GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

From H. IRWIN, Esq., C.I.E., Consulting Architect to Government, to the
Chief Engineer, Public Works Department, dated Chépák, 22nd June 1893,
No. 863.

With reference to G.O., No. 507 W., dated the 27th February 1893, I have the honour to submit the plan of a bank, 11 feet high, proposed to be raised on three sides of the latrine built on the foreshore opposite the Fort to screen it from the upstairs houses of the Fort. The Executive Engineer, Madras Division Military Works, considers that the Defence Committee would object to it and suggests stout trellis work covered with creepers instead. On this exposed situation I think it would be difficult to get creepers to stand on the trellis. It would perhaps be better to plant, say, two rows of casuarina trees and keep them trimmed to a height of 11 feet. The cost of planting and keeping watered for, say, 6 months will amount to about Rs. 50. The estimate for the embankment amounts to Rs. 240.
Soliciting orders on the subject.

ORDER—dated 3rd July 1893, No. 1731 W., Public Works.

In the circumstances stated, the Consulting Architect is authorised to substitute a double row of casuarina trees for the bank ordered in G.O., No. 507 W., dated 27th February 1893.

No. 863

From

Henry Inwin, Esq., C.I.E.,
Consulting Architect
to the Government of Madras,

To

The Chief Engineer
Public Works Department.

Is,

Enclosures.

With reference to G.O. No. 504 W dated the 24 February 1893, I have the honor to submit the plan of a bank 11 feet high proposed to be raised on three sides of the latrine built on the foreshore opposite the Fort. It is seen it from the upstairs houses of the Fort. The Executive Engineer Madras Division Military Works considers that the Defence Committee would object to it and suggests stout trellis work covered with creepers instead. On this exposed situation I think it would be difficult to get creepers to stand on the trellis. It would perhaps be better to plant say two rows of Casuarina trees and keep them trimmed to a height of

of 11 feet. The cost of planting and keeping water
for say 6 months will amount to about Rs 50.
The estimate for the embankment amounts to
Rs 240.
