GOVERNMENT OF MADRAS.

MILITARY DEPARTMENT.

Sanitary.

Read the following papers:—

No. 106. From Brigadier-General E. H. EYRE, Quarter Master General, Madras Army, to Brigdr.-Genl. H. R. HOPE, Secretary to Government, Military Department; dated Ootacamund, 19th November 1892, No. 2537-B (Sanitary).

With reference to this office letter No. 2311-B of 25th ultimo, I am desired to state that the main surface drain leading from the lines of the Pioneer regiment at Trichinopoly, although carried to a point sufficiently distant from the lines to carry the sewage water clear of them, no scheme for the disposal of the filth and sewage which accumulates at the end of the drain has yet been adopted, the result being that, for the want of an outlet, the water stagnates and renders the surroundings very insanitary.

2. To remedy the evil in question the local Military and Medical authorities have recommended the purchase, at a cost of Rs. 300, of an acre of land adjacent to the lines on to which the line sewage might be discharged from this drain, the Municipality having offered to take over and work the same as a sewage farm. This proposal commends itself to the Commander-in-Chief who considers that its adoption will result in material improvement of the sanitary condition of the lines and I am accordingly to submit the same for the sanction of Government.

3. As the land, when converted into a sewage farm, is to be maintained at the cost and for the benefit of the Municipality, the General Officer Commanding Southern District was desired to ascertain whether, under these circumstances, the Municipality would not be prepared to contribute towards the purchase of the ground; this, however, the Chairman regrets his inability to do, and considers that the Council will be doing enough if they charge themselves with the upkeep of the sewage farm.

4. The Controller of Military Accounts has been * requested to provide for this expenditure in the budget of 1893-94 under head "Purchase and rent of land and buildings, miscellaneous services," Grant 14.

* Quarter Master General's No. 2170-MW, dated 22nd October 1892.

No. 107. From Lieutenant-Colonel G. W. SAWYER, for Controller of Military Accounts, to Brigadier-General H. R. HOPE, Secretary to Government, Military Department; dated 23rd November 1892, No. 1034-G.

Forwarded.

2. The necessary provision will be made by this office in the ensuing year's budget estimate now under preparation on orders † received from the Government of India.

† Vide Government of India letter No. 2324-F, dated 29th August 1892.

2 MILITARY DEPARTMENT, 14th MARCH 1893, No. 1748.

No. 108. Telegram from the Secretary to Government, Military Department, to the Quarter Master General, Madras Army, Ootacamund; dated Fort St. George, 9th December 1892, No. 7872.

Your 2537-B of 19th November.

Presume land referred to is private property and that Rs. 300 proposed to be paid first is, in opinion of local Civil authorities, not excessive.

No. 109. From Brigadier-General E. H. EYRE, Quarter Master General, Madras Army, to Brigadier-General H. R. HOPE, Secretary to Government, Military Department; dated 31st January 1893, No. 212-B (Sanitary).

With reference to your telegram No. 7872 of 9th ultimo, and in continuation of this office letter No. 35-B of 10th instant, I am desired to state that the land proposed to be taken up near the Pioneer lines, Trichinopoly, for sanitary purposes, is private land and, in the opinion of the local Civil authorities, Rs. 300 an acre is not considered excessive.

2. I am, however, to report that it has now been represented that two acres of land will have to be acquired instead of one, and that, as the land in question is higher than the drain adjoining it, it will be necessary to lift the sewage discharged therefrom by means of a picottah, to do which the Executive Engineer, Trichinopoly Division, reports that the sewage would first have to be collected in a well, the best site for which he considers to be about 50 feet beyond the outlet of the present drain, which will consequently have to be extended that length.

3. The cost of constructing a well, including the picottah and extension of the drain, is estimated at Rs. 500, thus bringing the total cost of the scheme to Rs. 1,100,* to which I am to solicit the early sanction of Government, and to express regret that this was not brought to notice in the first instance.

4. Should this proposal be sanctioned by Government, Grant 14 of the military budget estimate will be affected as follows:—

	1892-93.	1893-94.
	Rs.	Rs.
Miscellaneous	...	...
Purchase and rent of lands and buildings	9,91,280	9,92,380
	57,880	58,980

No. 110. From Lieut.-Col. O. F. THOMAS, Controller of Military Accounts, to Brigdr.-Genl. H. R. HOPE, Secretary to Government, Military Department; dated 4th February 1893, No. 90-G.

Forwarded.

2. Should sanction be accorded by the Government of India to the application of the Quarter Master General, the extent to which the head "Purchase and rent of lands and buildings," Grant 14 of the budget estimate of next year, will be affected is Rs. 1,100. The figures given for 1893-94 by the Quarter Master General in para. 4 of his letter are incorrect, the amounts being arrived at by adding the extra cost involved by the proposal to the sanctioned allotment for the current year. The sanctioned amount for next year will not probably be known till the end of March next.

No. 111. ORDER THEREON, 14th March 1893, No. 1748.

The Government of India will be addressed.

No. 112. To the Secretary to the Government of India, Military Department; dated 14th March 1893, No. 1749.
