g. Long Office

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—again the following paper:—

G.O., dated 10th April 1893, No. 929 W., Public Works.

Read—the following paper:—

From the Director-General of Railways, to the Superintending Engineer,
II Circle, dated Calcutta, 9th March 1893, No. 234 S.

With reference to your No. 2819 K.S., dated the 17th February 1893, forwarding a list of stores with the request that the value of the same, if obtained through the India office, may be assessed, I have the honour to state that no bridge girders similar to those described in the list have been imported for State Railways through the India office. Rolled iron beams for roofing purposes were, however, contracted for in England in 1888 at £12-10-0 per ton, as will be seen from the rate list for F. class State Railway stores—station materials and fencing—for the year 1888, which was issued under cover of this office circular No. 35 of 4th December 1889.

2. I would take this opportunity to invite your attention to the annual rate lists for State Railway stores which are issued by this office to all officers of the Public Works Department in India through the several local administrations. These give all available information regarding the price of different descriptions of stores purchased in England and used on State Railways. No information further than what is given in these rate lists is available in this office.

3. If you are not already in receipt of these lists, I would suggest your applying for them through the proper channel.

No. 3148 K.S.

Forwarded to the Chief Engineer, Public Works Department, with reference to the remarks in the indent for iron work required for the bridge over the Tungabhadra drain sent with this office No. 2758 K.S. of the 11th February 1892.

2. Instructions are requested as to what is to be done in cases like this when the information regarding cost, if obtained through India office, cannot be arrived at from the rate lists supplied.

20th March 1893.

(Signed) J. W. MARTIN,
Superintending Engineer, II Circle.

Order—dated 10th April 1893, No. 929 W., Public Works.

The Director-General of Railways will be addressed.

(True Extract.)

(Signed) G. T. WALCH,
Ag. Secy. to Govt., P.W.D.

Letter—from the Acting Secretary to the Government of Madras, Public Works Department, to the Director-General of Railways, dated Madras, 10th April 1893, No. 930 W.

Adverting to your letter No. 234 S., dated 9th March 1893, to the Superintending Engineer, II Circle, I am directed to inform you that the references made to you by officers of the Public Works Department in Madras in regard to the English price of European stores are forwarded in accordance with the orders of the Government of India as contained in circular No. 17, Public Works, dated 28th October 1885, to para. 3 of which I am to invite your special attention.

2. It is only in cases in which your lists do not contain the requisite information that any references are made to you, and in these cases Public Works officers are required to look to you to "assess the probable value."

3. I am to inquire whether you still consider that such references should not be made.

Endorsement from the Superintending Engineer, II Circle, dated 20th April 1893, No. 210 K.S.

READ—also the following paper:—

From the Director-General of Railways, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 20th May 1893, No. 592 S.

I have the honour to acknowledge the receipt of your letter No. 930 W., dated the 10th April 1893, on the subject of the supply by this office to local officers of information in regard to the English price of European stores in accordance with the orders of the Government of India contained in circular No. 17, Public Works, of 28th October 1885.

2. In reply, I have to state that the rate lists of State Railway stores, as at present compiled by this office, contain all the information in the hands of the Director-General of Railways, and as this office has no source of information on which to assess the probable English cost of stores not appearing in the rate lists other than the rate lists themselves, I consider that references from local officers are useless. In this connection I have to invite your attention to Government of India circular No. 3, Public Works, of 7th September 1886, which informed local Governments and administrations that the rate lists issued by the Director-General of Railways give all available information as to the prices of articles ordered through the Secretary of State. As however the orders in this circular do not appear to be sufficiently definite, the matter will be again referred to the Government of India.

ORDER—dated 7th June 1893, No. 1516 W., Public Works.

Communicated to officers of the Public Works Department in continuation of the Proceedings of Government marginally quoted.

No. 2770 W., dated 20th November 1885.
" 1679 W. " 2nd July 1886.
" 2528 W. " 27th September "

2. In the circumstances stated, references to the Director-General of Railways need not be made when the

probable English price of stores proposed to be purchased locally cannot be ascertained from the rate lists periodically circulated.

(True Extract.)

Stores

Directing that references to the Director-General of Railways need not be made when the probable English price of — to be purchased locally cannot be ascertained from the rate lists periodically circulated.

Recd - the following for
Letter from the Director General
of Railways to the Superintending
Engineer, 2nd Circle, dated Calcutta,
the 9th March 1893, No. 234 S.

With reference to your No. 2819
K.S. dated the 17th February 1893 &
forwarding a list of stones with the
request that the value of the same
if obtained through the India Office,
may be ascertained. I have the honor
to state that no bridge girders similar
to those described in the list have been
imported for state railways through
the India Office. Rolled iron beams
for roofing purposes were however
contracted for in England in 1888 at
£12-10-0 per ton as will be seen
from the rate list for H. Class state
railway stones - station materials
and fencing - for the year 1888, which
was issued under cover of this
office circular No. 35 of 4th
December 1889.

2. I would take this opportunity
to invite your attention to the annual
rate

rate lists for State railway stores which are issued by this office to all officers of the Public Works Department in India through the several local administrations. These give all available information regarding the prices of different descriptions of stores purchased in England and used on State railways. No information further than what is given in these rate lists is available in this Office.

3. If you are not already in receipt of these lists, I would suggest your applying for them through the proper channels.
