PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read *the following Res. of*

the Board of Revenue (Land Revenue)
dated 18th February 1893, N^o. 1054 in
on letter from the Collector of Malabar
dated 2nd February 1893, ^{Ref. on C.} N^o. 4861-892.

In forwarding herewith
copy of a letter with its enclosure
dated 28th November 1892, Ref. Ch^g. ¹⁴⁹⁸
C+D.
from the Special Assistant Collector
Malabar, I have the honor to recom-
mend that the Public Works
Department may be requested to
prepare plans and estimates for an
office for the Special Assistant
Collector.

2. The Special Assistant
Collector's office was reconstituted
in the year 1874, but no steps were taken
to have a suitable office built for him.

3. The present building was
formerly used as the B. P. W. Quarters
Malaparam, and I find from Mr.
McGregor's letter dated 22nd May 1874,
N^o. 1386A to the District Engineer that
he proposed to make a formal ap-
-plication

application for the appropriation of the building as an office for the Special Assistant Collector. No papers are however, forthcoming on my records to show whether any such formal application was made.

The present building is a most unsatisfactory one. I examined it in October last during very ^{heavy} rains and I cannot understand how successive Special Assistant Collectors have managed to pull on with it. I do not think anything short of the erection of a new building will suffice although temporary relief might be afforded by building a new room for the clerks. The present building is old and dilapidated and it is so arranged that persons approaching it during rain have to wade through some ~~four~~ inches of water and as they enter the building dodge the drops from the roof a portion only of which is carried away by a rough wooden trough. As to the records it is simply impossible that they can be properly attended to in the present building.

Resolution.

Submitted to Govern-
ment

1043
Government with the request that the necessary instructions may be issued in the Public Works Department.

Order thereon 31st March 1893, N^o 1225.

The Government is not satisfied as to the necessity of providing accommodation on an extensive scale for the office of the Special Assistant Collector in Malabar. An additional room for clerks and a record-room appear sufficient for the present instead of a building on the standard plan which would cost many times as much. As to the inconveniences during the rainy weather, pointed out by the collector, they might be remedied at a small cost by means of drains and eave-pipes and a slight raising of the path-way leading to the office.

2. The Collector should consult the Executive Engineer as to the cost and feasibility of improving & enlarging the present building in the manner suggested above. A plan, to scale, of the present building should be furnished along with the estimates.
