	— 2	22,577	17	1,860	..	1,860	1·4		
10. Godávari (*c*)	82	38,068	1,458	39,526	13	7,943	5,401	13,344	2·7	(*c*)	.—The short outlay is explained to be due to (1) failure of contractors, (2) works having been stopped owing to the Railway Department having taken labour, (3) payments not having been made to contractors' pending final settlement of accounts, (4) savings on completed works, (5) certain works having been postponed for want of water, (6) late sanction of allotments in some cases and (7) delay in the acquisition of lands required for certain works.
11. Kistna	87	46,888	2,282	49,170	15	3,463	150	3,613	1·1		
12. Kurnool	100	15,618	..	15,618	32	383	..	383	0·8		
13. Madura (*d*)	85	35,877	164	36,041	16	3,171	10	3,181	1·3		
14. Malabar	84	46,801	..	46,801	18	3,078	..	3,078	1·2		
15. Nellore	87	29,916	130	30,046	18	761	9	770	0·5		
16. Nilgiris	92	16,978	..	16,978	17	1,500	..	1,500	1·5		
17. Salem (*e*)	82	23,222	1,526	24,748	17	704	97	801	0·5	(*d*)	.—The decrease in outlay is stated to be due partly to savings effected on some works and partly to short outlay on some projects which were sanctioned late in the year.
18. Tanjore	85	35,382	3,247	38,629	17	1,170	212	1,382	0·6		
19. Tinnevelly	93	28,629	26	28,655	16	1,759	2	1,761	1·0		
20. Trichinopoly	85	15,835	226	16,061	13	981	15	996	0·8	(*e*)	.—The decrease in expenditure is attributed to (1) delay in getting some of the iron works required for the Talavasal bridge (2) want of a suitable site for the chattram at Tirupatur and (3) failure of the north-east monsoon in consequence of which spreading of road-metal had to be carried on on a smaller scale than otherwise.
21. Vizagapatam (*f*) ..	80	28,334	..	28,334	16	590	..	590	0·3		
										(*f*)	.—The short expenditure is ascribed to (1) the slow progress made by the Local Fund Engineer, Southern Range, in constructing the roads entrusted to him, (2) employment of inefficient overseers in supervising the construction of the Párvatipur-Rayagada road, (3) savings effected in remetalling certain roads and (4) over-estimate and petty savings in some cases.
Total for 1890–91 ..	87	5,59,379	9,598	5,68,977	17	35,588	5,932	41,520	1·03		
Total for 1889–90 ..	83	5,51,495	11,632	5,63,127	18	33,879	757	34,636	1·1

* Obtained by dividing Rs. *56,156* by the total of column 7 *plus* the 55 students referred to in notes *B. D. E.* and *F.* below :—

A. This school was transferred from Arcot to Ranipet.
B. Excluding 10 students that had already passed the Middle School or the Special Upper Primary Examination.
C. Closed on the 12th March 1891, arrangements having been made to train the Boards' students in the Primary Department of the Teachers' College since started at Triplicane (Madras).
D. Excluding 4 students who had already passed the Special Upper Primary or the Middle School Examination.
E. Excluding 28 students who had already passed the Matriculation or the Middle School Examination.
F. Excluding 13 students who had passed the Middle School Examination.
G. Abolished on 1st November 1890.
H. This School was transferred from Palamcottah to Veeraragavapuram during the year under review.

* Excludes the cost of (1) medical practitioners employed on sanitary inspection, distribution of medicines, &c.; (2) medical schools; (3) the District Medical and Sanitary officers' establishments; (4) medical pupils; and (5) midwives and midwifery pupils, but includes the pay of the medical subordinates in charge.

(a) Excludes the work of two midwives who were entertained in the course of the year and attended four cases.
(b) Includes the work done by four women who left the service in the course of the year.
(c) Includes one midwife appointed at the close of the year.
(d) Excludes eight nurses who attended 264 labour cases.
(e) This midwife was entertained only in November 1890.
(f) Excludes eight aided dispensaries at which 62,025 patients were treated.

APPENDIX XXIV.

A SUMMARY OF THE MEASURES ADOPTED IN FURTHERANCE OF FEMALE MEDICAL EDUCATION IN 1890-91.

1. *Anantapur.*—No expenditure was incurred under this head for want of funds.

2. *Arcot, North.*—Besides the employment of five trained midwives, four midwifery pupils are being trained in the Lying-in Hospital at Vellore.

3. *Arcot, South.*—A scholarship of Rs. 20 is paid to a female student undergoing training for the Civil Apothecary grade in the Madras Medical College.

4. *Bellary.*—All the dispensaries are provided with trained midwives.

5. *Canara, South.*—Besides the employment of six midwives and the training of two more, no steps were taken by the Local Boards in furtherance of female medical education.

6. *Chingleput.*—Eight dispensaries are provided with trained midwives and, in view to meet the wants of the remaining institutions, two pupil midwives are now under training. Considering the proximity of the district to Madras, what is now being done towards the furtherance of female medical education by the employment of midwives may be considered sufficient.

7. *Coimbatore.*—Three candidates continued to be under training for the grade of Civil Apothecary and a sum of Rs. 600 was paid to the credit of the Lady Dufferin Fund for this purpose from District funds, and the Erode Taluk Board did not pay its share.

8. *Cuddapah.*—A sum of Rs. 240 was paid by the Proddutur, Pulivendla, Madanapalle and Kadiri Taluk Boards to the Lady Dufferin Fund for securing the services of a female medical officer.

9. *Ganjam.*—Rupees 300 were paid to the Lady Dufferin Fund towards the scholarship of an apothecary student who is being trained at Madras.

10. *Godávari.*—No expenditure was incurred under this head.

11. *Kistna.*—Provision was made for training four midwifery pupils, but none were willing to go to Madras for training.

12. *Kurnool.*—No steps were taken in this direction for want of funds.

13. *Madura.*—A student on Rs. 25 a month is being trained at Madras for the Apothecary grade and two midwifery pupils are being trained locally.

14. *Malabar.*—The provision of Rs. 250 in the budget for training a female medical pupil was again not utilized for want of a suitable candidate.

15. *Nellore.*—A pupil for the Hospital Assistant grade is being trained in the Madras Medical College on a scholarship of Rs. 20 per mensem.

16. *Nilgiris.*—No provision has been made.

17. *Salem.*—Three female pupils are being trained for the Apothecary grade, and Rs. 900 were contributed for this purpose to the Lady Dufferin Fund.

18. *Tanjore.*—The Board resolved to try the system of training female students in Madras instead of reviving the midwifery school. It offered scholarships to intending students and advertised for them, but no one came forward. The District Surgeon reported that the scholarship was too small to attract candidates, but the District Board was unwilling to increase the amount. Recently the District Surgeon suggested increase of pay from Rs. 8 to 15, so as to induce applicants to come from abroad. This proposal is now before the District Board.

19. *Tinnevelly.*—A pupil for the Apothecary grade is being trained in the Madras Medical College, but the contribution of Rs. 240 payable towards her maintenance was not applied for.

20. *Trichinopoly.*—All the dispensaries were provided with trained midwives.

21. *Vizagapatam.*—Rupees 1,400 were allotted as contribution to the Lady Dufferin Fund towards the education of five female apothecary candidates; but Rs 1,200 only, being the actual cost, were paid before the close of the year.

APPENDIX XXV.

STATEMENT showing the strength, cost and operations of the Vaccine establishments for 1890-91.

Districts.	Establishment.			Total cost of vaccination.	Number of vaccine operations performed			Number of successful cases.	Percentage of successful cases to total number. Extract from the Proceedings of the Government of India in the Military Department, dated Simla, 31st October 1891, No. 2950 M.W.

[*Provisional distribution of the grant for Military works in* 1892–93.]

Resolution.—The following provisional distribution of the grant for Military works in 1892–93 is hereby notified:—

	Rs.	Rs.
Military Works Department — India		83,71,000
Public Works Department—		
Rajputana and Central India	60,000	
Central Provinces	3,000	
Lower Burma	1,50,000	
Assam	80,000	
Bengal	40,000	8,29,000
North-Western Provinces and Oudh	6,000	
Punjab	2,00,000	
Madras	90,000	
Bombay	2,00,000	
Ordnance works	...	4,00,000
Marine works	...	50,000
	Total ...	96,50,000
Leaving for reserve with the Government of India		3,50,000
	Grand total ...	1,00,00,000

2. The above allotments include provision for any expenditure that may be incurred in England on stores for works classified as military.

3. The distribution of the grants for Ordnance and Marine works will be made by the Director-General of Ordnance and the Director of the Indian Marine, respectively. These officers will communicate to the Local Governments and Administrations concerned the works which they desire to have undertaken during 1892–93 and the amounts available for each work, which amounts will then be included by the Local Governments and Administrations concerned in their budget estimates for Military works.

4. The preliminary budget estimates should be prepared for the amounts now provisionally sanctioned, together with the allotments, if any, made by the Director-General of Ordnance and the Director of the Indian Marine, and should be submitted so as to reach the Government of India punctually by the 15th January 1892.

5. Orders regarding the grant for Military works in Upper Burma will issue hereafter.

Order.—Ordered that a copy of the foregoing Resolution be forwarded to the Local Governments and Administrations noted in the margin for information and guidance.

The Secretary to the Governments of Madras, Bombay, Bengal, North-Western Provinces and Oudh and Punjab, in the Public Works Department.
The Chief Commissioners, Central Provinces, Burma and Assam.
The Agent to the Governor-General, Rajputana and Central India.
The Director-General of Military Works.
The Director-General of Ordnance.
The Director of Indian Marine.
The Resident at Hyderabad.

Ordered, also, that a copy be forwarded to—

The Quartermaster-General in India.
The Accountant-General, Public Works Department.
The Accountant-General, Military Department.

(By Order.)

(Signed) E. COLLEN,
Secy. to the Govt. of India.

No. 6417, Military.

Transferred to the Public Works Department.

Fort St. George.
14th November 1891.

(Signed) H. R. HOPE, Brigdr.-Genl.,
Secretary to Government.

From Brigadier-General E. H. EYRE, Quartermaster-General, Madras Army, to the Chief Engineer, Public Works Department, dated Ootacamund, 23rd November 1891, No. 2566 M.W.

With reference to your letter No. 5125 C. of the 18th instant, I am desired, in reply, to say that the Commander-in-Chief would propose that the sum of Rs. 27,200, available for the execution of original major works at Public Works stations in this Presidency during the ensuing financial year, be distributed in the following manner :—

	Rs.
Completion of new barrack, with subsidiary buildings at Calicut ...	3,400
Sheds for transport animals at Calicut (sup. estimate)	2,500
Reconstructing quarters for the Sergeant Instructor of the Wynaad Company Malabar Volunteer Rifles at Vayitri	3,990
Constructing an officers' mess with out-houses at Malapuram ...	8,000
Constructing quarters for an apothecary at West Hill, Calicut ...	7,000
Total ...	24,890

2. This leaves a balance of Rs. 2,310, which sum His Excellency suggests should be devoted towards a commencement being made in the year 1892–93 on the swimming bath for the British Infantry detachment at Calicut.

Order—dated 1st December 1891, No. 3216 W., Public Works.

In the Resolution above recorded, the Government of India assigned a provisional grant of Rs. 90,000 for expenditure on Military works at stations in charge of the Public Works Department during the year 1892–93. The amount distributed under departmental heads will be as shown below :—

	Rs.
Works	72,200
Establishment	16,700
Tools and plant	1,100
Total ...	90,000

2. Of the sum of Rs. 72,200 available for works, Rs. 45,000 have been set apart for repairs and the balance (Rs. 27,200) has been distributed among major original works as proposed by His Excellency the Commander-in-Chief.

3. As there will probably be no incomplete major works requiring provision of funds during 1892–93, no reserve has been maintained with the Government.

4. The amount set apart for repairs has been distributed among the several divisions in part II of the budget.

5. The difference between the budget and the revised estimates of charges for 1891–92 is due to an additional grant of Rs. 3,092 having been sanctioned by the Government of India for the reconstruction of the roof of hospital wards, Nos. 12 and 13, of the 1st Pioneer lines at Trichinopoly.

6. With these remarks the preliminary issue of the Military works budget for 1892–93 will be printed and circulated to the officers concerned for information and guidance and four copies will be forwarded to the Government of India, Military Department.

(Here enter No. 3217 W., dated 1st December 1891.)

Pay and Allowances—House-rent.

Kimberly, Sergeant-instructor, Madras Railway Volunteers.—Application from — for a refund of the amount paid by him as house-rent, forwarded to His Excellency the Commander-in-Chief in view to the Director-General of Military Works being addressed on the subject.

GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

Pay and Allowances—House-rent.

Read the following papers:—

No. 83. *From Colonel A. G. HUTCHINS*, for *Quarter Master General, Madras Army, to Brigdr.-Genl. H. R. HOPE, Secretary to Government, Military Department; dated Ootacamund, 3rd December* 1891, *No.* 2649-*MW* (*Pay and Allowances—House-rent*).

I am desired to submit the following case, for the favorable consideration and orders of Government.

2. Sergeant-instructor Kimberly of the Madras Railway Volunteers, on his arrival at Olavakód in May 1889, to which station he was posted, engaged as his quarters the only private house at that time available, and for which a rental of Rs. 20 per mensem was paid. The house-rent was, however, reduced to Rs. 17–8–0 per mensem from the 1st November 1890, and thus this non-commissioned officer was actually out of pocket to the extent of Rs. 5 per mensem (the difference between the amount of house-rent paid by him and the compensation for quarters allowed by Government) from 1st May 1889 to 31st October 1890, and to the extent of Rs. 2–8–0 per mensem from 1st November 1890 to 30th June 1891, making a total of Rs. 110 for the entire period, for the refund of which amount the sergeant-instructor submitted a claim in July last, and at the same time requested that the Public Works Department be asked to arrange for the hiring of the house in question in future.

3. The Executive Engineer, Coimbatore Division, who was communicated with on the subject, states that, as no objection was raised regarding the insufficiency of rent, and as the sergeant-instructor made his own arrangements with the landlord for the hiring of the quarters and the payment of excess rent without the intervention of the Public Works Department, the sanction of Government is necessary before the refund claimed can be admitted—*vide* Madras Public Works Code, para. 1138.

4. The Commander-in-Chief is aware that, under regulations, the sergeant-instructor should not have hired the private house in question himself, but should have applied to the Executive Engineer for the accommodation he was entitled to. As, however, this non-commissioned officer would seem to have acted in entire ignorance of the orders on the subject, His Excellency recommends, for favorable consideration, that Government may be pleased to sanction the refund of the amount referred to in para. 2 of this letter.

5. I am to add that, in view to putting a stop to the very undesirable practice brought to notice, a circular has been issued to all concerned, intimating that, in every case, the Executive Engineer should be applied to for accommodation authorized, and that individuals making their own arrangements for hiring quarters will not be reimbursed the rent or receive compensation.

No. 6958.

Transferred to the Public Works Department for favorable consideration.

(By Order.)

FORT ST. GEORGE,

To the Examiner, Public Works Accounts.

No. 84. *From Colonel J. PENNYCUICK, R.E., Secretary to Government, Public Works Department, to Brigdr.-Genl. H. R. HOPE, Secretary to Government, Military Department; dated 18th December* 1891, *No. 5729-C.*

Re-transferred to the Military Department, with a copy of the Government of India Standing Order quoted by the Examiner, Public Works Accounts.

Office-note from the Examiner, Public Works Accounts; dated Madras, 16th December 1891, No. 7872.

Your office note No. 5538-C, dated 9th December 1891.

As payments on account of rents for buildings hired for Military subordinates will, under Government of India Standing Order No. 212, dated 30th September 1891, have to be made by the Military Works Department, I would suggest that the question may be referred to the Director-General of Military Works for disposal.

GOVERNMENT OF INDIA, PUBLIC WORKS DEPARTMENT.

STANDING ORDER.

P.W.D. Code, Vol. II, Fourth Edition.

No. 212.

Chapter XVI.—Substitute the following for para. 156 (as modified by Standing Order No. 104 of 26th June 1885):—

156. Compensation for quarters claimable by medical subordinates under para. 155, or by staff sergeants and others holding analogous positions, will be paid by the Military Works Department and adjusted as a charge against the grant for repairs to Military works if the officers to whom the compensation is payable are employed in the Military Department. Otherwise, the charges will be paid and borne by the department in which the officers are actually employed and to which their salaries are debited.

Charges on account of rents of buildings hired for the accommodation of officers who are entitled to free quarters, will be similarly paid and adjusted.

[This order is applicable to Madras and Bombay.]

[No. 212—Vol. ii—30-9-91.]

No. 85. ORDER THEREON, 6th January 1892, No. 98.

The foregoing endorsement from the Public Works Department communicated to His Excellency the Commander-in-Chief in view to the Director-General of Military Works being addressed on the subject.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 4th January 1892, No. 6 :—

Mr. Clogstoun.

Read—again the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 4th January 1892, Mis. No. 42 :—

Read—the following telegram from the Acting Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated 24th December 1891 :—

Reference para. 2, G.O., 929, October 5th, para. 3, my foot-note 1999-tour, December 16th. Consider aid to Taluk Board funds, Ongole and Atmakúr, for water-supply and village sanitation works selected from programme submitted with my 3381, November 21st, much needed to supply work present time in localities where no minor irrigation works available. Work to be done under section 38, Famine Code, under amani or contract with special stipulation for employing all coolies. Will Board apply sanction Rs. 10,000 in aid each Taluk Board.

Resolution—dated 4th January 1892, Mis. No. 42.

The following telegram has been despatched to the Collector :—

" Your telegram 24th. Please report state of Local Fund reserves and balances and estimated cost of selected works required before next monsoon."

2. * * * * *

(True Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Collector of Nellore.

Read—also the following telegram from the Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Nellore, 28th December 1891 :—

Rain several villages, Atmakúr taluk, twentieth to twenty-fourth 10 to 50 cents only now reported. Situation Head Assistant's division somewhat improved. Ongole and Kandukúr remain much as before. Kanigiri, Darsi, Podili seem getting worse. Work much wanted both divisions. Am asking immediate grant ten thousand each in aid Ongole and Atmakúr Boards whose funds practically exhausted.

Read—also the following letter from A. W. B. HIGGENS, Esq., Acting Collector of Nellore, to the Secretary to the Commissioner of Revenue Settlement and Director of the Department of Land Records and Agriculture, dated Nellore, 29th December 1891, No. 3754-Ver. :—

In continuation of my telegram, dated 28th instant, and your telegram, dated 25th instant, I have the honour to report as follows on the penultimate sentence of paragraph 2 of G.O., No. 929, dated 5th October 1891.

2. The statement below shows the state of the Local Fund reserves and balances on the present date.

Name of the Local Board.	Reserve.	Balance.	Total.
	RS.	RS.	RS.
District Board	1,286	2,302	3,588
Nellore Taluk Board	..	990	990
Náyudupet do.	619	97	716
Ongole do.	53	768	821
Atmakúr do.	..	..	..
Total ..	1,958	4,157	6,115

The District Board has thus only a small amount, Rs. 3,588, available for allotment; and considering that there are still three months of the official year to run, in which period the District Board may be called upon to provide for unforeseen charges connected with the ordinary operations of Local Funds, I cannot recommend that any of this money should be devoted to the relief of Taluk Boards. Fortunately no extra expenditure connected with the badness of the season is considered necessary in the area under the Nellore Taluk Board. The President of the Náyudupet Taluk Board has a very small balance, and asks for a small contribution, about which I will write separately. As regards the rest of the district, a very small sum is available for allotment by the Ongole Taluk Board, and nothing is available for allotment by the Atmakúr Taluk Board.

3. The estimated cost of extraordinary Local Fund works required for the Sub-Collector's division (Ongole Taluk Board) before the next monsoon is as in the margin. These figures have been arrived at on a rough calculation of the number of the population for whom it is anticipated that work will have to be provided in the next six months. The calculation has been made in personal consultation with the Sub-Collector (Mr. Mounsey) and the Local Fund Engineer, and is chiefly based on Mr. Mounsey's estimate of the present condition and prospects of his taluks. The details are given in the accompanying tabular statements A and B.

	Roads.	Water-supply and village sanitation.
	RS.	RS.
Ongole taluk ...	40,000	2,500
Kandukúr taluk ...	28,000	2,000
Kanigiri taluk ...	50,500	1,500
Podili division ...	58,500	3,000
Darsi do. ...	29,000	1,000
Total ...	2,06,000	10,000

4. The figures may seem high, and it is to be hoped that so much will not be required; but there is no doubt that, owing to the want of rain, the prospects of the crops in the northern taluks are distinctly bad, and that at this period there is almost no hope of an improvement. This state of things must mean want of work and high prices until the period of the next rains. I have not taken into account the probable outlay on ordinary Local Fund works provided for in the budget in the next six months. No doubt those works will provide a certain number of persons with employment; but the number is small in comparison with the numbers for whom we fear that work must be found. Moreover, up to the end of March, the money available is for the most part tied up in contracts; and, even in next official year, when there would not be this difficulty, the class of work which could be provided (chiefly petty repairs of roads) is not such as could be easily made available for relief works. The entries in the statement under Public Works Department include works which we believe can be undertaken without delay. Those under minor irrigation works include the works recently sanctioned in Board's Proceedings, Mis. No. 7399, of the 18th instant. The figures under minor irrigation works might perhaps be raised and a corresponding reduction made in the grant in aid of Local Funds now estimated for; but it is doubtful whether, should distress become intense, scattered tank works will be suitable for its relief.*

* *Note.*—Since writing the above, I have received Board's Proceedings, dated 23rd December 1891, Nos. 824 and 825. I will submit a further list of major and minor irrigation works (called for in paragraph 5 of No. 824) as early as possible. No works of this description can be provided at Government expense, in Darsi and Podili divisions, and very few in Kanigiri taluk.

(Intld.) A. W. B. H.

31—12—1891.

5. It will be observed that the proportion of the population for whom it is expected that work will be needed varies in the different taluks. Thus while the proportion approximates 1½ per cent. in Ongole and Kandukúr, it has been thought necessary to allow for about 2 per cent. in Kanigiri and Darsi divisions and for nearly 5 per cent. in Podili division, where the condition of crops and people is believed to be worse than in other parts of the Sub-Division.

6. It is hoped that the zemindar of Venkatagiri will do something to provide labour on irrigation works in his villages in the north-western taluks; but he seems somewhat reluctant to begin operations. Much cannot be expected from the zemindar of Kálahasti.

7. The road works selected are such as will provide work throughout each taluk for persons who are prepared to go a few miles from their homes in search of employment. It is not of course intended that all should be started at once. Indeed the majority of the works may not be required until the hot weather comes on.

8. It seems, however, pretty clear, from reports received, that some work must be provided immediately for the labouring population in the most northern villages (*i.e.*, the Addanki division of Ongole taluk and the Darsi division) and in the Podili division. The minor irrigation works sanctioned in Board's Proceedings, Mis. No. 7399, of the 18th instant, will not help these parts of the district which (except Addanki) are zemindari country. Mr. Mounsey has already arranged for the execution of some Local Fund works to the value of Rs. 3,500 in this region under the provisions of section 38 of the Famine Code, and indeed if it had not been possible for him to afford this amount of aid to the people, it would have been necessary to ask for funds from Government before this date. Pending the necessity for opening regular relief works in these and other parts of the Sub-Division, which may not occur for another fortnight or more,* it is, I consider, most necessary that a grant of, say, Rs. 10,000 should be made immediately for the execution of small works, partly roads and partly works of village sanitation and water-supply (not all for the two latter items, as suggested in my telegram of the 24th instant). These works would be carried out as ordinary Local Fund works under section 38 of the Famine Code, either under maistries (*amani*) or on contract with a condition that all coolies should be employed; and would be located where they are most pressingly needed. On this matter, I request that the Board will be so good as to obtain early orders and will allow me in the meantime to authorize the President of the Ongole Taluk Board to make allotments as need arises in anticipation of sanction.

* *Note.*—Mr. Mounsey thinks that it may be less in Podili Division.

9. Matters in the Head Assistant's Division (Atmakúr Taluk Board) are in a more hopeful condition. There has been more rain and the crops are better. I trust that in this division regular relief work may either not be needed at all, or may be needed only over a very limited area; but of this I cannot at present speak with certainty. Mr. Campbell, who has only recently joined the district, is engaged in making a thorough survey of his taluks, and I hope to meet him in a few days, and to be able then to form some estimate of the sum which must be asked for in aid of Local Funds for his division up to June 1892.

10. There is, however, no doubt that in certain localities, chiefly, I believe, in Udayagiri taluk, the demand for work is now pressing. The Taluk Board has no funds. Mr. Campbell has already allotted all the available balance for the repair of a road near Udayagiri. In this case again therefore I request that an immediate grant of Rs. 10,000 may be made in aid of the funds of the Atmakúr Taluk Board for the execution of works in selected localities as need may arise.

Resolution—dated 4th January 1892, No. 6.

In his endorsement on the Sub-Collector's letters of the 7th and 14th December printed in Board's Proceedings (Revenue Settlement, Land Records and Agriculture), dated 23rd December 1891, No. 825, the Collector expressed the opinion that if rain did not fall at an early date in the central and northern taluks of the district, it

might be necessary to open relief works by the middle of January for the support of the poorest classes who were already feeling the great rise in prices. In his telegram of the 28th idem he reported that the situation in the Head Assistant's division had been somewhat improved by falls of rain, but that Ongole and Kandukúr taluks remained much as before and that the Darsi and Podili divisions were growing worse. In his letter of the 29th idem read above, he states that from reports received it seems pretty clear that some work must be provided immediately for the labouring population in the Addanki division of the Ongole taluk, in the Darsi and Podili divisions of the Venkatagiri Zemindari, and in portions of the Udayagiri taluk; and he requests that an immediate grant of Rs. 10,000 may be made to the Ongole Taluk Board for the carrying out of works in the first three divisions named and a grant of an equal sum to the Atmakúr Taluk Board for the carrying out of works in Udayagiri. The relief required in Udayagiri is, the Collector hopes, not likely to be extensive, but in the Ongole and Kandukúr taluks he estimates that it will be necessary to provide works for six months for about $1\frac{1}{2}$ per cent. of the population, for about 2 per cent. in Kanigiri and Darsi and for nearly 5 per cent in Podili. He submits a list of works suitable for giving employment to the numbers thus calculated, the numbers amounting to 11,900 and the cost of the works to Rs. 2,51,581.

2. There can be very little doubt that the very scanty rainfall in October, November and December will very disastrously affect the outturn of the later crops, and the serious rise in prices reported in Board's Proceedings, dated 23rd December, No. 824, must be seriously affecting the labouring classes. The Commissioner agrees, therefore, with the Collector in thinking it probable that relief work on a considerable scale may be required during the next few months. If, however, relief is to be afforded, it must be given in Nellore as in all other districts under the procedure prescribed in the Famine Code, and the Commissioner recommends, therefore, that the grant of Rs. 10,000 each applied for by the Ongole and Atmakúr Taluk Boards shall be given on the understanding that the work shall be tasked and shall be paid for at the rates prescribed in the Famine Code. The works selected by the Collector in the affected tracts to be carried out as above must be works capable of giving employment to considerable numbers, and must be easy of supervision. No better work can be found than that of breaking and stacking metal or that of stacking gravel along the sides of existing roads.

3. Allotments will be made by the Board for the repair of the minor irrigation works situated in the affected taluks. It is up to date estimated that a sum of Rs. 5,981 can be advantageously expended on these works. The Collector will report whether there are any additional minor irrigation works in need of repair.

4. Under Public Works Department Irrigation works it is reported that relief can be afforded to the extent of Rs. 29,600. This sum is for works which the Collector considers can be put in hand without delay. The Commissioner requests that the Public Works Department may be directed to take up the works referred to at the earliest possible date, carrying them out departmentally and by task work, labour being paid for at the rates prescribed in the Famine Code. The department should be requested also to report at an early date whether there are any other works under the control of the department in the affected taluks on which labour can be profitably employed. The question as to whether any special establishments will be needed by the Collector may be left to be determined when the numbers likely to resort to the works are known.

9. Matters in the Head Assistant's Division (Atmakúr Taluk Board) are in a more hopeful condition. There has been more rain and the crops are better. I trust that in this division regular relief work may either not be needed at all, or may be needed only over a very limited area; but of this I cannot at present speak with certainty. Mr. Campbell, who has only recently joined the district, is engaged in making a thorough survey of his taluks, and I hope to meet him in a few days, and to be able then to form some estimate of the sum which must be asked for in aid of Local Funds for his division up to June 1892.

10. There is, however, no doubt that in certain localities, chiefly, I believe, in Udayagiri taluk, the demand for work is now pressing. The Taluk Board has no funds. Mr. Campbell has already allotted all the available balance for the repair of a road near Udayagiri. In this case again therefore I request that an immediate grant of Rs. 10,000 may be made in aid of the funds of the Atmakúr Taluk Board for the execution of works in selected localities as need may arise.

Resolution—dated 4th January 1892, No. 6.

In his endorsement on the Sub-Collector's letters of the 7th and 14th December printed in Board's Proceedings (Revenue Settlement, Land Records and Agriculture), dated 23rd December 1891, No. 825, the Collector expressed the opinion that if rain did not fall at an early date in the central and northern taluks of the district, it

might be necessary to open relief works by the middle of January for the support of the poorest classes who were already feeling the great rise in prices. In his telegram of the 28th idem he reported that the situation in the Head Assistant's division had been somewhat improved by falls of rain, but that Ongole and Kandukúr taluks remained much as before and that the Darsi and Podili divisions were growing worse. In his letter of the 29th idem read above, he states that from reports received it seems pretty clear that some work must be provided immediately for the labouring population in the Addanki division of the Ongole taluk, in the Darsi and Podili divisions of the Venkatagiri Zemindari, and in portions of the Udayagiri taluk; and he requests that an immediate grant of Rs. 10,000 may be made to the Ongole Taluk Board for the carrying out of works in the first three divisions named and a grant of an equal sum to the Atmakúr Taluk Board for the carrying out of works in Udayagiri. The relief required in Udayagiri is, the Collector hopes, not likely to be extensive, but in the Ongole and Kandukúr taluks he estimates that it will be necessary to provide works for six months for about 1½ per cent. of the population, for about 2 per cent. in Kanigiri and Darsi and for nearly 5 per cent in Podili. He submits a list of works suitable for giving employment to the numbers thus calculated, the numbers amounting to 11,900 and the cost of the works to Rs. 2,51,581.

2. There can be very little doubt that the very scanty rainfall in October, November and December will very disastrously affect the outturn of the later crops, and the serious rise in prices reported in Board's Proceedings, dated 23rd December, No. 824, must be seriously affecting the labouring classes. The Commissioner agrees, therefore, with the Collector in thinking it probable that relief work on a considerable scale may be required during the next few months. If, however, relief is to be afforded, it must be given in Nellore as in all other districts under the procedure prescribed in the Famine Code, and the Commissioner recommends, therefore, that the grant of Rs. 10,000 each applied for by the Ongole and Atmakúr Taluk Boards shall be given on the understanding that the work shall be tasked and shall be paid for at the rates prescribed in the Famine Code. The works selected by the Collector in the affected tracts to be carried out as above must be works capable of giving employment to considerable numbers, and must be easy of supervision. No better work can be found than that of breaking and stacking metal or that of stacking gravel along the sides of existing roads.

3. Allotments will be made by the Board for the repair of the minor irrigation works situated in the affected taluks. It is up to date estimated that a sum of Rs. 5,981 can be advantageously expended on these works. The Collector will report whether there are any additional minor irrigation works in need of repair.

4. Under Public Works Department Irrigation works it is reported that relief can be afforded to the extent of Rs. 29,600. This sum is for works which the Collector considers can be put in hand without delay. The Commissioner requests that the Public Works Department may be directed to take up the works referred to at the earliest possible date, carrying them out departmentally and by task work, labour being paid for at the rates prescribed in the Famine Code. The department should be requested also to report at an early date whether there are any other works under the control of the department in the affected taluks on which labour can be profitably employed. The question as to whether any special establishments will be needed by the Collector may be left to be determined when the numbers likely to resort to the works are known.

Read—the following paper:—

From Lieut.-Colonel R. R. E. DRAKE-BROCKMAN, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated 25th June 1891, No. 337 W.

Adverting to G.O., No. 1662 W. of 19th current, I have the honour to inform you that the estimate for extending groyne P of the Vypeen foreshore, Cochin, was never sent to me for the purpose of being forwarded to the Presidency Port Officer, but was sent direct by the Executive Engineer, West Coast division, to that officer. I had no opportunity of seeing it till it was forwarded on to me with No. 1662 W., dated 19th instant. If I had had a previous opportunity of looking into the plan and estimate, acquainted with the locality as I was, and as it was upon my report the estimate was framed, I would have made some modifications in it, which now, however, are too late, as the work has been in progress for some months and nearly completed.

Order—dated 6th July 1891, No. 1836 W., Public Works.

Recorded.

2. The Superintending Engineer, IV Circle, will draw the attention of his Executive Engineers to the provisions of paras. 988 and 989, Public Works Code, under which plans and estimates should invariably be forwarded to Civil officers concerned, through the Superintending Engineer of the Circle. This rule is very frequently overlooked, causing much delay in the disposal of estimates, and attention should be called to it in other circles also.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

Read—the following Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 2nd January 1892, No. 1:—

Mr. Clogstoun.

Read—the following G.O., dated 22nd December 1891, Mis. No. 6547, Revenue:—

Read—the following Proceedings of the Public Works Department, dated 19th December 1891, No. 981 I., on the following note by the Chief Engineer for Irrigation, dated 16th December 1891, No. 210 I.:—

The frequent and urgent demands made by the Revenue authorities upon this branch of the department to provide work for "relief" purposes in Kurnool and Bellary and Anantapur districts and the apparent belief that irrigation works are to provide the chief, if not the sole, "relief" and "famine" work make it advisable that I should draw the attention of Government to the futility of any such belief.

2. The districts in question have in the portions where distress threatens to be keenest but few irrigation works of any size, as will be seen from the following table with reference to some selected taluks in each of the three districts:—

Districts.	Taluk.	Area in square miles.	Numbers of tanks irrigating over 200 acres.	* Average rainfall for 5 years ending 1889-90.
Kurnool	Márkápur	1,110	7	29·48
	Cumbum	1,044	6	
	Pattikonda	1,134	1	
	Rámallakót	834	1	
Bellary	Havinahadgalli	623	2	24·07
	Bellary	985	† None	
	Harpanahalli	592	7	27·36
Anantapur ..	Gooty	1,014	6	
	Penukonda	481	6	
	Anantapur	789	9	

* Taken from Appendix I, P. M. G., No. 904-I., dated 23rd November 1891.
† Four river channels in north-east corner.

3. On only a few of even the small number of such tanks can any considerable amount of earthwork be usefully done and the formation of new tanks may be said to be out of the question. There are not site available for large "two years ‡" tanks and it is only such tanks that in districts with so small and precarious a rainfall it would be advisable to construct, small tanks holding but a few months' supply would whenever the rainfall was more than usually scanty but add to the trouble and distress which they were intended to lessen, better that the ground which would be occupied by their beds and the lands which they would induce cultivators to turn into "wet" should grow dry crops which would often give some return when the rainfall would be insufficient to bring into ear a single rice plant. On his visit to the Ráyachóti taluk of the Cuddapah district last August, His Excellency the Governor noticed § the uselessness of such tanks in a time of need.

‡ Holding two years' supply.

§ See his reply to the address of the people of the Ráyachóti taluk.

Order—

Communicated to the Revenue Department.

Order—dated 22nd December 1891, Mis. No. 6547, Revenue.

Communicated to the Commissioner of Revenue Settlement, Land Records and Agriculture.

(True Extract.)

(Signed) C. A. GALTON,
Secretary to Government.

To the Commissioner of Revenue Settlement, Land Records and Agriculture.

Resolution—dated 2nd January 1892, No. 1.

The Chief Engineer for Irrigation is under an entire misapprehension in assuming that it is the belief of the Revenue authorities that irrigation works are to provide the chief, if not, the sole relief and famine work. These authorities have prepared estimates for miles and miles of roads and for numbers of other works in every district. All that is desired of the Public Works Department in the Irrigation branch is that its omission to maintain in its budgets the lists of works for each district required by section 27 of the Famine code, the execution of which in ordinary seasons would occupy at least four years, should at the earliest possible date be rectified and that it should now give its immediate attention to the preparation of these lists for the affected taluks in the districts of Kurnool, Bellary, Cuddapah and Anantapur, and that in view of the almost certain necessity of providing employment for large bodies of labourers, it should be prepared at short notice to commence work on every irrigation work on which any considerable sum of money can with advantage be spent.

2. It is doubtless the case that in Bellary there are very few irrigation works, but in Kurnool the Commissioner has received from the Executive Engineer a list of works which can profitably be carried out and which will give employment to 10,000 labourers for three months. The list, the Commissioner believes, is by no means complete.

In the Sub-division of Cuddapah there are, the Commissioner understands, very few works under the Public Works Department, but in the Badvél taluk, where relief works are likely to be necessary, there is the Sagilér project, the suitability of which as a relief work should receive the earliest attention of the department. In the Anantapur district also the Commissioner has reason to believe that the Public Works Department can give considerable employment on existing irrigation works which are in need of repair. It is unnecessary for the Commissioner to point out that where works have to be commenced as test works in affected areas, it is extremely desirable that wherever possible the works should be under the control of the Public Works Department which is accustomed to the management and control of large gangs of workmen, rather than that they should be left to the control of an improvised establishment under the Revenue authorities as is generally the case if a road work is selected.

Secretary.

To the Secretary to Government, Revenue Department.
„ Chief Engineer for Irrigation.
Copy to the Collectors concerned.

ORDER—dated 9th January 1892, No. 29, Revenue.

Miscellaneous.

Transferred to the Public Works Department, with the remark that the Board is justified in asking that the Department of Public Works should co-operate in endeavouring to provide work for the large numbers which are likely to come on relief, although it must of course be left to the Department of Public Works to select the works which can be profitably undertaken.
