SIR,

I have the honour to forward, for information and guidance, a printed statement showing the actual *free on board* English rates for G Class State Railway Stores, "Tools and Stores," contracted for by the India Office during 1891.

2. An allowance of 10 per cent. on the original cost of "Tools and Stores," except Portland cement, should be made for entire sea-freight to the several Indian ports, and four-fifths thereof should be entered in indents as payable in England. The allowance that should be made for sea-freight for Portland cement is noted in the column of "Remarks," page 235 of the Rate List forwarded herewith.

3. In order to arrive at the total cost of materials landed at port, an insurance charge of one per cent. on the *free on board* cost, plus the entire sea-freight, should be added in addition to the other incidental charges, exchange being calculated at the official rate for the year.

SIR,

I have the honour to forward, for information and guidance, a printed statement showing the actual *free on board* English rates for G Class State Railway Stores, "Tools and Stores," contracted for by the India Office during 1891.
