PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Inspector General of Jails, 19 December 1892 No. 1093.

I have the honor to request that the Government may be pleased to instruct the Public Works Department to prepare the necessary plans and estimates for the construction of (1) a workshop, (2) a store room for grain in the Vizagapatnam District Jail.

2. This jail is a large and well-built one, situated at the head quarters of an extensive District, and it will never be possible to close it, even when the East Coast Railway is completed.

3. It has at present no workshops. Five or three looms have been erected in an old cook-house but there is not nearly sufficient space and the prisoners have to work in the verandahs of the blocks or in the open yards. It would be recommended that the workshop be of the simplest description, a tiled-plate

tiled. pent roof supported on pillars. No
side or end walls will be needed, as these
can be more conveniently enclosed with wire-
netting, which is cheaper and more airy
than brick work.

2. The present store room is sufficient
to store about two months' supply of grain,
but it is very desirable that there should
be the means of storing a six months' supply.
For this purpose a moderate sized room can
be added to the existing store rooms, and
the cost will not be large.

Order 10 January 1893 No 43.

The necessary action
will be taken in the Public Works Depart-
ment.

(Signed)

Ag. Under Secretary

The Public Works Department
Inspector General of Jails
