GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

1559/1

READ—the following paper:—

G.O., dated 1st June 1893, Mis. No. 2007, Revenue.

Read—the following papers:—

Proceedings of the Board of Revenue (Land Revenue), dated 4th May 1893, Mis. No. 2754.

Read—the following letter from H. BRADLEY, Esq., Acting Collector of Malabar, to the Secretary to the Commissioners of Land Revenue, dated Calicut, 24th December 1892, Ref. on C. No. 5158-P. 92.

I have the honour to request that the Government may be moved under G.O., dated 7th October, No. 2806, Public Works, to sanction the alterations and improvements described below to the Badagara (Kurumbranad) taluk cutcherry which the Executive Engineer considers will cost more than Rs. 500.

2. The cutcherry is built upon the standard plan and is of course not quite suited to the present arrangements by which the establishment has been increased by the appointment of the Stationary Sub-Magistrate and his clerks. The arrangement which I propose is that the Tahsildar shall vacate his room, the large court room, in favour of the Stationary Sub-Magistrate and shall be accommodated in the room intended for the Sheristadar subject to the alterations described below, the Head Accountant sitting just outside the treasury.

3. In December last, before the new cutcherry was taken over from Public Works Department, the Tahsildar pointed out certain defects in the buildings and proposed certain alterations and improvements. This letter was forwarded to the Executive Engineer for his opinion, and in November this year that officer requested that the sanction of Government might be obtained to the preparation of estimates under the Government Order quoted above. A copy of my reply, dated 24th November 1892, is enclosed. On receipt of the Executive Engineer's answer, I requested him to frame estimates for the following works which were among the Tahsildar's proposals of December last year and which the Executive Engineer approved:—

(1) The closing of the external ventilators of the sub-jail with wire gauze netting to prevent people from throwing forbidden articles in to the prisoners.

(2) A batten door to the portion of the sub-jail latrine set apart for the use of the Magistrates.

(3) Railings to keep stray cattle out of the sub-jail cook-house and the ryots' shed.

These appear to me obvious omissions from the original estimates and also for—

(4) Converting the window on the west side of the room proposed to be used by the Tahsildar into a door and continuing the verandah and steps leading to the treasury room to the door of the Tahsildar's room.

This is an alteration rendered necessary by the appointment of the Stationary Sub-Magistrate.

4. The room now occupied by the Tahsildar is unsuited for him because it cannot be entered without passing through the treasury or the Stationary Magistrates' court or passing through the back verandahs of the cutcherry which are occupied by the clerks and attenders. It looks to the east away from the bazaar and the road towards the hedge separating the compound from private property from which the cutcherry is about 20 yards distant. It is essential, I think, that there should be an independent entrance to the Tahsildar's room from the front of the office and that persons having to transact business with him should not be obliged to walk round to the back of the building and tread their way through the miscellaneous collection of articles which are generally to be found in the back verandah of a public office. It follows in this climate that if there is a door on the west, it must be protected by a verandah. I must not omit to state that by a singular piece of carelessness the catch drains of the latrines open in front of them and are almost immediately in front of the only door which leads to the outside of the building from the Tahsildar's present room. The Executive Engineer states that the levels will have to be changed to alter this.

Enclosure.

From H. BRADLEY, Esq., Acting Collector of Malabar, to the Executive Engineer, West Coast division, dated Calicut, 24th November 1892, Ref. on C. No. 4627 P. 91.

In acknowledging the receipt of your endorsement No. 3496, dated 17th November 1892, upon the Superintending Engineer's memo. No. 482 W.C., dated 7th November 1892, I have the honour to point out that my endorsement, Reference on C. No. 5216–P. 91, dated 15th January 1892, did not ask for any estimate for additions and improvements to the new taluk cutcherry at Badagara. The Tahsildar in his letter to the Sub-Collector asked for certain alterations and improvements to the building *before it was taken over* from your department and suggested that they might be met from the unexpended balance of the allotment. After the matter had been lying over for about 9 months, you appear to have forwarded estimates for some or all of the Tahsildar's suggestions to the Superintending Engineer for sanction and that officer merely refers to the Government order forwarded by you, the copy of which is now returned.

2. I cannot believe that the Government order in question is meant to refer to alterations to new buildings proposed before they are taken over from your department, especially such obvious omissions or mistakes in the original estimate as those dealt with in Nos. II, V, VI, VII, IX and XII of the Tahsildar's proposals and to some extent Nos. III and IV. The proposals contained in Nos. I, VIII, X and XI are of a different nature entirely.

3. I therefore request that you will be good enough to inform me whether the Tahsildar's proposals Nos. II to VII, IX and XII should be carried out or not, and if so, what would be their cost.

4. On hearing from you I shall, if necessary, under the G.O., No. 2806 W., Public Works, dated 7th October 1892, apply for sanction, and in doing so I shall raise the question whether the Government order was intended to apply to obvious errors or omissions in original estimates discovered and pointed out before buildings are taken over.

Reference thereon, dated 26th January 1893.

The Consulting Architect to Government is requested to favour the Board with a copy of the standard plan for first-class taluk offices that was in use prior to 1887.

Read—the following letter from H. IRWIN, Esq., C.I.E., Consulting Architect to the Government of Madras, to the Secretary to the Commissioners of Land Revenue, dated Chepák, 30th January 1893, No. 3238.

In reply to your No. 4278, dated the 26th instant, I have the honour to forward 2 plans showing the terraced and tiled designs for taluk offices in use prior to 1889, and request that they may be kindly returned when no longer required.

Reference thereon, dated 27th February 1893.

The Collector is requested to forward a plan of the taluk office at Badagara showing also its surroundings.

1559/2

Read—the following letter from H. BRADLEY, Esq., Acting Collector of Malabar, to the Secretary to the Commissioners of Land Revenue, dated Calicut, 10th April 1893, No. 377 P. G1.

Adverting to the Board's reference on General Register No. 4278 of 1892 and Sub. No. 143 of 1893, dated 27th February 1893, I have the honour to forward herewith a plan of the Kurumbranád taluk cutcherry which practically represents it correctly. The Executive Engineer, West Coast division, informs me that the site plan is not in his office.

2. The record room is at the east, *i.e.*, the back of the office, and the latrines, &c., are between it and the compound wall. The west of the office is open ground except towards the north of the building (the sub-jail end), which is within about 20 yards or so of the Sub-Registrar's office.

Resolution—dated 4th May 1893, Mis. No. 2754.

Submitted for the orders of Government.

2. The additions and alterations proposed by the Collector for the taluk office of Kurumbranád appear necessary and well considered. The Board accordingly recommends, with reference to G.O., dated 7th October 1892, No. 2806 W., that the Executive Engineer of the division may be directed to prepare the necessary plan and estimate.

(True Copies and Extract.)

(Signed) F. LEVY,
for Acting Secretary.

Proceedings of the Board of Revenue, Land Revenue, dated 4th May 1893, No. 2758.

Read—the following letter from H. BRADLEY, Esq., Acting Collector of Malabar, to the Secretary to the Commissioners of Land Revenue, dated Calicut, 24th April 1893, Ref. on C. No. 1482–P. 93.

The taluk cutcherry at Perintalmanna, a revised estimate for constructing which was sanctioned in G.O., dated 3rd August 1892, No. 2148 W., communicated with the Board's Proceedings, dated 30th August 1892, Mis. No. 5429, is reported by the Executive Engineer to be ready for occupation. On my inspection of the building in February last, I noticed the following defects:—

(1) Want of accommodation for the Tahsildar as the court room must be given up for the Stationary Sub-Magistrate. The room provided for the Taluk Sheristadar will do for the Tahsildar if the window on the west side is converted into a door and a flight of steps provided for it. A porch or something in the nature of a weather board will also be necessary. This suggestion is in substance the same as that already before the Board with regard to the taluk cutcherry at Badagara—*vide* correspondence ending with my letter No. 377 P. G1., dated 10th April 1893.

(2) Want of gauze wire-netting for the ventilators of the sub-jail.

(3) Want of a lightning conductor. This appears to me a serious omission considering the position of the building, for I am informed, and its situation with regard to the hills makes it probable, that the place is liable to severe thunder-storms.

2. The Executive Engineer requests that under G.O., dated 7th October 1892, No. 2806 W., Public Works, communicated with the Board's Proceedings, dated 5th November 1892, No. 613, the sanction of the Government may be obtained for carrying out these improvements. I have the honour therefore to request that the necessary sanction may be obtained.

Resolution—

Submitted for the sanction of Government.

Proceedings of the Board of Revenue, Land Revenue, dated 12th May 1893, Mis. No. 2868.

Read—the following letter from H. BRADLEY, Esq., Acting Collector of Malabar, to the Secretary to the Commissioners of Land Revenue, dated Calicut, 28th April 1893, Ref. on C. No. 1541-P. 93.

The Tahsildar of Ernád taluk reports that as he had in October last to vacate the court room in the taluk cutcherry for the use of the Stationary Sub-Magistrate, much inconvenience is felt owing to parties coming before him having to pass through the room in which the clerks are seated. He therefore suggests that a door may be opened on the western side of his room where a window now stands and a porch built outside.

2. The Ernád taluk cutcherry was constructed by the Public Works Department in 1872 and the plan of the building is very similar to the present standard plan. The alterations now suggested are similar to those referred to in my letters, dated 10th and 24th April 1893, Nos. 377 P. Gl. and Ref. on C. 1482-P. 93, respectively. I have the honour therefore to request that the Public Works Department may be requested to have the work carried out.

Resolution—

Submitted for the sanction of Government in continuation of Board's Proceedings, dated 4th May 1893, Mis. Nos. 2754 and 2758, Revenue.

Order—dated 1st June 1893, Mis. No. 2007, Revenue.

Transferred to the Public Works Department.

4 & P.

Sir

In acknowledging the receipt of your endorsement no. 3496 dated November 17, 1892 upon the Superintending Engineer's memorandum no. 452/W.C dated November 7, 1892. I have the honor to point out that my endorsement referred to no. 5216/P91 dated January 15, 1892 did not ask for any estimate for additions and improvements to the new Taluk Cutcherry at Badagara. The Tahsildar in his letter to the Sub Collector asked for certain alterations and improvements to the building before it was taken over from your Department and suggested that they might be met from the unexpended balance of the allotment. After the matter had been lying over for about 9 months you appear to have forwarded estimates for some or all of the Tahsildar's suggestions to the Superintending Engineer for Sanction and that officer merely refers to the G.O forwarded by you, the copy of which is now returned.

2

2 I cannot believe that the G.O in question is meant to refer to alterations to new buildings proposed before they are taken over from your Department; Especially such obvious omissions or mistakes in the original estimate as those dealt with in nos. II, V, VI, VII, IX and XII of the Tahsildar's proposals and to some extent nos III and IV. The proposals contained in nos I, VIII, X and XI are of a different nature entirely.

3 I therefor request that you will be good enough to inform me whether the Tahsildar's proposals nos II to VII, IX and XII should be carried out or not and if so what would be their cost.

4. On hearing from you I shall if necessary under the G.O no. 2806 W-PW dated October 7, 1892 apply for Sanction and in doing so, I shall raise the question whether the G.O was intended to apply to obvious errors or omissions in original estimates discovered and pointed out before buildings are taken over
