17TH JULY 1893, No. 1851 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following paper:—

From A. A. G. MALET, Esq., Officiating Superintending Engineer, II Circle,
to the Chief Engineer, Public Works Department, dated 4th July 1893,
No. 243 N.L.

In forwarding, herewith, for your approval and sanction of Government, estimate, amounting to Rs. 218, on account of expenditure incurred for belts and badges in Nellore division, I have the honour to bring to your notice that 15 temporary lascars, who have been employed in the distribution of water in the Pennéru delta, have also been provided with belts and badges, as it was found necessary by the Executive Engineer that they should be supplied to the temporary men also.

ORDER—dated 17th July 1893, No. 1851 W., Public Works.

In continuation of G.O., No. 1444 W., dated 9th May 1892, Superintending Engineers are authorised to issue belts and badges to temporary as well as permanent delta lascars.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

READ—the following papers:—

Office-note to the Examiner, Public Works Accounts, dated 20th April 1891, No. 66 D.
" from " " " 15th June " " 3323.

ORDER—dated 4th July 1891, No. 1822 W., Public Works.

It is observed that, under G.O., No. 880 W., dated 24th March 1879, all "messengers," employed on the several office establishments in circles, are, at the discretion of Superintending Engineers, entitled to be distinguished by belts and badges. It has now been brought to notice by the Chief Engineer that, owing to the insufficient number of messengers attached to Executive officers, the duties proper of this class of servants, such as the cashing of cheques at treasuries, receipt of letters at post offices, &c., have frequently to be performed by "lascars," and that, as these lascars are invested with no distinguishing badge of office, inconvenience not unfrequently arises.

2. His Excellency the Governor in Council is accordingly pleased to direct that, in addition to the ordinary messengers, a certain number of lascars may be supplied with belts and badges. It will perhaps be sufficient if two of the lascars attached to each Executive division, and one of those employed under each Sub-divisional and Detached officer, be allowed belts and badges. Superintending Engineers are accordingly authorised to arrange for the supply to this extent.

3. The belts and badges should be of a uniform pattern throughout the department. The pattern will be settled by the Chief Engineer.

4. These orders do not apply to Public Works Department Secretariat peons, whose livery and badges are uniform with other departments of the Secretariat.
