8TH MAY 1893, No. 1256 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From Major A. W. SMART, R.E., Superintending Engineer, IV Circle, to the Chief Engineer, Public Works Department, dated 12th April 1893, No. 146/W.

I have the honour to forward, for sanction of Government, plans and estimate, amounting to Rs. 9,200, for reconstructing the Coast Cliff Road a distance of 700 feet at the 14th mile 7th furlong near the District Court at Tellicherry.

2. The Chairman, Municipal Council, Tellicherry, writes to say that a large landslip occurred at this place, which rendered the road unsafe for ordinary traffic, as it overlooks the sea, and requests early sanction to the estimate, as it is of importance that the work should be completed before the setting in of the south-west monsoon.

ORDER—dated 8th May 1893, No. 1256 W., Public Works.

The estimate, amounting to Rs. 9,200, for reconstructing the Coast Cliff Road for a distance of 700 feet near the District Court at Tellicherry in the Malabar District, is sanctioned.

2. It is observed that the estimate has not been countersigned by the Chairman, Municipal Council. The Superintending Engineer will see that this point is attended to in future before submitting estimates for Local Fund or Municipal projects.

3. This sanction has been registered as excluded Local No. 5 W. of 1893-94.

TECHNICAL NOTE

Name of work Reconstructing the Coast cliff
road near the Dist. Court at Tellicherry
in the Malabar District

Amount of estimate Rs 9200

The estimate under review provides for reconstructing the Coast cliff road for a distance of 700 feet near the Dist. Court house at Tellicherry owing to its situation to the occurrence of a large landslip at the place which has rendered the road unsafe for traffic as it overlooks the sea.

The proposed road is to be higher than the old road by about 5 feet & the gradients fixed are 1 in 15 & 1 in 75 & 1 in 69.3 for the following distances of 90, 282 & 328 feet respectively. The heaviest cutting is between 20 & 25 feet in depth about the centre of the whole length of roadway.

The road is to have a rise of 6 inches in the centre with side drains

Drains

main cut on both sides to the road
gravelled to a width of 22 feet with
6 inches of gravel.

Provision is made for gravelling
only 600 feet of the road. The remain-
ing 100 ft is omitted if this be
included in the estimate the cost
will be increased by Rs 33.

The Super Engineer suggests to a
slope of the road towards inland
with a catch drain, as per sketch
in the report. But the Municipal
Engineer disapproves of this ar-
rangement as he considers that
the drainage water will work
into the tobacco & cause lands
slips. Still in his estimate pro-
vision is made for side drains
on both sides of the road.

The estimate provides for the
following items:-

Running & repairing M. Drainage.	25
Compensation for trees	250
- do - for land	150

The rates as far as can be
checked are fair.

The plans & estimates have
not been countersigned by the
Chairman Municipal Com-
mittee.
