GOVERNMENT OF MADRAS.  
PUBLIC WORKS DEPARTMENT.

General.  
Establishment.

Read—the following paper:—

Proceedings of the Government of India, Public Works Department (General),  
dated Calcutta, 16th January 1892, No. 148 G.

[*Procedure to be adopted in future with a view to the Survey Department being supplied  
with information as to all public works.*]

Read—again

Public Works Department circular No. XIV P.W., dated 11th October 1883.  
Paras. 44 and 44-A, chapter IX, volume I, Public Works Code, 5th edition.

Read—also

Public Works Department letter No. 3551 G., dated 23rd December 1890, to local Gov-  
ernments and Administrations, asking for opinion as to the best method of supplying  
information to the Survey Department as to the exact location of various public works.  
Replies from local Governments and Administrations to the above letter.

Resolution—

In supersession of the previous orders communicated in the circulars read in  
the preamble and contained in Public Works Department Code, volume I, chapter IX,  
paras. 44 and 44-A, relative to the procedure to be adopted with a view to the  
Survey Department being supplied with information as to all new public works  
to enable the map of India to be brought up to date, His Excellency the Governor-  
General in Council is pleased to lay down the following procedure, which, having  
already been adopted in the case of railways, should be adopted in future with regard  
to canals, large irrigation channels and main lines of road:—

(1) When any such public work has been constructed, or section thereof has  
been opened, the index or record map, on whatever scale available (not less than  
one inch = one mile), provided it is from original surveys and not a mere eye-sketch  
made on traces from the Survey of India maps, should be sent to the Survey of India  
Office, Calcutta, and that department should take steps to have the material utilised  
by its own draftsmen.

(2) To ensure the material supplied being suitable for the purposes of the  
Survey Department, the topography adjoining the alignment, such as village-sites,  
trijunction boundary pillars, other permanent objects and the crossing of roads and  
streams, should be accurately shown and it should be stated on the maps supplied if  
the information is derived from actual survey or otherwise.

(3) The index or record maps that are sent to the Survey Department should  
be treated with every care and always returned as early as possible to the offices  
from which they have been received, so that the labour of making traces need not be  
resorted to.

*Order—*

Ordered that the above Resolution be forwarded to the local Governments and Administrations noted in the margin and to the Surveyor-General for information and guidance.

The Governments of Madras, Bombay, Bengai, the North-Western Provinces and Oudh, and the Punjab.  
The Chief Commissioners of the Central Provinces, Burma, Assam and Coorg.  
The Resident at Hyderabad.  
The Agents to the Governor-General for Central India, Rajputana, and Baluchistan.

(Signed) G. H. D. WALKER,  
Under-Secy. to the Govt. of India.

*ORDER—dated 12th February 1892, No. 431 W., Public Works.*

Communicated to officers concerned, for information and guidance, in supersession of previous orders \* on the subject.

\* *Vide* G.O., No. 805 W., dated 19th March 1891.

2. Public Works officers will be responsible for submission of the required maps in the case of all works of the classes named carried out by them. Works carried out by Civil officers will be similarly reported to the Revenue Department and those undertaken by Local Boards to the Local and Municipal Department.

3. The maps from all officers and departments, excluding those showing railways, will be forwarded to the Surveyor-General through the Public Works Secretariat.

4. As regards railways, an index plan accompanies each report to the Government of India of the opening of a new section of line and it is understood that the Survey Office at Calcutta thus obtains a copy from the Government of India Secretariat.

ORDER—dated 24th December 1892, No. 3055 L., Local and Municipal.

The papers read above contain statements showing the roads constructed, &c., during the year 1892, submitted with reference to G.O., dated 16th October 1885, No. 893 L.F., by the Presidents of District Boards other than those of South Arcot, Cuddapah and Godavari. But as this order has been superseded by G.O., dated 9th March 1892, No. 595 L., according to which index or record maps of the main lines of roads constructed by Local Boards or a section thereof opened by them should be submitted, all Presidents of District Boards are requested to forward these maps for the year 1892 by the 31st January next and similar maps in future years by the 15th January.
