GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

From C. R. BECHER, Esq., Officiating Under Secretary to the Government of India, Public Works Department (Account—General), to the Secretary to the Government of Madras, Public Works Department, dated Calcutta, the 16th February 1893, No. 38/A.G.

With reference to the accompanying extract, para. 65, from a report of an inspection of the office of the Examiner, Public Works Accounts, Madras, by Mr. Hart, Officiating Deputy Auditor-General, I am directed to request that steps may be taken to minimise the delay in the completion of award statements for land taken up for Public Works, brought to notice by the Inspecting officer.

ENCLOSURE.

EXTRACT para. 65 of an Inspection Report by Mr. G. H. R. HART, Officiating Deputy Auditor-General, on the office of the Examiner of Public Works Accounts, Madras.

65. The number of land award statements undisposed of at the end of the year 1890-91 was seriously large, amounting to 2,884, of which 768 had been received in that year, while the others appertained to previous years as shown below:—

1882–83	...	...	1	1887–88	...	...	292
1884–85	...	...	3	1888–89	...	...	668
1885–86	...	...	21	1889–90	...	...	1,014
1886–87	...	...	117				

Of these all but 490 had been disposed of on 20th June 1892, when the total number undisposed of, including all those received up to date, was 897. In the cases of long standing much difficulty, as might have been expected, appears to have been experienced in ascertaining—

(1) from the Executive Engineers the dates on which the Public Works Department actually took possession of the land; and

(2) from the Civil Account officers the date on which claims for compensation were disbursed or the amounts were deposited in the treasury.

The only remedy is to prevent accumulation of arrears by means of timely pressure on the Divisional and Account officers concerned.

Proceedings of the Board of Revenue (Land Revenue), dated 1st May 1893, No. 216.

Read—the following Government Order, dated 1st April 1893, Mis. No. 1244, Revenue:—

Read—endorsement from the Public Works Department, dated 11th March 1893, No. 1159-C, transferring the following office-note from the Examiner, Public Works Accounts, dated 6th March 1893, No. 79-A:—

Your office-note No. 841-C., dated 23rd February 1893.

When I assumed charge of this office in June 1891—

The number of land award statements awaiting completion was	...	3,033
Since then the number received in my office up to 28th February 1893 has been	...	1,053
Making a total to be dealt with of	...	4,086
The number completed and forwarded to the Board of Revenue has been	...	3,334
Leaving still to be disposed of	...	752

Of these, 423 appertain to the year 1892–93, and the limit of time for payment of the award, prescribed in Civil Account Code, volume I, Appendix C, para. 10, has not expired, so that the present arrears of this office may be stated as 329 land award statements.

2. The above figures will show that during the past 20 months strenuous efforts have been made to clear off the accumulated arrears of previous years; but as correctly stated by the Deputy Auditor-General, "in the cases of long standing much difficulty, as might have been expected, appears to have been experienced in ascertaining—

"(1) from Executive Engineers the dates on which the Public Works Department actually took possession of the land; and

"(2) from Civil officers the date on which claims for compensation were disbursed or the amounts were deposited in the treasury."

And I fully concur in that officer's suggestion that "the only remedy is to prevent accumulation of arrears by means of timely pressure on the officers concerned," in so far as the *future* is concerned.

3. The procedure authorized in Government Order, No. 3247 W., dated 25th November 1892, under which each award statement will in future be forwarded to the Examiner through the Executive Engineer concerned, with the date of possession entered in it, will effectually prevent delays on the first of the two grounds mentioned in the preceding paragraph; but I am powerless to remedy the neglect on the part of Civil officers to carry out the rule in the Civil Account Code to which reference is made in paragraph 1 of this letter.

4. In addition to numberless letters I have written to Collectors on the subject, I have twice addressed the Board of Revenue (*vide* enclosed copy of my letters, No. 782 S.A., dated 4th June 1892, and No. 1463 C, dated 22nd October 1892).

5. In the letter last quoted, the number of land award statements awaiting completion as to date of payment of the award or of deposit in treasury was stated at 78, as abstracted in the following statement:—

Districts.	Year to which the statements relate.								Total.

Total ..	2	1	6	3	7	13	7	57	27	123

6. Comparing these two statements, it will be noticed that the progress made in obtaining from Collectors the required information has been inappreciable, *e.g.*:—

As time progresses, the difficulty of obtaining particulars as to date of payment of award or of deposit in treasury in regard to the statements of 1884 to 1891 will doubtless increase; and I therefore beg that the Board of Revenue may be moved to issue such orders as will ensure very early communication to me of the requisite information. As stated in para. 2 of my letter, No. 1463-C., dated 22nd October 1892, to the Board of Revenue each Collector has been furnished with full particulars of the land award statements appertaining to his district that are still incomplete for want of such information.

7. I would also request that steps may be taken to enforce rigid compliance, in connection with all future land award statements, with the requirements of Civil Account Code, Appendix C., para. 10.

Resolution—dated 1st May 1893, No. 216.

Communicated to the Collectors concerned in continuation of Board's Proceedings, dated 9th June 1892, No. 273, and 26th October 1892, No. 6871, Mis.

2. Their special attention is drawn to paras. 6 and 7 of the Examiner's office-note, and they are requested to furnish, as regards the pending award statements, the requisite information with the least delay practicable, and to see that the instructions contained in Civil Account Code, Appendix C., para. 10 (which is the same as para. 10 of the Appendix to para. 13 of draft revised Standing Order No. 11, printed in Board's Proceedings, dated 13th March 1893, No. 110), and in para. 3 of the Examiner's letter communicated with Board's Proceedings, dated 9th June 1892, No. 273, are strictly complied with.

3. The Board trusts that Collectors will use every endeavour to avoid similar complaints of delay in regard to the land award statements in future.

Office-note from the Examiner, Public Works Accounts, dated Madras, 3rd June 1893, No. 1939 C.

In para. 5 of my office-note No. 79 A., dated 6th March 1893, I furnished a memorandum of land award statements that awaited completion in my office as to

date of payment or deposit in treasury of the amount of the award, and orders with regard to these have been passed in the Proceedings of the Board of Revenue (Land Revenue), No. 216, dated 1st May 1893; but as stated in para. 2 (i) of my note above quoted there are other award statements that cannot be finally dealt with in the absence of information from Executive Engineers as to the date on which the Public Works Department took possession of the land.

2. Prior to March 1893, I had made repeated applications to the Executive Engineers concerned for the required information, and in my letter No. 705 C. of 7th March 1893, I sought the intervention of Superintending Engineers in the matter; but it would appear that owing to the absence of arrangements for a systematic record in divisional offices of information on the point in question, it is impossible to ascertain the exact date on which the land in each case passed into the possession of this department. The procedure authorized in G.O., No. 3247 W. of 25th November 1892, will ensure regularity on this point, in future; but special legislation appears necessary in reference to the incomplete award statements of date prior to 1st November 1892, which may thus be summarized :—

I enclose detailed statements of these for each division; and in order that no further time may be lost in dealing with them, I beg to suggest, for the consideration of Government,—

(i) that in every case in which the actual date of possession is not readily ascertainable, Executive Engineers may be authorized to report to this office the month and year in which the first outlay was incurred on the work for which the land was acquired, and that this be accepted as the date of possession of land by the Public Works Department;

(ii) that in the event of any land not having been acquired by this department, Executive Engineers may be instructed to state the fact against the land award statement to which it refers.

Order—dated 16th June 1893, No. 1609 W., Public Works.

The Government approves the suggestions in the Examiner's office-note, No. 1939 C. of 3rd June 1893, above recorded, and directs that they be carried out by officers of the Public Works Department.

of these, all but 490 had been disposed of on 20th June 1892, when the total number undisposed of, including all those received up to date, was 897. In the cases of long standing much difficulty, as might have been expected, appears to have been experienced in ascertaining (1) from the Executive Engineers the dates on which the Public Works Department actually took possession of the land, and (2) from the Civil account officers the date on which claims for compensation were disbursed or the amounts were deposited in the Treasury. The only remedy to prevent accumulation of arrears lay means of timely pressure on the

the Divisional and account officers concerned.

OFFICE NOTE No. 1939 C.

To

W.

In para 5 of my office note No. ~~1159~~ C. dated 8th. March 1893, I furnished a memorandum of land award statements that awaited completion in my office as to date of payment or deposit in treasury of the amount of the award, and orders with regard to these have been passed in the Proceedings of the Board of Revenue (Land Revenue) No. 216 dated 1st. May 1893; but as stated in para 2(i) of my note above quoted there are other award statements that cannot be finally dealt with in the absence of information from Executive Engineers as to the date on which the P.W.D. took possession of the land.

2. Prior to March 1893, I had made repeated applications to the Executive Engineers concerned for the required information and in my letter, No. 705 C. of 7th. March 1893 I sought the intervention of Supg. Engineers in the matter; but it would appear that owing to the absence of arrangements for a systematic record

Copy obtained from C's office.

in Divisional offices of information on the point in question, it is impossible to ascertain the exact date on which the land in each case passed into the possession of this Department. The procedure authorized in G.O.No.3247 W. of 25th.November 1892 will ensure regularity on this point, in future; but special legislation appears necessary in reference to the incomplete award statements of date prior to Ist. November 1892, which may thus be summarized:-

I enclose detailed statements of these for each Division; and in order that no further time may be lost in dealing with them, I beg to suggest, for the consideration of Government -

'i. that in every case in which the actual date of possession is not readily ascertainable, Executive Engineers may be authorized to report to this office the month and year in which the first outlay was incurred on the work for which the land was acquired; and that this be accepted as the date of possession of land by the P.W.D.

ii. that in the event of any land not having been acquired by this Department, Executive Engineers may be instructed to state the fact against the land award statement to which it refers.
