PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Proceedings

1578
of the Board of Revenue, (Land Revenue), dated
16 March 1892, no. 1765 Misc. on the following letter
from G. Stokes Esq. Collector & District Magistrate,
Salem, dated 10 March 1892, Ref. No. 687 Eng.

I have the honor with reference D.G. G.

No. 433 Public dated 27 June 1892 and No. 2806 W

Public Works dated 7 October 1892, to request that
the Executive Engineer may be permitted to
prepare an estimate for certain works which I
propose should be made in the Nagar Treasury.

2. The bulk of the stamps and treasure which
is under the joint lock of the Treasury Deputy Collector
and the Treasurer is secured in a screened
building constructed in 1886 behind the old
sited Treasury room. This new building was
found insufficient and was extended in 1889.

3. The stamps and money in the custody
of the Treasurer and stationery are secured in
the stationery room and is watched at night by

an extra temporary guard.

4. I propose that the main walls of the new Treasury should be extended down and the old tiled building and a terraced room constructed in continuation of the double lock room. This new room or a portion of it may be used as the single lock room and the extra guard dispensed with.

5. The accommodation for the shroffs and the clerical portion of the Treasury branch are also utterly inadequate. They now occupy a portion of the old tiled building. Another portion is now occupied by the Police constables of the Treasury guard when they are off duty. I propose to shift the guard into another building close to the main Treasury which is now little used and can be easily adapted for their use.

6. At my request, the Executive Engineer was kind enough to inspect the Treasury buildings on the morning of the 15th ultimo when my Treasury Deputy Collector explained these proposals to him. He agrees with me in considering that the proposed improvements are very much needed

for the security of the treasury but has asked me to obtain the sanction of Government to allow him to prepare the estimate. I do not think the cost will be much.

Resolution

Submitted to Government with the request that the necessary orders may be issued in the Public Works Department.

Read also the following Proceedings of the Board of Revenue, Land Revenue, dated 17th May 1893, no: 3034 Misc., on the following letter from J. Andrew Esq. Dy. Collector of Salem, dated 15th May 1893, Ref No. 774-BTC.

With reference to Board's Proceedings No. 2098 Misc. dated 5th April 1893, I have the honor to forward herewith a ground plan and an elevation plan of the Salem Treasury Buildings with the proposed extension as shown in red, obtained from the Executive Engineer, Salem Division, with his letter No. 487 dated 10th instant.

The Engineer states that the whole work will not cost more than about (Rs 1200) Twelve hundred Rupees.

Resolution

Submitted to Government with reference to its Memorandum dated 24 March 1893, No. 56 Revenue Department.

Order thereon, 8 June 1893, no: 2103.

Transferred to the Public

Works
