From the Chairman Municipal Council, Bellary dated 10th March 1893, No. 6012.

With reference to G.O. No. 93 Mo. Misc. dated 23rd January 1893, referring the Chief Engineer's Memorandum regarding the water-supply scheme of Bellary to the Municipal Council, and requesting their remarks with regard to provision of funds, I have the honor to forward herewith copy of a resolution of the Municipal Council passed at their meeting held on the 7th ultimo and to state that the council do not consider desirable to adopt the project recommended by the Sanitary Engineer, as the supply of water would depend upon the fall of rain which is very uncertain in this District and they do not think they would be justified in expending 7·29 Lacs for a project of such doubtful utility.
