GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers :—

From S. D. PEARS, Esq., Superintendent of Works, No. I Periyár Division, to the Chief Engineer, Public Works Department (through the General Superintendent, Public Works Stores, Madras), dated Periyár, 31st March 1893, No. 322 C.E.

I have the honour to request that the indent, which I enclose for wrought iron piping, may be forwarded to the Director-General of Stores at your earliest convenience for compliance.

2. The indent for piping, sanctioned with G.O., No. 3013 W. of 11th November 1891, was intended to be final; but the depths of the two shafts of the tunnel, down one of which air has to be carried and up both of which water has to be pumped, appear to have been left out of account, as well as the length of piping required from the foot of both shafts to their respective pumps. There is, therefore, still a deficit of 600 feet which will be required in order to complete the tunnel.

3. A few spare flanges are also required to replace some broken by blasting and other causes.

From L. L. WICKHAM, Esq., General Superintendent, Public Works Stores, to the Examiner, Public Works Accounts, dated Madras, 27th April 1893, No. 7 S.

I have the honour, in accordance with para. 2 of G.O., No. 538 W., dated 1st March 1893, to submit an indent No. 1, in triplicate, duly certified, for wrought iron piping and flanges required for use of No. I Periyár division (the duplicate and triplicate being prepared here) together with the original letter No. 322 C.E., dated 31st March 1893, received from the Superintendent of Works, No. I Periyár Division.

From the Examiner, Public Works Accounts, dated 6th May 1893, No. 1560 C.

ORDER—dated 19th May 1893, No. 1355 W., Public Works.

Ordered that the indent be forwarded to the Director-General of Stores for compliance.

[Here enter No. 1356 W., Public Works, dated 19th May 1893.]
