READ—the following paper :—

From W. R. BROOKE, Esq., Director-General of Telegraphs, to the Secretary to the Government of Madras, Public Works Department, dated Calcutta, 3rd January 1893, No. 6696.

In continuation of my letter No. 7978, dated the 17th of March 1892, I have the honour to inform you that Madanapalle was connected to the telegraph system in May 1892 by a cheap line *vid* Punganūr and Palmanūr.

2. So far the scheme has proved fairly successful, as will be seen from the figures given below, in which, however, no provision is made for the reconstruction of the line later on with permanent material should it finally be decided to retain these offices :—

Capital cost of the scheme.	Working expenses for four months ending 31st August 1892.	Receipts for same period.	Excess of receipts over working expenses.
RS. 9,022	RS. A. P. 670 14 7	RS. A. P. 910 1 3	RS. A. P. 239 2 8

3. Looking to the result obtained, I have the honour to inquire whether the Madras Government can acquaint me with any other places to which the extension of the telegraph might be undertaken with a fair prospect of such extensions paying their working expenses including interest on the Capital outlay on the lines and offices.

ORDER—dated 23rd January 1893, No. 162 W., Public Works.

Communicated to the Revenue Department with reference to G.O., No. 986 W., dated 25th March 1892.

2. With the Proceedings marginally noted, recommendations were forwarded to the Director-General for the extension of the telegraph to Udamalpet and Kollegāl in the Coimbatore district and to Sholinghur in the North Arcot district.

Inquiry will be made in the Revenue Department whether there are any other places to which extensions might be undertaken with a fair prospect of financial success.
